## DENBY DALE AND UPPER DENBY

---

### UNKNOWN & UNSEEN

---

Pen and Sword Denby Dale and Upper Denby Unknown and Unseen is the last of this ever-popular series of books and includes around 200 previously unpublished photographs of the area. Also included are the stories of three local families, namely the Gaunts, Turtons and Seniors who have a long and fascinating history in the area. Further details include the stories and competition entries for the Denby Dale and Upper Denby brass bands and the men who led them. The story of Upper Denby club is told for the first time, and a historical miscellany includes information dating from 1343 up until 1812. Furthermore, the previously forgotten story of the Denby Dale branch of the British Legion is also told for the first time, using its archive which was luckily saved from destruction when the Denby Dale band hut was demolished in the 1970s. The minutes include details from the Second World War and evoke a vivid picture of the time, with blackouts, rationing, the home guard and the deadly consequences of the war for the local soldiers. This book is essential reading for anyone researching family connections in the area, but will also appeal to all those with links to Denby Dale and Upper Denby, as well as nostalgia lovers of the district in general.

### DENBY DALE PIE 1788-2000

---

Pen & Sword Books The quiet, rural, unassuming village of Denby Dale, situated by the river in the Upper Dearne Valley between Huddersfield and Barnsley has a major and unique culinary claim to fame. Once a generation, a gigantic meat and potato pie is cooked and eaten by the villagers amidst scenes of pomp, splendour and celebration, the occasions of which are attended by many thousands of people. This book investigates and celebrates the origins of a tradition that dates back more than two hundred years. It examines the people involved, and captures the social history of the village as it developed amidst its pie baking traditions. Included within this volume are the full details of the twelve tonne monster pie cooked in 2000 as well as the complete stories of earlier successes and failures including the riots and disasters connected with some of the previous bakes. With over 350 photographs, many of which have never been published before, this book represents the definitive history of the Denby Dale Pies.

Ernest Weekley (27 April 1865 - 7 May 1954) was a British philologist, best known as the author of a number of works on etymology. His *An Etymological Dictionary of Modern English* (1921; 850 pages) has been cited as a source by most authors of similar books over the 90 years since it was published. From 1898 to 1938, he was Professor of Modern Languages at the University of Nottingham. He married Frieda von Richthofen in 1899. Together they had three children: Charles Montague (born 1900), Elsa Agnès (born 1902) and Barbara Joy (born 1904). Weekley divorced Frieda in 1913 following her elopement with D. H. Lawrence.

---

**ESSAYS ON THE FUTURE COMPETITION**

---

Encounter Books "Although the United States is rightly preoccupied with the threat of Islamist terrorism and the two conflicts in Iraq and Afghanistan, there is a wide consensus among American strategic thinkers that America's greatest challenge over the next decades will be the rise of China. With its expanding economy and formidable military growth, China is positioning itself to challenge the United States as the greatest international power on the world stage. The Rise of China is a collection of essays about the nature of that threat and what the U.S. and its allies might do in the areas of foreign and defense affairs to meet it. Contributing authors Michael R. Auslin, Dan Blumenthal, Ellen Bork, Nicholas Eberstadt, Robert Kagan, Gary J. Schmitt, and Ashley J. Tellis contemplate how these two rising, ambitious powers are contesting for leadership in East Asia and ask if the sanguine forecasts for a peaceful century will hold true. Although the Chinese have been very careful to look like a cautious power, and in key respects have been, they see the international scene as fundamentally one of antagonism. And this is unlikely to change until and unless the regime changes. It is this China, the authors of The Rise of China assert, that we will be dealing with for some time to come. "

**EARLY VERSE DRAMA AND PROSE PLAYS**

---

Princeton University Press Goethe's early plays bear witness to his urgent desire to enliven German theater--an ambition that followed him to the National Theater in Weimar, where he was named director in the early 1790s. This volume contains eight of these plays, written between 1771 and 1787. Not only do they demonstrate Goethe's unprecedented versatility in experimenting with new forms of dramatic expression, but they also give insight into his development from Sturm und Drang to classicism. These works include prose plays (Goetz von Berlichingen with the Iron Hand and Egmont), tragedies and comedies (Clavigo, Stella, and Brother and Sister), and dramatic verse forms (Prometheus, Jery and Betty, and Proserpina).

