### Inspiration and Incarnation

### Evangelicals and the Problem of the Old Testament

[Baker Academic](#) How can an evangelical view of Scripture be reconciled with modern biblical scholarship? In this book Peter Enns, an expert in biblical interpretation, addresses Old Testament phenomena that challenge traditional evangelical perspectives on Scripture. He then suggests a way forward, proposing an incarnational model of biblical inspiration that takes seriously both the divine and the human aspects of Scripture. This tenth anniversary edition has an updated bibliography and includes a substantive postscript that reflects on the reception of the first edition.

### We Believe in One Holy Catholic and Apostolic Church

[InterVarsity Press](#) The Creed quickly hits the four marks of the church that it is "one holy catholic and apostolic." What do we mean by professing each of these? Di Berardino helps us to give an answer with the help of the fathers of the church.

### Should We Change Our Game Plan?

### From Traditional or Contemporary to Missional and Strategic

[Abingdon Press](#) Many of the most effective churches consist of some sort of combination of "traditional" and "contemporary." However, they are not simply "blended." In fact, much of what they do is beyond mere categorization of "traditional" and "contemporary." Instead, they are "missional" and "strategic" in their approach. Using sports metaphor, author George Hunter lays the groundwork for a new line of thinking, a new identity, in order to incite a quiet revolution.

### The Making of the Modern Christian Church

[Createspace Independent Publishing Platform](#) I know what you are probably thinking! History is boring! Was I right? I have heard it a million times! I think history can be fascinating, particularly Church history. Why do I think that? Because how can anything with heroes and heretics be boring? More than that, the story of the Christian Church is your story! Yes! You, dear reader! Your story, regardless of where you are from and who you are. Your story, regardless of your system of belief or non-belief. Perhaps you know very little of it. No worries! Before Jesus Christ ascended back to heaven, he commanded his 11 followers to go and tell others about Him and His work. They did, and we stand here today as a product of their obedience. But how did the Church get here today? Together we explore her birth, growth and development. Development to the point where she is worldwide and has at least 2 billion people who identify as a Christian, of one kind or another. Development of the practises and theology of the Church. All the while, striving to avoid the mistakes and embrace the joys. Who was the near-sighted man called "the Golden Mouth"? Who said, "If there is no laughter in heaven, I don't want to go there." Who was probably the first person to expound what we call "Grace"? Which of the ancient heresies could well be found in some churches today? We answer those questions and more in this journey through time. We also interact with some people of today, who tell about their relationship with the Church. Finally, we also interact with some of the great minds of Church history, looking at some of the prayers of the Church. As the Church of today and tomorrow, we can all learn something from this exciting story. This book is written with you in mind. Of course, it is written chiefly from an English-speaking Protestant European perspective as that is my background. Come on in!

## The Church in the Wilderness - A Christian History from Apostolic Times to Modernity

[Pantianos Classics](#) This history of the church details the establishment of Christian churches whose stated beliefs stand outside of the Catholic doctrine. Wilkinson's enquiry spans from the Apostolic era through to modern times. Various thought of as remnants of the old church which persisted after the Roman Catholic, or as distinct Christian communities which sprang up spontaneously in various countries and communities, the church in the wilderness is an important - and commonly neglected - part of Christian history. The author thoroughly researched the emergence of these denominations, many of whom predate the Reformation of the Renaissance. Examples of such movements were observed in Europe, Turkey, the wider Middle East, as well as India. For professing a close adherence to the Bible scriptures, as opposed to following the hierarchical doctrines of the Catholic Church, these disparate groups were branded heretics and persecuted. Such periodic persecutions occurred across centuries, and punishments were commonly harsh. Despite this, the Christians who rejected the Catholic doctrines persevered - the spirit and word of the original Bible gospels their guide and authority.

## Church History, Volume One: From Christ to the Pre-Reformation

## The Rise and Growth of the Church in Its Cultural, Intellectual, and Political Context

[Zondervan Academic](#) Church History, Volume One offers a unique contextual view of how the Christian church spread and grew from its development in the days of Jesus to the years leading up to the Reformation. Looking closely at the integral link between the history of the world and that of the church, Church History paints a portrait of God's people within its setting of times, cultures, and events that both influenced and were influenced by the church. **FEATURES:** Maps, charts, and illustrations spanning the time from the first through the thirteenth centuries. Overviews of the Roman, Greek, and Jewish worlds and how they developed or declined. Insights into the church's relationship to the Roman Empire, with glimpses into pagan attitudes toward Christians. Explanations of the role of art, architecture, literature, and philosophy—both sacred and secular—in the Church. Details on the major theological controversies of the periods. Each chapter also contains callout passages from Scripture to assist in understanding the narrative of the Church, even to the present day, as part of the greater narrative of the Bible. **AUTHOR'S PERSPECTIVE:** Scholar and writer Everett Ferguson wrote this history of the church from the perspective that such a history is the story of the greatest movement and community the world has known. It's a human story of a divinely called people who wanted to live by a divine revelation. It's a story of how they succeeded and how they failed or fell short of their calling. From the Apostle Paul to the apologists and martyrs of the second century to Martin Luther, the historical figures detailed are people who have struggled with the meaning of the greatest event in history—the coming of the Son of God—and with their role in that event and in the lives of God's people.

