MILITARY MEDICAL ETHICS FOR THE 21ST CENTURY

Ashgate Publishing, Ltd. As asymmetric 'wars among the people' replace state-on-state wars in modern armed conflict, the growing role of military medicine and medical technology in contemporary war fighting has brought an urgent need to critically reassess the theory and practice of military medical ethics. **Military Medical Ethics for the 21st Century** is the first full length, broad-based treatment of this important subject. Written by an international team of practitioners and academics, this book provides interdisciplinary insights into the major issues facing military-medical decision makers and critically examines the tensions and dilemmas inherent in the military and medical professions. In this book the authors

explore the practice of battlefield bioethics, medical neutrality and treatment of the wounded, enhancement technologies for war fighters, the potential risks of dual-use biotechnologies, patient rights for active duty personnel, military medical research and military medical ethics education in the 21st Century.

AMERICAN TORTURE

FROM THE COLD WAR TO ABU GHRAIB AND BEYOND

Melbourne Univ. Publishing **Contrary to US government assertions, the Abu Ghraib photos do not reflect the perverse handiwork of a 'few bad apples'. As American Torture reveals, tortures such as sensory deprivation, sexual humiliation and forced standing are core elements of the American detention regime, a product of more than sixty years of government research and development fully detailed in extensive CIA manuals. In the wake of the Abu Ghraib scandal, mainstream media and human rights organisations have exhaustively documented the American use of torture in detention centres around the world. Although expansive, these reports lack context. American Torture examines the origins of this detention regime and traces how it was refined, spread and kept legal. Along the way, American Torture uncovers the effects of state-sponsored torture and deconstructs the myths espoused by its proponents. What are the ramifications of such praxis for global security? The book will also feature an interview with Mamdouh Habib, and look at the plight of Guantanamo Bay detainee David Hicks.**

INQUIRY INTO THE TREATMENT OF DETAINEES IN U.S. CUSTODY

MILITARY PSYCHOLOGY, THIRD EDITION

CLINICAL AND OPERATIONAL APPLICATIONS

Guilford Publications **With more than 60% new material reflecting advances in evidence-based treatments and the evolving roles of military mental health providers, the authoritative resource in the field is now in a significantly revised third edition. The volume provides research-based roadmaps for prevention and intervention with service members and**

veterans in a wide range of settings. Up-to-date information about military procedures and guidelines is included throughout. Grounded in current knowledge about stress and resilience, chapters describe best practices in treating such challenges as depression, anxiety disorders, posttraumatic stress disorder, and substance use disorders. Also addressed are operational functions of psychologists in personnel assessment and selection, counterintelligence, and other areas. New to This Edition *Chapters on new topics: the spectrum of military stress reactions, concussion management, military sexual assault, embedded/expeditionary psychological practice, and security clearance evaluations. *Fully rewritten chapters on evidence-based treatments, behavioral health in primary care, and disaster mental health. *Incorporates major shifts in how and where military mental health services are delivered.

MANUAL OF QUALIFICATIONS FOR LIMITED DUTY OFFICERS, U.S.N.

RENDITION TO TORTURE

Rutgers University Press **Universally condemned and everywhere illegal, torture goes on in democracies as well as in dictatorships. Nonetheless, many Americans were surprised following the attacks of 9/11 at how easily the United States embraced torture as well as the supposedly lesser evil of cruel, inhuman, and degrading treatment. Nothing seemed extreme when it came to questioning real and imagined terrorists. Extraordinary rendition—sending people captured in the “war on terror” to nations long counted among the world’s worst human rights violators—hid from the public eye cruel and bloody interrogations. “Torture lite” or “torture without marks” became the norm for those in American custody. In Rendition to Torture, Alan W. Clarke explains how the United States adopted torture as a matter of official policy; how and why it turned to extraordinary rendition as a way to outsource more extreme, mutilating forms of torture; and outlines the steps the United States took to hide its abuses. Many adverse consequences attended American use of torture. False information gleaned from torture was used to justify the Iraq war, adding potency to the charge that the war was illegal under international law. Moreover, European nations and Canada aided, abetted, and became thoroughly enmeshed in U.S.-led torture and renditions, thereby spreading both the problem and the blame for this practice. Clarke offers an extended critique of these activities, placing them in historical and legal context as well as in transnational and comparative perspective.**