## **EAST TO WEST MIGRATION**

---

---

### **RUSSIAN MIGRANTS IN WESTERN EUROPE**

---

---

Routledge The collapse of the communist regimes in Eastern Europe brought widespread fear of a 'tidal wave' of immigrants from the East into Western Europe. Quite apart from the social and political importance, East-West migration also poses a challenge to established theories of migration, as in most cases the migrant flow cannot be categorised as either refugee movement or a labour migration. Indeed much of the trans-border movement is not officially recognised, as many migrants are temporary, commuting, 'tourists' or illegal, and remain invisible to the authorities. This book focuses on Russian migration into Western Europe following the break-up of the Soviet Union. Helen Kopnina explores the concept of 'community' through an examination of the lives of Russian migrants in two major European cities, London and Amsterdam. In both cases Kopnina finds an 'invisible community', inadequately defined in existing literature. Arguing that Russian migrants are highly diverse, both socially and in terms of their views and adaptation strategies, Kopnina uncovers a community divided by mutual antagonisms, prompting many to reject the idea of belonging to a community at all. Based on extensive interviews, this fascinating and unique ethnographic account of the 'new migration' challenges the underlying assumptions of traditional migration studies and post-modern theories. It provides a powerful critique for the study of new migrant groups in Western Europe and the wider process of European identity formation.

### THE MYSTICAL POWER OF PERSON-CENTRED THERAPY

---

---

#### HOPE BEYOND DESPAIR

---

John Wiley & Sons Incorporated Brian Thorne's latest book is likely to cause something of a furore in the counselling and psychotherapy world and more particularly among person-centred practitioners and pastoral counsellors. 'The Mystical Power of Person-Centred Therapy' takes the later work of Carl Rogers with the utmost seriousness and, as a result, moves into unexpected and perhaps, for some, dangerously controversial terrain. Rogers discovered towards the end of his life that he had greatly underestimated both the mystical quality of the therapeutic process and the power of the person-centred approach to give access to the spiritual dimension of experience. Professor Thorne takes this concept further and explores the implications of regarding person-centred therapy as an essentially spiritual discipline. The outcome is a book which not only provides new and startling challenges for therapists of all orientations but also suggests that the person-centred way of being may have a major contribution to make to the resolution of some of humanity's seemingly intractable problems. It should appeal not only to therapists but also to clergy and all those concerned with the spiritual evolution of humanity. In the light of the events of September 11th 2001 and their aftermath such a book could not come at a more opportune time.

### REFORMATION EUROPE, 1517-1559

---

Pickle Partners Publishing A classic account of the Reformation, revealing the issues and preoccupations which seemed central to the age and portraying its leading figures with vigour and realism. The book is an analysis of the religious, economic, cultural and political history of Europe during the period of the Reformation. Author G. R. Elton examines the history of the period through the interrelationships between different forces in Europe at the time, such as the Holy Roman Emperor Charles V, the Papacy, reformers such as Martin Luther, John Calvin, Martin Bucer and Zwingli, and explores the resultant Counter-Reformation and the beginnings of European colonisation of other parts of the world such as South America. Its central focus is upon the conflict between Luther and Charles V. "A masterly survey by a fine historian. He has gone to great pains to understand and do justice to the theological side, and if political history is still his strength there is no doubt that this paperback in scholarship, perspective and information far outweighs in value and importance most of the hard-bound studies of the 16th century in the last fifty years."—E. GORDON RUPP "It is extremely pleasant to welcome a new History of Europe series in which the inaugural volume is of such high merit. Dr. Elton sets himself a difficult task; the result is a book written with the bold, subtle, assured pen of an accomplished scholar."—JOEL HURSTFIELD "Not since Ranke has any historian described the religious and political history of Central Europe during the Reformation with as much insight and authority."—H. G. KOENIGSBERGER, History (London) "Dr. Elton has put all students in his debt by providing an up-to-date and highly readable account of the ecclesiastical, political, and social history of Europe during the vital years 1517 to 1559...This book can be unreservedly commended."—C. W. DUGMORE, The Journal of Ecclesiastical History
