If so, this book is for you. One of a manager's toughest—and most important—responsibilities is to evaluate an employee's performance, providing honest feedback and clarifying what they've done well and where they need to improve. In How to Be Good at Performance Appraisals, Dick Grote provides a concise, hands-on guide to succeeding at every step of the performance appraisal process—no matter what performance management system your organization uses. Through step-by-step instructions, examples, do-and-don't bullet lists, sample dialogues, and suggested scripts, he shows you how to handle every appraisal activity from setting goals and defining job responsibilities to evaluating performance quality and discussing the performance evaluation face-to-face. Based on decades of experience guiding managers through their biggest challenges, Grote helps answer the questions he hears most often: • How do I set goals effectively? How many goals should someone set? • How do I evaluate a person's behaviors? Which counts more, behaviors or results? • How do I determine the right performance appraisal rating? How do I explain my rating to a skeptical employee? • How do I tell someone she's not meeting my expectations? How do I deliver bad news? Grote also explains how to tackle other thorny performance management tasks, including determining compensation and terminating poor performers. In accessible and useful language, How to Be Good at Performance Appraisals will help you handle performance appraisals confidently and successfully, no matter the size or culture of your organization. It's the one book you need to excel at this daunting yet critical task. **Performance Appraisal - Questions and Answers The Performance Appraisal Question and Answer Book A Survival Guide for Managers Amacom Books End every manager's nightmare: conducting performance appraisals. **Brilliant Answers to Tough Interview Questions Pearson UK What does it take to really shine in any interview? **Resources in Education Interview Questions and Answers** *How2Become Ltd* **The Shopfloor Series Learning Assessment Package Software to Confirm the Learning of Your Knowledge Workers** *How do you know your employee education program is getting results?* Employers need to be able to quantify the benefit of their investment in workplace education. The Shopfloor Series books and Learning Packages from Productivity Press offer a simple, cost-effective approach for building basic knowledge about key manufacturing improvement topics. Now you can confirm the learning with the Shopfloor Series Learning Assessment. The Shopfloor Series Learning Assessment is a new software package developed specifically to complement five key books in the Shopfloor Series. Each module of the Learning Assessment provides knowledge tests based on the contents of one of the Shopfloor Series books, which are written for production workers. After an employee answers the questions for a chapter in the book, the software records his or her score. Certificates are included for recognizing the employee's completion of the assessment for individual modules and for all five core modules. The Shopfloor Series Learning Assessment will help your company ensure that employees are learning and are recognized and rewarded for gaining knowledge. It supports professional development for your employees as well as effective implementation of shopfloor improvement programs. Here's How the Learning Assessment Works The employee reads one of the Shopfloor Series books, chapter by chapter. Easy to read and understand, the books provide employees with the information they need to learn for the assessment questions. After the administrator has set up the Learning Assessment program, the employee uses the computer to answer a set of questions about the information in the chapter. The computer automatically scores the answers and logs the score into a database for easy access by the administrator. If the employee does not pass the assessment for a particular chapter, he or she can review the material in the book and take the assessment again. (For security, the software selects randomly from three different questions on each topic.) Upon passing the assessments for all chapters of a module, the employee receives a completion certificate (included with the package) and any other reward or recognition determined by your company. Scoring and record-keeping: The software program handles all the scoring and can keep record for groups as well as individuals. Each company has the discretion to determine what is a passing score for a chapter or module. The administrator can review employee scores by module or by individual employee; the employee can also review his or her own scores. The Complete Shopfloor Series Learning Model The Shopfloor Series Learning Assessment Software complements the material covered in the Shopfloor Series books and Learning Packages to offer your employees the most comprehensive packaged education program available on these important topics. The Shopfloor Series Learning Assessment includes: A CD-ROM containing Learning Assessment questions for five modules, Course Management System software, and an answer file for reference. Installation and operating instructions for the software A copy of each of the corresponding Shopfloor Series books (five titles) Certificate of Completion Learning Assessment Features: Question sets for each chapter of the five core Shopfloor Series books (an average of 7 questions per chapter, 35 questions for each module) Random selection of questions from three alternative questions per topic (a total of over 500 questions for all five modules) Automatic Scoring and record-keeping Varied question types (multiple choice, true/false, and complete the sentence) to keep employees focused and stimulated Unscored reflection and application questions; the administrator can request a written answer or use for discussion to suit the situation Assessment capability for 100 users in all five modules (capability for additional users for each module can be purchased separately) System Requirements: Processor: 486/66 MHz (Pentium/90 MHz or higher is recommended) Operating System: Windows 95, 98, NT 4.0 or higher with Service Pack 2 or higher Available RAM: 16MB To download to your computer: 300 MB hard disk and a 2X CD-ROM drive To run directly from CD-ROM: 7 MB hard disk space and a 6X CD-ROM drive Display settings: 800 x 600 pixel resolution; high color (16 bit); small fonts Note: At 256 colors, some graphics may appear incorrectly-colored. Use high color (16 bit) only! Printer: 600 dpi laser printer