## Christians in Egypt

## Orthodox, Catholic, and Protestant Communities Past and Present

[I.B.Tauris](#) Drawing on more than four decades of experience studying Christian communities in Egypt, Otto Meinardus offers here a sweeping overview of the principal Christian churches and organizations in Egypt today. For the first time, this wealth of information has been gathered into one volume, making it an ideal introduction to the contemporary scene of the various Orthodox, Catholic, and Protestant denominations that have a presence in Egypt. Looking at Maronite churches in Alexandria, Greek Orthodox congregations in Cairo, and new evangelical communities in Upper Egypt, among others, this book serves as an important reference work for anyone interested in the broad variety of Christian groups in Egypt, including the majority Coptic Orthodox Church. As one of the foremost scholars of the Christian history of Egypt and the wider Middle East, Dr. Meinardus brings an unparalleled wealth of expertise to this subject, while placing Christianity in the historical perspective of its relationship to the ancient pharaonic religion and medieval and modern Islam. A first of its kind, Christians in Egypt is an indispensable resource for both scholars and interested general readers.

## Tradition Alive

## On the Church and the Christian Life in Our Time : Readings from the Eastern Church

[Rowman & Littlefield](#) Michael Plekon's Tradition Alive presents a collection of essays highlighting not only the vibrant tradition of 20th century Eastern Orthodox thought, but also the necessity of its inclusion in the theological canon constructed mainly by Western Christian thinkers. Ranging from the thought of the first generation of Russian ZmigrZs to contemporary Eastern Orthodox theologians, the essays in Tradition Alive point toward a positive theology that is convinced of the immanence of the holy spirit despite a world torn apart by revolution, violence, and despair. The contributors profess their faith in the transforming presence of Christ and the divine dimensions of the church by looking to the meaning and power of tradition in the practices of Eastern Orthodox Christianity. By focusing on the Orthodox Church's ecclesial and liturgical character, the authors emphasize the living character of the Christian tradition. With many contributions difficult, if not impossible, to access until now, Tradition Alive presents a brave and distinctive effort to enliven Western theology by looking to the theology of the East.

## Reverse in Ministry and Missions: Africans in the Dark Continent of Europe An Historical Study of African Churches in Europe

[Author House](#) There has been a recent shift in global Christianity from North to South. Christianity, particularly Pentecostalism, is growing day by day in the continents of Africa, Latin America and Asia whereas it is declining in the Western world. Africans are now bringing the Gospel back to Europe and other parts of the world. This reverse in missions has been a recent phenomenon and is the subject of this book. This book documents the history and contributions of European missions in Africa. It then chronicles the history and development of African Churches in Europe, focussing on the UK. It is passionately articulated that these Churches are certainly contributing positively to global and local Christianity. The historical development of Kingsway International Christian Centre (KICC) is documented to illustrate the impact African Churches are making in Europe. It is a book that is valuable to people interested in African Churches in the UK. "The presence of so many vigorous and committed black churches is one of the bright spots on the horizon of churches in the UK. This work is a pioneering contribution to understanding where these churches are coming from, how they understand their mission in and to the UK and how they are likely to shape the future of Christianity in these islands. It is very welcome." Dr Nigel Wright, Principal of Spurgeon's College, London "Rev Israel has produced a winning combination of research, history and practical theology with this wonderful piece. I believe it is essential reading for every leader who is serious about contemporary cross cultural ministry and mission in 21st century Britain." Dr Jonathan Oloyede, Convener Global Day of Prayer, London

