Freedom, Equality and Justice in Islam

In Freedom, Equality and Justice in Islam, M H Kamali presents the reader with an analysis of the three concepts of freedom, equality and justice from an Islamic point of view and their manifestations in the religious, social, legal and political fields. The author discusses the evidence to be found for these concepts in the Qur'an and Sunna, and reviews the interpretations of the earlier schools of law. The work also looks at more recent contributions by Muslim jurists who have advanced fresh interpretations of freedom, equality and justice in the light of the changing realities of contemporary Muslim societies. Freedom, Equality and Justice in Islam is part of a series dedicated to the fundamental rights and liberties in Islam and should be read in conjunction with The Dignity of Man: An Islamic Perspective and Freedom of Expression in Islam.

Human Rights in Islam

Human Rights in Africa

Cross-Cultural Perspectives

Brookings Institution Press This powerful volume challenges the conventional view that the concept of human rights is peculiar to the West and, therefore, inherently alien to the non-Western traditions of third world countries. This book demonstrates that there is a contextual legitimacy for the concept of human rights. Virginia A. Leary and Jack Donnelly discuss the Western cultural origins of international human rights; David Little, Bassam Tibi, and Ann Elizabeth Mayer explore Christian and Islamic perspectives on human rights; Rhoda E. Howard, Claude E. Welch, Jr., and James C. N. Paul examine human rights in the context of the African nation-state; Kwasi Wiredu, James Silk, and Francis M. Deng offer African cultural perspectives; and Abdullahi Ahmed An-Na'im and Richard D. Schwartz discuss prospects for a cross-cultural approach to human rights.

Media, Liberty and Politics in Malaysia: Comparative Studies on Local Dynamics and Regional Concerns (UUM Press)

UUM Press Media, Liberty and Politics in Malaysia: Comparative Studies on Local Dynamics and Regional Concerns is based on a collection of twelve academic papers. This book traces the development and progress of Malaysia as a nation that embraces issues of media, liberty and politics as essential parts of its culture, policy and well-being of the people. In between the 2008 and the 2013 General Elections, Malaysians have transformed themselves and demanded to form a more democratic society. Issues of political freedom, human rights, good governance and human dignity have become important and will determine the future of the Malaysian society. Besides, this book also tries to compare democratic practices in Malaysia with its neighbours such as Indonesia, Thailand and Australia, plus the Association of Southeast Asian Nations (ASEAN) as an organisation to promote democratisation and strong ties between its members. This book is suitable for all particularly the academics, students of politics and international relations, journalists, legal practitioners, and the general public who are interested in the issues of media, liberty and politics in Malaysia.

Why, as a Muslim, I Defend Liberty

Cato Institute Islam, the second largest religion in the world, has several authoritarian interpretations today that defy human freedom—by executing “apostates” or “blasphemers,” imposing religious practices, or discriminating against women or minorities. In Why, as a Muslim, I Support Liberty, Mustafa Akyol offers a bold critique of this trouble, by frankly acknowledging its roots in the religious tradition. But Akyol also shows that Islam has “seeds of freedom” as well—in the Qur’an, the life of the Prophet Muhammad, and the complex history of the Islamic civilization. It is past time, he argues, to grow those seeds into maturity, and reinterpret Islamic law and politics under the Qur’anic maxim, “No compulsion in religion.” Akyol shows that the major reinterpretation Islam needs now is similar to the transformation that began in Western Christianity back in the 17th century, with the groundbreaking ideas of classical liberal thinkers such as John Locke. The author goes back and forth between classical liberalism and the Islamic tradition, to excavate little-noticed parallels, first highlighted by the “Islamic liberals” of the late Ottoman Empire, unknown to many Muslims and non-Muslims today. In short chapters, Akyol digs into big questions. Why do Muslims need to “reform” the Sharia? But is there something to “revive” in the Sharia as well? Should Muslims really glorify “conquest,” or rather believe in social contract? Is capitalism really alien to Islam, which has a rich heritage of free markets and

civil society? Finally, he addresses a suspicion common among Muslims today: What if liberty is a mere cover used by Western powers to advance their imperialist schemes? With personal stories, historical anecdotes, theological insights, and a very accessible prose, this is the little big book on the intersection of Islam and liberty.

Islamic Perspectives On The Principles Of Biomedical Ethics

World Scientific Islamic Perspectives on the Principles of Biomedical Ethics presents results from a pioneering seminar in 2013 between Muslim religious scholars, biomedical scientists, and Western bioethicists at the research Center for Islamic Legislation & Ethics, Qatar Faculty of Islamic Studies. By examining principle-based bioethics, the contributors to this volume addressed a number of key issues related to the future of the field. Discussion is based around the role of religion in bioethical reasoning, specifically from an Islamic perspective. Also considered is a presentation of the concept of universal principles for bioethics, with a response looking at the possibility (or not) of involving religion. Finally, there is in-depth analysis of how far specific disciplines within the Islamic tradition — such as the higher objectives of Sharia (maqāṣid al-Sharīḥ) and legal maxims (qawā'id fiqhīyah) — can enrich principle-based bioethics.

