## **THE HOLY SPIRIT AND CHRISTIAN ETHICS IN THE THEOLOGY OF KLAUS BOCKMUEHL**

---

Wipf and Stock Publishers Klaus Bockmuehl (1931-1989), former Professor for Systematic Theology at Regent College, Vancouver, published outstanding theological ethical works. The questions that Bockmuehl explored have not lost any relevance: How do we know what God's will is in a particular situation? Is Scripture sufficient for ethical decisions or should we listen to God? Does God even speak today? Is there a distinctive Christian ethic? Bockmuehl's central contribution can be found in his emphasis on the seminal role the Holy Spirit plays within Christian ethics, not only as the one who realizes the reign of God in the life of the individual but also as the one guiding the individual in a particular situation. This book is the first in-depth study of Bockmuehl, introducing readers to his theology and ethics, including a short biographical overview, delineating and appraising how he understands the role of the Holy Spirit in Christian ethics. It is not a book without criticism and its own creative contribution. Annette Glaw concludes her fascinating study with a proposal for a relational concept of the Holy Spirit as the loving presence of God in Christian ethics.

## **ARTIST COMPLEX**

---

### **IMAGES OF ARTISTS IN TWENTIETH-CENTURY PHOTOGRAPHY**

---

Walter de Gruyter GmbH & Co KG With the Jungian term of the complex the present volume inquires about the making of the artistic persona in twentieth-century photography. The articles examine photographic (self-)portraits, the dynamics between self-statements of artists and photographers, the interrelations of photography, of painting and of performance art and investigate their origins in the history of ideas. The volume traces a portrait of photography as a metascience; as preparatory work, a source of inspiration and an alternate medium in which artists could explore different subjects. With essays by Ulrike Blumenthal, Till Cremer, Victoria Fleury, Jadwiga Kamola, Weronika Kobylińska-Bunsch, Nadja Köffler, Constance Krüger, Wilma Scheschonk, Gerd Zillner.

**RESEARCHING METAPHORS**

**TOWARDS A COMPREHENSIVE ACCOUNT**

**Taylor & Francis** This collection advocates for a more holistic picture of metaphor, extending the field's focus beyond the cognitive paradigm and conventional metaphorical concepts to illustrate the possibilities afforded by the study of living metaphors. The volume brings together a diverse range of researchers in the discipline towards critically examining the presuppositions of the cognitive approach. The book shines a light on living metaphors - creative interpretations of conflictual meaning specific to a text or communicative act with their own unique functions - to throw into relief long-held tenets in existing metaphor research. Chapters reflect on the notion that creative metaphors spring from independent sources, not merely from metaphorical concepts, and the subsequent implications for our understanding of the relationship between linguistic forms and conceptual structures and the role of creative metaphors in organizing thought and action. Taken together, the book offers a complementary vision of languages and figures which integrates disparate lines of study within the cognitive paradigm with alternative perspectives for a more comprehensive portrait of metaphors. This book will be of interest to students and scholars interested in the study of metaphor, including such disciplines as theoretical linguistics, cognitive linguistics, semantics, literary studies, and philosophy of language.

**NATHAN ZUNTZ**

**HIS LIFE AND WORK IN THE FIELDS OF HIGH ALTITUDE PHYSIOLOGY AND AVIATION MEDICINE**

**Springer Science & Business Media** This book deals with the life and work of Nathan Zuntz and specifically addresses the contribution he made to high altitude physiology and aviation medicine. While some of the material on this topic has already been published in English (Gunga and Kirsch, 1995a, 1995b), the overwhelming majority of it is only available in German (Gunga, 1989). Recently, new and interesting sources on the life and work of the Berlin physiologist have come to light. That was why the author gladly accepted the invitation from the History Book Committee of the American Physiological Society in 2005 to write a biography of Nathan Zuntz. The result is a

completely new, revised version of the book which is based on more than twenty years of study on the life and work of this physiologist. This biography could not have been written without the help of numerous people and institutions. First, I would like to thank Dr. John West, the current Chairman of the APS History Book Committee, who personally committed himself so firmly to making this project possible from the very first day. I am very grateful to the Free University, the Charite, the DLR (German Aerospace Center) in Cologne and the management in Bonn-Oberkassel namely Dr. Horst Binnenbruck, Dr. Peter Preu, Prof. Dr. Günter Ruyters, Dr.

## **THE ROUTLEDGE HISTORY OF THE RENAISSANCE**

---

Taylor & Francis Drawing together the latest research in the field, *The Routledge History of the Renaissance* treats the Renaissance not as a static concept, but as one of ongoing change within an international framework. It takes as its unifying theme the idea of exchange and interchange through the movement of goods, ideas, disease and people, across social, religious, political and physical boundaries. Covering a broad range of temporal periods and geographic regions, the chapters discuss topics such as the material cultures of Renaissance societies; the increased popularity of shopping as a pastime in fourteenth-century Italy; military entrepreneurs and their networks across Europe; the emergence and development of the Ottoman empire from the early fourteenth to the late sixteenth century; and women and humanism in Renaissance Europe. The volume is interdisciplinary in nature, combining historical methodology with techniques from the fields of anthropology, sociology, psychology and literary criticism. It allows for juxtapositions of approaches that are usually segregated into traditional subfields, such as intellectual, political, gender, military and economic history. Capturing dynamic new approaches to the study of this fascinating period and illustrated throughout with images, figures and tables, this comprehensive volume is a valuable resource for all students and scholars of the Renaissance.