### Christianity in Iraq

#### Its Origins and Development to the Present Day

[Gracewing Publishing](#) Christianity was firmly established in Iraq from the earliest times, and the Churches of Iraq were to play a major role in the development of Christian theology and spirituality for many centuries. By the seventh century evangelization from Iraq had brought Christianity to China, Central Asia and India. Yet few people in the West are aware of Christianity's vibrant past in this region, or of the fact that Christianity has continued to be a significant cultural and religious presence in Iraq right up to the present day. The story of the Churches of Iraq, their interaction with each other and their varied fortunes under successive Parthian, Sassanid, Arab, Mongol and Ottoman rule, is told here with consummate skill. Suha Rassam guides the reader seemingly effortlessly through complex issues of doctrinal dispute and ecclesiastical politics. She helps us explore the ancient heritage of these Churches, and the major contribution they have made to the intellectual development of the region and the wider world. Suha Rassam's book comes to fill a large vacuum in the knowledge of those in the West, many of whom are still not aware of the fact that from ancient times Christianity was firmly rooted in Iraq and the rest of the territory now seen as the 'Arab Middle East'. Archbishop Mikhael Al Jamil, Patriarchal Vicar of the Syrian Catholic Church of Antioch to the Holy See and Vicar Apostolic for Europe Dr Suha Rassam has written a work of remarkable scholarship. But it is also a vivid portrayal of an extraordinary story of conflict, persecution and, for fifty years in the twentieth century, of hope, harmony and prosperity for the Christian community in Iraq. It would be a tragedy if that Christian community were now extinguished. Cardinal Cormac Murphy-O'Connor, Archbishop of Westminster Gives to the general interested public a comprehensive and informed insight into two thousand years of Christianity in Iraq. Dr Erica Hunter, School of Oriental and African Studies, London University

### Wicca and the Christian Heritage

#### Ritual, Sex and Magic

[Routledge](#) What is Wicca? Is it witchcraft, Paganism, occultism, esotericism, magic, spirituality, mysticism, nature religion, secrecy, gnosis, the exotic or 'other'? Wicca has been defined by and explored within all these contexts over the past thirty years by anthropologists, sociologists and historians, but there has been a tendency to sublimate and negate the role of Christianity in Wicca's historical and contemporary contexts. Joanne Pearson 'prowls the borderlands of Christianity' to uncover the untold history of Wicca. Exploring the problematic nature of the Wiccan claim of marginality, it contains a groundbreaking analysis of themes in Christian traditions that are inherent in the development of contemporary Wicca. These focus on the accusations which have been levelled against Catholicism, heterodoxy and witchcraft throughout history: ritual, deviant sexuality and magic.

### The Old Religion

#### An Examination into the Facts of the English Reformation

[Wipf and Stock Publishers](#) The Reformation swept over western Europe like a great storm. In some places Catholic organization and traditions were completely destroyed. In England much that was rotten was swept away, together with things that were profitable and lovely. But the ancient Church of our country was left standing on the old apostolic foundations: it was neither blown into the Protestant fold nor left balancing on the fence. It remained recognizably the Church founded by St. Augustine and St. Columba, the continuing Church of England, maintaining the ancient faith and the historic ministry, and administering Catholic sacraments. That is Mr. Dart's thesis. He is concerned not so much with what the English reformers desired to do as with what they actually did. Yet, basing his arguments firmly on the Ordinal and the Prayer Book, he shows that their deeds were consistent with their aims. This book is not against anybody or anything; it is pro-Church of England.

Key elements include: Trinitarian structure, roles of apostles and bishops, and biblical reading in a historical context.

### The Doctrine of Grace in the Apostolic Fathers

### The Seven Ecumenical Councils

[Dalcassian Publishing Company](#) In the history of Christianity, the first seven ecumenical councils include the following: the First Council of Nicaea in 325, the First Council of Constantinople in 381, the Council of Ephesus in 431, the Council of Chalcedon in 451, the Second Council of Constantinople in 553, the Third Council of Constantinople from 680-681 and finally, the Second Council of Nicaea in 787. These seven events represented an attempt by Church leaders to reach an orthodox consensus, restore peace and develop a unified Christendom. Among Eastern Christians the Eastern Orthodox, Oriental Orthodox, and Church of the East (Assyrian) churches and among Western Christians the Roman Catholic, Anglican, Utrecht and Polish National Old Catholic, and some Scandinavian Lutheran churches all trace the legitimacy of their clergy by apostolic succession back to this period and beyond, to the earlier period referred to as the Early Church. This era begins with the First Council of Nicaea in AD 325, convened by the emperor Constantine I following his victory over Licinius and consolidation of his reign over the Roman Empire. Nicaea I enunciated the Nicene Creed that in its original form and as modified by the First Council of Constantinople of 381 was seen by all later councils as the touchstone of orthodoxy on the doctrine of the Trinity.

Bradshaw considers the typological background to ordained ministry some have drawn from the Old Testament and what ministry meant to the earliest Christian communities. He explores the ordination rites and theology of the early church, the Christian East, the medieval West, the churches of the Reformation, and the post-Tridentine Roman Catholic Church. Rites of Ordination promises to serve as an enriching resource for seminary students, students of liturgy and church history, and anyone fascinated by the history and theology of Christian liturgy and ministry.