Faith in Human Rights

Support in Religious Traditions for a Global Struggle

Georgetown University Press In this first comprehensive study of the problem of a universal definition of human rights, Robert Traer argues that contemporary theological discourse contains an affirmation of faith that unites members of world religious traditions with secular humanists in a common struggle to establish human rights as the basis for human dignity. Scholars of religion, law, and comparative religious ethics, as well as human rights advocates will find it an invaluable guide.

Policing Muslim Communities

Comparative International Context

Springer Science & Business Media In the past two decades, Muslim countries across the globe have been faced with a crisis in governance. Starting with a summary of Islamic Law (Sharia) and its implications for law enforcement, this book will highlight the unique needs and challenges of law enforcement, and particularly policing, in these communities. It will provide a scholarly exposition of Sharia law and how it is compatible (or not) with policing in a modern context. The role and contribution of Sharia Law towards conceptualizing law enforcement in a modern context is certainly worth looking forward to, especially understanding its co-existence with civil law in countries with minority Muslim communities. Featuring case studies from throughout the Muslim world, this volume will highlight key qualities of Sharia law and Muslim culture that play a role in law enforcement, including: case processing, community policing, police administration, human rights, and the influence of globalization. Taking a comprehensive approach, this work provides a historical context for colonization events in Muslim countries and their influence on current law enforcement systems, as well as providing key insights into the particular norms that make up the bases for Muslim societies, and their unique needs. Looking into the future, it provides guidelines for how community policing can play a proactive role in law enforcement and crime prevention.

The Age of Global Dialogue

Wipf and Stock Publishers Thinking beyond the absolutes Christians and other religious persons increasingly find "deabsolutized" in our modern thought world, Swidler reflects on the ways we humans think about the world and its meaning now that increasingly we notice that there are other ways of understanding the world than the way we grew up in. In this new situation we need to develop a common language we can use together both to appreciate our neighbors and enrich ourselves, what the author calls Ecumenical Esperanto, because it should serve as a common language without replacing any of the living languages of our religious and ideological traditions. Of course, such thinking anew about the world and its meaning must necessarily mean thinking anew about all of our religious beliefs--but this time, in dialogue.

Protecting the right to freedom of expression under the European Convention on Human Rights

A handbook for legal practitioners

Council of Europe European Convention on Human Rights - Article 10 - Freedom of expression 1. Everyone has the right to freedom of expression. This right shall include freedom to hold opinions and to receive and impart information and ideas without interference by public authority and regardless of frontiers. This article shall not prevent States from requiring the licensing of broadcasting, television or cinema enterprises. 2. The exercise of these freedoms, since it carries with it duties and responsibilities, may be subject to such formalities, conditions, restrictions or penalties as are prescribed by law and are necessary in a democratic society, in the interests of national security, territorial integrity or public safety, for the prevention of disorder or crime, for the protection of health or morals, for the protection of the reputation or rights of others, for preventing the disclosure of information received in confidence, or for maintaining the authority and impartiality of the judiciary. In the context of an effective democracy and respect for human rights mentioned in the Preamble to the European Convention on Human Rights, freedom of expression is not only important in its own right, but it also plays a central part in the protection of other rights under the Convention. Without a broad guarantee of the right to freedom of expression protected by independent and impartial courts, there is no free country, there is no democracy. This general proposition is undeniable. This handbook is a practical tool for legal professionals from Council of Europe member states who wish to strengthen their skills in applying the European Convention on Human Rights and the case law of the European Court of Human Rights in their daily work.

The Legal Treatment of Muslim Minorities in Italy

Islam and the Neutral State

Taylor & Francis Islam is a growing presence practically everywhere in Europe. In Italy, however, Islam has met a unique model of state neutrality, religious freedom and church and state collaboration. This book gives a detailed description of the legal treatment of Muslims in Italy, contrasting it with other European states and jurisprudence, and with wider global tendencies that characterize the treatment of Islam. Through focusing on a series of case studies, the author argues that the relationship between church and state in Italy, and more broadly in Europe, should be reconsidered both to secure religious freedom and general welfare. Working on the concepts of religious freedom, state neutrality, and relationship between church and state, Andrea Pin develops a theoretical framework that combines the state level with the supranational level in the form of the European Convention of Human Rights, which ultimately shapes a unitary but flexible understanding of pluralism. This approach should better accommodate not just Muslims' needs, but religious needs in general in Italy and elsewhere.