INTERROGATION AND TORTURE

INTEGRATING EFFICACY WITH LAW AND MORALITY

Oxford University Press, USA **"This book focuses on the science, law and morality behind interrogational methods. It develops, for the first time, a comprehensive discussion regarding the legality of torture and the efficacy of interrogation. In other words, scientific research has concluded that torture is not effective. This then raises a natural question: What interrogational methods are effective? How does one employ those methods in way that is consistent with law and morality?"--**

AIR FORCE HANDBOOK 10-644 SURVIVAL EVASION RESISTANCE ESCAPE OPERATIONS, 27 MARCH 2017

[Createspace Independent Publishing Platform](#) **Air Force Handbook 10-644 Survival Evasion Resistance Escape (SERE) Operations 27 March 2017** This handbook describes the various environmental conditions affecting human survival, and describes isolated personnel (IP) activities necessary to survive during successful evasion or isolating events leading to successful recovery. It is the fundamental reference document providing guidance for any USAF service member who has the potential to become isolated; deviations require sound judgment and careful consideration. This publication provides considerations to be used in planning and execution for effective mission accomplishment of formal USAF Survival, Evasion, Resistance, and Escape (SERE) training, environmentally specific SERE training, and combat survival continuation training programs. The tactics, techniques, and procedures in this publication are recognized best practices presenting a solid foundation to assist USAF service members to maintain life and return with honor from isolating events.

CONGRESSIONAL RECORD

PROCEEDINGS AND DEBATES OF THE ... CONGRESS

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

NAVAL LAW REVIEW

HOW TO SURVIVE

LESSONS FOR EVERYDAY LIFE FROM THE EXTREME WORLD

[Pan Macmillan](#) **A splendid book . . . I can't think of anyone I know who wouldn't benefit from reading it' - Marcus Berkman, Daily Mail 'A brilliant, brilliant book' - Chris Evans, Virgin Radio Now** including a new chapter on coping with a pandemic. What is the connection between crawling through a jungle and your 'to do' list? What can ejecting out of a stealth bomber teach you about the getting through a pandemic? What can surviving in extreme situations teach us about surviving everyday life? John Hudson, Chief Survival Instructor to the British Military, knows what it takes to survive. Combining first-hand experience with twenty years of studying the choices people have made under the most extreme pressure, **How to Survive** is a lifetime's worth of wisdom about how to apply the principles of survival to everyday life. The cornerstone of military survival (surviving anything) is understanding the relationship between effort, hope and goals - a mindset that can be transposed anytime, anywhere. In **How to Survive** you will learn how this template for survival can be applied to any situation in your everyday life. Through gripping first-hand accounts of near disaster and survival stories from across the extreme world you will learn that by following these principles you can develop the mindset that will allow you to make better decisions under pressure, which are as equally applicable to first dates and presentations as to climbing Everest and getting lost at sea. 'When it comes to survival and getting out of trouble, listen to this man. John is the real deal' - Levison Wood

TERRORIST RECOGNITION HANDBOOK

A PRACTITIONER'S MANUAL FOR PREDICTING AND IDENTIFYING TERRORIST ACTIVITIES, THIRD EDITION

CRC Press First published in 2003, *Terrorist Recognition Handbook: A Practitioner's Manual for Predicting and Identifying Terrorist Activities* remains one of the only books available to provide detailed information on terrorist methodology—revealing terrorist motivation, organizational structure, planning, financing, and operational tactics to carry out attacks. This fully revised and updated third edition contains the detailed analysis and history of prior editions with completely new case studies and information on new and emerging terrorist practices and trends. Updates to the third edition include: The newest geopolitical challenges and terrorism to emerge from the geopolitical climate post-Arab Spring Details on the newest attack tactics and procedures of al-Qaeda including al-Qaeda of the Arabian Peninsula, the Islamic Maghreb, and East and North Africa Lessons learned from recent terrorist operations and information gained from plots foiled by the FBI in the U.S. Current strategic factors and regional variables affecting global terrorism and regional insurgencies Potential points of failure in terrorist operations where plots can be most easily detected and disrupted The increasing trend of self radicalized, Internet- educated "lone wolf" operations, as demonstrated in the Boston Marathon bombing The rebirth of U.S. and European militia groups Written for counterterrorism practitioners who risk their lives to uncover planned attacks on civilian populations, this book will serve as a guide to train intelligence operatives, law enforcement entities, and military intelligence agents and soldiers to recognize and disrupt the various stages of developing terrorist plots.
