COGLAB READER

Wadsworth Publishing Company This COGLAB READER includes 32 articles, each of which corresponds to a demonstration or set of demonstrations in the CogLab Cognitive Psychology Laboratory. Available online or on CD-ROM, CogLab provides an invaluable laboratory component for cognitive psychology classes. This virtual laboratory gives the students a sense of how experiments are conducted and how individual and group data look. The reader complements that goal in providing a historical and theoretical context for the experiments. Each reading is accompanied by an introduction and questions for discussion that draw both on the reading and on the associated CogLab demonstration.

REPORT

LONG WALK TO FREEDOM

Hachette UK These memoirs from one of the great leaders of our time are 'essential reading for anyone who wants to understand history - and then go out and change it' Barack Obama The riveting memoirs of the outstanding moral and political leader of our time, Long Walk to Freedom brilliantly re-creates the drama of the experiences that helped shape Nelson Mandela's destiny. Emotive, compelling and uplifting, Long Walk to Freedom is the exhilarating story of an epic life; a story of hardship, resilience and ultimate triumph told with the clarity and eloquence of a born leader. 'Enthralling... Mandela emulates the few great political leaders such as Lincoln and Gandhi, who go beyond mere consensus and move out ahead of their followers to break new ground' Sunday Times 'The authentic voice of Mandela shines through this book... humane, dignified and magnificently unembittered' The Times 'Burns with the luminosity of faith in the invincible nature of human hope and dignity... Unforgettable' Andre Brink

READING AT A CROSSROADS?

DISJUNCTURES AND CONTINUITIES IN CURRENT CONCEPTIONS AND PRACTICES

Routledge The Internet is transforming the experience of reading and learning-through-reading. Is this transformation effecting a radical change in reading processes as readers synthesize understandings from fragments across multiple texts? Or, conversely, is the Internet merely a new place to use the same reading skills and processes developed through experience with traditional print-based media? Are the changes in reading processes a matter of degree, or are they fundamentally new? And if so, how must reading theory, research, and instruction adjust? This volume brings together distinguished experts from the fields of reading research, teacher education, educational psychology, cognitive science, rhetoric and composition, digital humanities, and educational technology to address these questions. Every question is not answered in every chapter. How could they be? But every contributor has many thoughtful things to say about a subset of these important questions. Together, they add up to a comprehensive response to the issues the field faces as it approaches what may well be—or not—a crossroads. A website devoted to extending discussion around the book in creative (and disjunctive) ways [readingatacrossroads.net] moves it beyond the printed page.

Bucknell University Press "The short stories explore themes that concern the interior person, the inner being. "A Day Laborer" tells of a liberal intellectual who can identify with exploited laborers because he himself has been exploited; "Change of Light" describes the spiritual peace that comes to a writer as a result of physical blindness; "The Golden Rose" shows through a series of contrasts - good and evil, heaven and earth, light and darkness - that virtue and sacrifice are rewarded; "Queen Margaret" chronicles the misery of failed opera singers who find happiness after leaving the short-lived glory of the theater; "Torso" relates the faithfulness of a servant who is rejected by a young master; "The Burial of the Sardine," with echoes of Francisco de Goya, represents the ephemeral nature of joy as experienced during Shrovetide in a city dominated by the clergy; and "Two Scholars" recounts how envy and vanity affect a personal relationship."--BOOK JACKET.

THE LONDON REVIEW AND WEEKLY JOURNAL OF POLITICS, LITERATURE, ART, & SOCIETY**WHY I WRITE**

Renard Press Ltd George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature - his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' - 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' - and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can - and must - be rediscovered with every age.' — Irish Times