Contemporary Bioethics

Islamic Perspective

Springer This book discusses the common principles of morality and ethics derived from divinely endowed intuitive reason through the creation of al-fitr' a (nature) and human intellect (al-'aql). Biomedical topics are presented and ethical issues related to topics such as genetic testing, assisted reproduction and organ transplantation are discussed. Whereas these natural sources are God's special gifts to human beings, God's revelation as given to the prophets is the supernatural source of divine guidance through which human communities have been guided at all times through history. The second part of the book concentrates on the objectives of Islamic religious practice - the maqa' sid - which include: Preservation of Faith, Preservation of Life, Preservation of Mind (intellect and reason), Preservation of Progeny (al-nasl) and Preservation of Property. Lastly, the third part of the book discusses selected topical issues, including abortion, assisted reproduction devices, genetics, organ transplantation, brain death and end-of-life aspects. For each topic, the current medical evidence is followed by a detailed discussion of the ethical issues involved.

His contributions on the subject are however scattered in different academic journals and book chapters. This anthology is designed to bring together his academic contributions on the subject under one cover, for easy access for students and researchers in Islamic law and human rights.

On the Muslim Question

Princeton University Press Why "the Muslim question" is really about the West and its own anxieties—not Islam In this fearless, original book, Anne Norton demolishes the notion that there is a "clash of civilizations" between the West and Islam. What is really in question, she argues, is the West's commitment to its own ideals: to democracy and the Enlightenment trinity of liberty, equality, and fraternity. In the most fundamental sense, the Muslim question is about the values not of Islamic, but of Western, civilization.

Introduction to Islamic Economics

Theory and Application

John Wiley & Sons Gain deeper insight into the principles and theory of Islamic economics Introduction to Islamic Economics: Theory and Application provides an overview of the organizing principles and fundamentals of an Islamic economy. With deep discussion of the characteristics, rationale, key institutions, objectives, and instruments at work, the book addresses the core economic principles underlying a system based on the foundational teachings of Islam, and examines the implications for economic policies. Social welfare, economic justice, market functionality, efficiency, and equity are explored from an Islamic perspective, and the role and instruments of fiscal and monetary policy in Islamic systems are used to illustrate contemporary applications. Universities around the globe are offering courses on Islamic economics and finance, but despite the industry's rapid growth, most research has been focused on the financial principles rather than underlying economic principles. The first book of its kind, Introduction to Islamic Economics brings all the key concepts together into one reference volume. By outlining the ways in which Islamic finance and Islamic economics interrelate, this book can help readers to: Develop an understanding of the Islamic economic system and its institutional scaffolding Differentiate between the major characteristics of the dominant conventional economy and one based on the fundamental sources of Islam Understand the conditions that must be met for a just, well-balanced, stable, and growing economy Clarify the role of State, public policy, and risk-sharing in the Islamic financial system The Islamic financial system is expanding quickly, and those looking to increase their relevance in a changing economic landscape must get up to speed. Introduction to Islamic Economics provides a comprehensive overview of underlying economic system offering a deeper understanding of the feature of the system. This book is an excellent complement to Introduction to Islamic Finance, 2E by Iqbal and Mirakhor.

A Christian Approach to Corporate Religious Liberty

*Springer Nature This book addresses one of the most urgent issues in contemporary American law—namely, the logic and limits of extending free exercise rights to corporate entities. Pointing to the polarization that surrounds disputes like *Burwell v. Hobby Lobby*, David argues that such cases need not involve pitting flesh-and-blood individuals against the rights of so-called “corporate moral persons.” Instead, David proposes that such disputes should be resolved by attending to the moral quality of group actions. This approach shifts attention away from polarizing rights-talk and towards the virtues required for thriving civic communities. More radically, however, this approach suggests that groups themselves should not be viewed as things or “persons” in the first instance, but rather as occasions of coordinated activity. Discerned in the writings of Saint Thomas Aquinas, this reconceptualization helps illuminate the moral stakes of a novel—and controversial—form of religious freedom.*

Religious Liberty in Transitional Societies

The Politics of Religion

Cambridge University Press It is commonly assumed that the issue of religion declines in political significance as societies modernise. However, the upheaval associated with the shift from authoritarian to more open regimes can be accompanied by a revitalisation of religion. Individuals within these societies are struggling to find meaning in the seeming chaos of political change; religious elites are seeking to define their own role within the new order; and political elites are looking for new ways of ensuring legitimacy and building national unity. In this book John Anderson constructs a theoretical framework where he compares and contrasts the politics of religious liberty in two Southern European countries, two Central-Eastern European countries and the evolution of the former USSR, particularly Russia. Exploring these issues of religious 'recognition' and religious diversity, Anderson attempts to expose the wider problem of creating a democratic mentality in such transitional societies, through extensive original research and interviews.