## EXPLORING THE ARCHIVE

### HISTORICAL PHOTOGRAPHY FROM LATIN AMERICA. THE COLLECTION OF THE ETHNOLOGISCHES MUSEUM BERLIN

---

Böhlau Verlag Köln Weimar The Ethnologisches Museum in Berlin holds more than 6,500 historical black-and-white photographs from Latin America. These images were produced between 1868 and 1936 and mainly depict ethnological and archaeological motifs, although some portray views of urban or natural landscapes. The contributions to this volume focus on particular series from this extensive archive. In doing so, they illustrate the enormous potential for research inherent within such "repositories of memory", represent a diverse set of approaches and provide varied interpretations of historical photographs. The contributions focus on the contexts in which these images were produced and provide interpretations of the intentions behind some of the photographs. Moreover, they analyse the acquisition of these photographs and the manner in which they have been preserved and disseminated. Additionally,

the contributions highlight the manners in which the images have been used and the impact of some of the formats in which the photographs were published. This richly illustrated volume is complemented by the digital reproductions available online at <http://www.smb-digital.de/>.

### **ERASURES AND ERADICATIONS IN MODERN VIENNESE ART, ARCHITECTURE AND DESIGN**

---

Taylor & Francis *Erasures and Eradications in Viennese Modern Art, Architecture and Design* challenges the received narrative on the artists, exhibitions, and interpretations of Viennese Modernism. The book centers on three main erasures—the erasure of Jewish artists and critics; erasures relating to gender and sexual identification; and erasures of other marginalized figures and movements. Restoring missing elements to the story of the visual arts in early twentieth-century Vienna, authors investigate issues of gender, race, ethnic and sexual identity, and political affiliation. Both well-studied artists and organizations—such as the Secession and the Austrian Werkbund, and iconic figures such as Klimt and Hoffmann—are explored, as are lesser known figures and movements. The book’s thought-provoking chapters expand the chronological contours and canon of artists surrounding Viennese Modernism to offer original, nuanced, and rich readings of individual works, while offering a more diverse portrait of the period from 1890, through World War II and into the present. The book will be of interest to scholars working in art history, history, design history, architectural history, and European studies.

### **LOCALIZATION AND ITS DISCONTENTS**

---

---

### **A GENEALOGY OF PSYCHOANALYSIS AND THE NEURO DISCIPLINES**

---

**University of Chicago Press Both psychoanalysis and neurology have left equally prominent marks on the history of the twentieth century, yet they have been interpreted in vastly different ways. The two fields appear to manifest an insurmountable Cartesian dualism, one representing a psychological, the other a somatic approach to understanding personhood and subjectivity. Given this apparent opposition it is remarkable that both trace intellectual and practical roots back to the same "neuropsychiatry" that was dominant in the German-speaking world of the late nineteenth century. Katja Guenther investigates the significance of this historical connection, and in doing so not only reframes the relationship between psychoanalysis and the neurosciences but also provides resources for thinking about how they developed as independent fields. "Localization and Its Discontents" transforms how we think about their theory and practice. By understanding the historical connections and surprising parallels in their past development, we are newly positioned to reassess the assumptions that seem to determine their future.**

### **BRINGING COLD WAR DEMOCRACY TO WEST BERLIN**

---

#### **A SHARED GERMAN-AMERICAN PROJECT, 1940-1972**

---

**Routledge** Within the span of a generation, Nazi Germany's former capital, Berlin, found a new role as a symbol of freedom and resilient democracy in the Cold War. This book unearths how this remarkable transformation resulted from a network of liberal American occupation officials, and returned émigrés, or remigrés, of the Marxist Social Democratic Party (SPD). This network derived from lengthy physical and political journeys. After fleeing Hitler, German-speaking self-professed "revolutionary socialists" emphasized "anti-totalitarianism" in New Deal America and contributed to its intelligence apparatus. These experiences made these remigrés especially adept at cultural translation in postwar Berlin against Stalinism. This book provides a new explanation for the alignment of Germany's principal left-wing party with the Western camp. While the Cold War has traditionally been analyzed from the perspective of decision makers in Moscow or Washington, this study demonstrates the agency of hitherto marginalized on the conflict's first battlefield. Examining local political culture and social networks underscores how both Berliners and émigrés understood the East-West competition over the rubble that the Nazis left behind as a chance to reinvent themselves as democrats and cultural mediators, respectively. As this network popularized an anti-Communist, pro-Western Left, this book identifies how often ostracized émigrés made a crucial contribution to the Federal Republic of Germany's democratization.
