Independent Thinking on Teaching and Learning Developing independence and resilience in all teachers and learners (Independent Thinking On... series) *Crown House Publishing Ltd*
Jackie Beere's Independent Thinking on Teaching and Learning: Developing independence and resilience in all teachers and learners is a practical guide full of educational wisdom to help teachers make a genuine difference to the lives of every young person in their classroom. Foreword by Ian Gilbert. All the evidence shows that the most valuable asset in any classroom is the teacher at the front. No matter what changes are made to systems or to the curriculum, one certainty remains: children will be helped or hindered in their learning, job prospects, life chances and, indeed, happiness by the teachers they come across during their time in the education system. In this all-encompassing book on teaching and learning, Independent Thinking Associate Jackie Beere draws on her many years' experience as a teaching assistant, primary teacher and secondary head teacher to re-energise every teacher's passion for their profession. She champions both children and teachers as learners, and together with expert advice on how to instil the habits of independent learning in all pupils shares great practice that delivers outstanding outcomes for all educators. Jackie encourages teachers to embrace challenge and change, and suggests ways in which they can provide a model for their pupils when it comes to developing independence and resilience. She also offers expert guidance on how teachers can build rapport with their students and cultivate with them a sense of co-ownership of their learning journey so that they work hard, value their learning and fulfil their potential. Essential reading for all teachers and school leaders who wish to make an impact on the teaching and learning in their school. Independent Thinking on Teaching and Learning contains some material previously published in *The Perfect Lesson* (ISBN 978-178135244-1) and *The (Practically) Perfect Teacher* (ISBN 978-178135252-6), and is one of a number of books in the Independent Thinking On series from the award-winning Independent Thinking Press. **Mighty Jackie The Strike-Out Queen** *Simon & Schuster/Paula Wiseman* In 1931, seventeen-year-old Jackie Mitchell pitches against Babe Ruth and Lou Gehrig in an exhibition game, becoming the first professional female pitcher in baseball history. **A Mighty Long Way My Journey to Justice at Little Rock Central High School** *One World* "A searing and emotionally gripping account of a young black girl growing up to become a strong black woman during the most difficult time of racial segregation."—Professor Charles Ogletree, Harvard Law School "Provides important context for an important moment in America's history."—Associated Press When fourteen-year-old Carlotta Walls walked up the stairs of Little Rock Central High School on September 25, 1957, she and eight other black students only wanted to make it to class. But the journey of the "Little Rock Nine," as they came to be known, would lead the nation on an even longer and much more turbulent path, one that would challenge prevailing attitudes, break down barriers, and forever change the landscape of America. For Carlotta and the eight other children, simply getting through the door of this admired academic institution involved angry mobs, racist elected officials, and intervention by President Dwight D. Eisenhower, who was forced to send in the 101st Airborne to escort the Nine into the building. But entry was simply the first of many trials. Breaking her silence at last and sharing her story for the first time, Carlotta Walls has written an engrossing memoir that is a testament not only to the power of a single person to make a difference but also to the sacrifices made by families and communities that found themselves a part of history. **Cinematographers, Production Designers, Costume Designers & Film Editors Guide Visionaries In Our Midst Ordinary People who are Changing our World** *University Press of America* **Visionaries In Our Midst** is a compilation of essays, each focusing on an individual or individuals who saw an unmet social need in their community and did something about it. Surveying Borders, Boundaries, and Contested Spaces in Curriculum and Pedagogy** *IAP* The Curriculum and Pedagogy book series is an enactment of the mission and values espoused by the Curriculum and Pedagogy Group, an international educational organization serving those who share a common faith in democracy and a commitment to public moral leadership in schools and society. Accordingly, the mission of this series is to advance scholarship that engages critical dispositions towards curriculum and instruction, educational empowerment, individual and collectivized agency, and social justice. The purpose of the series is to create and nurture democratic spaces in education, an aspect of educational thought that is frequently lacking in the extant literature, often jettisoned via efforts to de-politicize the study of education. Rather than ignore these conversations, this series offers the capacity for educational renewal and social change through scholarly research, arts-based projects, social action, academic enrichment, and community engagement. Authors will evidence their commitment to the principles of democracy, transparency, agency, multicultural inclusion, ethnic diversity, gender and sexuality equity, economic justice, and international cooperation. Furthermore, these authors will contribute to the development of deeper critical insights into the historical, political, aesthetic, cultural, and institutional subtexts and contexts of curriculum that impact educational practices. Believing that curriculum studies and the ethical conduct that is congruent with such studies must become part of the fabric of public life and classroom practices, this book series brings together prose, poetry, and visual artistry from teachers, professors, graduate students, early childhood leaders, school administrators, curriculum workers and planners, museum and agency directors, curators, artists, and various under-represented groups in projects that interrogate curriculum and pedagogical theories. **Experience Inquiry 5 Powerful Strategies, 50 Practical Experiences** *Corwin Press* One part practical guide, one part interactive journal, this book provides the opportunity to do inquiry as you read about it.
