DRINKING DILEMMAS

SPACE, CULTURE AND IDENTITY

Routledge Drinking and drunkenness have become a focal point for political and media debates to contest notions of responsibility, discipline and risk; yet, at the same time, academic studies have highlighted the positive aspects of drinking in relation to sociability, belonging and identity. These issues are at the heart of this volume, which brings together the work of academics and researchers exploring social and cultural aspects of contemporary drinking practices. These drinking practices are enormously varied and are spatially and culturally defined. The contributions to the volume draw on research settings from across the UK and beyond to demonstrate both the complexity and diversity of drinking subjectivities and practices. Across these examples tensions relating to gender, social class, age and the life course are particularly prominent. Rather than align to now long-established moral discourses about what constitutes 'good' and 'bad' drinking, sociological approaches to alcohol foreground the vivid, lived, nature of alcohol consumption and the associated experiences of drunkenness and intoxication. In doing so, the volume illuminates the controversial yet important social and cultural roles played by drink for individuals and groups across a range of social contexts.

A WORLD CHAMPION'S GUIDE TO RUNNING THE BEER MILE

A MANUAL AND MEMOIR OF RUNNING, CHUGGING, AND (NOT) THROWING UP

Simon and Schuster In June, 2015, Lewis Kent was just an ordinary twenty-one-year-old college kid who liked to run. By December, 2015, just six months later, he had appeared in ESPN, BuzzFeed, Ellen, and dozens of other major outlets. Videos of him running went viral, and he received daily calls from agents. So why all the attention? Simple: He ran the Beer Mile, and he ran it unbelievably fast. The beer mile is a track or road race in which you chug a beer, run a quarter mile, chug another beer, run another quarter mile, chug, run, chug, run: four beers, four laps, no vomiting allowed. "Chug, run, repeat." If it sounds difficult (but really fun), it's because it absolutely is. The event first went viral in 2014 when the five-minute barrier was broken. Kent became the world champion and broke the world record in late 2015 with a time of 4 minutes, 47 seconds, just over a minute longer than the world record for the regular mile. After that, he became the world's first professional Beer Miler, literally being paid for his superhuman ability to run fast and drink

quickly. Part memoir, part how-to manual, *A World Champion's Guide to Running the Beer Miles* is for both serious athletes and recreational runners who love to run, enjoy a drink, and like the idea of a challenge.

TRUE BEER

INSIDE THE SMALL, NEIGHBORHOOD NANOBREWERIES CHANGING THE WORLD OF CRAFT BEER

Simon and Schuster In the 1970s and '80s, the brewing industry shifted from large corporate suppliers to smaller, independent "microbrewers," typified by producers such as the Boston Beer Company and Sierra Nevada Brewing Company. Today, the market is going even smaller—with tiny, independent brewers setting up shop in neighborhood brew houses nationwide, focusing on crafting unique, flavorful brews specifically for their extremely local clientele. The reality is that beer is in the midst of a renaissance in this country, driven by a new class of these dedicated craft "nanobrewers" and growing communities of drinkers looking for something more from their daily brew—something higher-quality, more unique, more local. These microbrewers rent out small spaces or buy industrial equipment to install in their garages. They're accountants, middle-school teachers, and plumbers who are passionate about beer and who dedicate their free time to producing three or so barrels of their own brew at a time. They sell their bottles to close friends and gift it to family members for birthdays and holidays. They enjoy what they do and they're proud of their product. What's it like inside these small-time brewing operations? What happens behind the scenes? What goes into making high-end craft beer on a small scale? *True Beer* takes an on-the-ground look at the ultra-small side of the craft brewing movement from the inside out by profiling a number of independent American breweries in detail and using that as a jumping-off point to examine the art and science of brewing, the local farmers and providers behind the scenes, the market itself as well as national trends in nanobrewing, and modern craft beer production. Skyhorse Publishing, along with our Good Books and Arcade imprints, is proud to publish a broad range of cookbooks, including books on juicing, grilling, baking, frying, home brewing and winemaking, slow cookers, and cast iron cooking. We've been successful with books on gluten-free cooking, vegetarian and vegan cooking, paleo, raw foods, and more. Our list includes French cooking, Swedish cooking, Austrian and German cooking, Cajun cooking, as well as books on jerky, canning and preserving, peanut butter, meatballs, oil and vinegar, bone broth, and more. While not every title we publish becomes a *New York Times* bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work

might not otherwise find a home.

BREW BRITANNIA

THE STRANGE REBIRTH OF BRITISH BEER

Aurum How punter power pulled the humble pint back from the brink, this is the surprising story of a very British consumer revolt! Following a cast of bloody-minded City bankers, hippie microbrewers, style gurus, a Python, and a lot of men in pubs, Brew Britannia tells the story of the campaign to revitalise the nation's beer which became the most successful consumer revolt in British history! Fifty years ago the future of British beer looked as bleak as the weak, sweet, bland and fizzy pints being poured, as colossal combines took over the industry, closing local breweries and putting profit before palate. Yet today the number of breweries is at a post-war high, with over a thousand in operation, membership of The Campaign for Real Ale organisation (CAMRA) exploding in recent years with over 150,000 active members and exciting new developments brewing. In a barn in Somerset, plans are afoot to ferment a beer-

cider hybrid with wild yeast that blows on the wind, while in Yorkshire an almost extinct style of 'salt 'n' sour' wheat beer is being resurrected for the 21st century. Whether you drink traditional, CAMRA-approved 'real ale' or prefer a super-strong, fruit-infused, barrel-aged Belgian-style 'saison', this astonishing story from the authors of popular beer blog Boak and Bailey will have you thirsty for more!
