ALL IN WITH LOVE

MY JOURNEY TO THE HERO WITHIN

FriesenPress Imagine stepping into the spotlight of New York and Hollywood, a lifestyle where stardom, celebrity life, and a Chippendale bow tie were the everyday norm? Fame was the dream of an innocent young boy that played out in the heart of a man who in turn lost sight of the boy within. This is their story. Born with severe asthma and enormous dreams, James Gardiner began his life in conflict with himself. Little Jimmy wanted to reach for the stars like his science-fiction icons and become a sports superstar like the paper heroes that adorned the walls of his childhood bedroom. But as a frequent visitor to the local hospital, viewing the world through the plastic walls of an oxygen tent, such dreams seemed like they would always be firmly out of reach. However it was there on the pediatric wing that he began to entertain audiences with his stories and charm, growing to like the attention. In fact, to crave it. He wanted to “be somebody,” and for the first time, his dreams didn’t seem quite so out of reach. As he got older, and his asthma became more manageable, he began forging his path of destiny. First, through the sport of rowing where the fragile young man dared to challenge his asthma and strive for the Olympic podium. Then, it was his lust to be a movie star that thrust him into New York City and Los Angeles to world of fashion, celebrity, and even murder. But it was his one unanswerable question that repeatedly seemed to leave his life in shambles. “Can his fantasy life be his reality” became the albatross that hung over the man... and the boy. Somewhere along the way, he had lost touch with that childlike part of himself that looked at the world each day with joy and wonder. Looking back he had gone “all in” on his quest to be somebody, but now as a middle aged man left with nothing and no one, it was time to reconnect with little Jimmy and go all in on himself. . . . to go all in with love. Within their story of reconnection lies the gateway to reclaim your inner child and live your best, most authentic life.

THE SPIRIT AND THE SKY

LAKOTA VISIONS OF THE COSMOS

U of Nebraska Press *The interest of nineteenth-century Lakotas in the sun, moon, and stars was an essential part of their never-ending quest to understand their world. The Spirit and the Sky presents a survey of the ethnoastronomy of the nineteenth-century Lakota and relates Lakota astronomy to their cultural practices and beliefs. The center of Lakota belief is the incomprehensible, extraordinary, and sacred nature of the world in which they live. The earth beneath and the stars above constitute their holistic world. Mark Hollabaugh offers a detailed analysis of all aspects of Lakota culture that have a bearing on their astronomy, including telling time, Lakota names for the stars and constellations as they appeared on the Great Plains, and the phenomena of meteor showers, eclipses, and the aurora borealis. Hollabaugh's explanation of the cause of the aurora that occurred at the death of Black Elk in 1950 is a new contribution to ethnoastronomy.*

THE NOGRE

THE ASSAULT ON AMERICAN EXCELLENCE

Free Press *A New York Times Editors' Choice* *The former dean of Yale Law School argues that the feverish egalitarianism gripping college campuses today is out of place at institutions whose job is to prepare citizens to live in a vibrant democracy. In his tenure at Yale, Anthony Kronman has watched students march across campus to protest the names of buildings and seen colleagues resign over emails about Halloween costumes. He is no stranger to recent confrontations at American universities. But where many see only the suppression of free speech, the babying of students, and the drive to bury the imperfect parts of our history, Kronman recognizes in these on-campus clashes a threat to our democracy. As Kronman argues in The Assault on American Excellence, the founders of our nation learned over three centuries ago that in order for this country to have a robust democratic government, its citizens have to be trained to have tough skins, to make up their own minds, and to win arguments not on the basis of emotion but because their side is*

*closer to the truth. In other words, to prepare people to choose good leaders, you need to turn them into smart fighters, people who can take hits and think clearly so they're not manipulated by demagogues. Kronman is the first to tie today's campus debates back to the history of American values, drawing on luminaries like Alexis de Tocqueville and John Adams to show how these modern controversies threaten the best of our intellectual traditions. His tone is warm and optimistic, that of a humanist and a lover of the humanities who is passionate about educating students capable of living up to the demands of a thriving democracy. Incisive and wise, *The Assault on American Excellence* makes the radical argument that to graduate as good citizens, college students have to be tested in a system that isn't wholly focused on being good to them.*
