Empowering Underachievers New Strategies To Guide Kids (8-18{Rpara} To Personal Excellence My child is so bright, why isn't she doing better in school' Does she want to fail' parents ask. Peter A. Spevak, Ph.D., who has brought 2000 students from failure to success and is an often called upon expert on Good Morning America and contributor to Parents Magazine and the New York Times, explains that lack of emotional maturity is often the main problem in dealing with children who suffer from low self-esteem, poor self-confidence and are labeled underachievers. Parents and educators must actively engage underachievers in a transformation to become self-motivated and happy individuals. How can underachievers by motivated' First, you must understand the relationship between emotional maturity and chronological age. Dr. Spevak warns readers about accepting a diagnosis of ADD or ADHP being made too quickly. He focuses on the four emotional developmental stages'distant, passive, dependent, and defiant'explaining and demonstrating through examples how each type needs specific interventions and actions to get unstuck and stop the backsliding that results in failure. He shows the reader how to encourage emotional growth in a child, enabling him or her to become empowered and thus achievers. Spevak skillfully blends theory, explaining the problem, with a practical, doable action plan for solving the problem. - Motivational expert reveals action plan which has helped 2000

underachievers succeed. - New ways to understand and empower failing children. - How to guide an underachiever to personal excellence. About the Authors: Peter A. Handbook of Psychotherapies with Children and Families [Springer Science & Business Media](#) The aim of this book on psychotherapies with children and families is to present a comprehensive overview of the current array of intervention approaches in the child mental health field. There is a focus on the integration of theory, research, and practice throughout the book. The book proceeds from the more global presentations of basic theoretical approaches to applications of these approaches with specific problems and populations. It then presents more integrated intervention approaches and overviews of the research literature. One of the unique features of this book is its focus on future directions for each approach, both in clinical practice and in

research. A second unique feature is its structured format across diverse approaches with a focus on empirical validation of approaches. Another innovation is the presentation of interventions that integrate major components of different theoretical approaches. Thus, the book reflects the current trends in the field of interventions with specific problems and populations, empirical validation of the approach, and the integration of treatment approaches. There are five major sections in this book. Part I consists of four chapters that address a variety of issues related to child psychotherapy. Chapter 1 by the editors examines the historical roots of child psychotherapy and explores current trends in the treatment of diverse child disorders. It emphasizes the movement to "treatments that work" and sets the stage for the chapters that follow.

So Young, So Sad, So Listen A Parents' Guide to Depression in Children and Young People [Cambridge University Press](#) "This book is about depression in children and teenagers during their school years, from 5 to 18. It is written primarily for parents, but we hope that teachers, social workers, health visitors and family doctors will also find it useful. Why do parents need to know about possible depression in their children? All children get sad and miserable from time to time. Sometimes it is difficult to know if such normal unhappiness needs special attention. We aim to help parents in this situation. This is an example of a situation in which a mother describes how first she thought her son's problem was nothing much to worry about but then she had to change her mind: Ben's mother, a teacher, described the change that came over her ten-year-old son after a short viral illness"--
