## VOLVO AMAZON

---

### THE COMPLETE STORY

---

Crowood In 1956, a prototype of a new passenger car from Volvo was presented. It became known as the Amazon in Sweden and the 121 and 122S in export markets, the latter denoting a more sporty derivative. However, despite its substantial appearance, all Amazons were surprisingly fleet of foot - this was one of the most sporty European saloons of the 1960s. With its elegant, timeless styling the Amazon broke new ground for Volvo - and for passenger cars as a whole. This new book covers the complete story of the Volvo Amazon, from 1956 onwards, including full production histories, comprehensive specification details, and over 250 photographs. The book covers the history of Volvo before and after the Amazon, and development and production of all Amazon derivatives from 1956-1970, including the 121, 122S, 123GT and all of the estate editions. There are biographies of key Volvo personnel, including the company's first designer, Jan Wilsgaard. Also included is the Amazon in motorsport, plus driver biographies: Tom Trana, Sylvia Osterberg and Carl-Magnus Skogh. There is a full buying guide along with tips on tuning and modifying, including rally preparation, and an insight into what the press thought of each Amazon derivative, with pages also devoted to how the car was marketed in period. An ideal resource for owners, or anyone with an interest in the evolution of these classic cars, which is superbly illustrated with 250 colour photographs.

**VOLO'S GUIDE TO MONSTERS**

---

Wizards of the Coast Immerse yourself in monster lore in this supplement for the world's greatest roleplaying game This is NOT just another Monster Manual! Volo's Guide to Monsters provides something exciting for players and Dungeon Masters everywhere. · A deep dive into the lore behind some of D&D's most popular and iconic monsters · Dozens of monsters new to the fifth edition to include in your epic adventures · New playable races to allow you to build characters to fit nearly any type of story in your D&D game. The esteemed Loremaster Volothamp Geddarm is back and he's written a fantastical dissertation, covering some of the most iconic monsters in the Forgotten Realms. Unfortunately, the Sage of Shadowdale himself, Elminster, doesn't believe Volo gets some of the important details quite right. Don't miss out as Volo and Elminster square off (academically speaking of course) to illuminate the uninitiated on creatures both common and obscure. Uncover the machinations of the mysterious Kraken Society, what is the origin of the bizarre frogemoth, or how to avoid participating in the ghastly reproductive cycle of the grotesque vargouille. Dungeon Masters and players will get some much-needed guidance as you plan your next venture, traipsing about some dusty old ruin in search of treasure, lore, and let's not forget ... dangerous creatures whose horns, claws, fangs, heads, or even hides might comfortably adorn the walls of your trophy room. If you survive. Research has never been so dangerous!
