CULTURED STATES

YOUTH, GENDER, AND MODERN STYLE IN 1960S DAR ES SALAAM

Duke University Press Cultured States sheds new light on the connections between culture and politics in early postcolonial East Africa. Focusing on Tanzania, Andrew Ivaska explores tensions between the national culture promoted by the state and the urban culture of Dar es Salaam, the nation's largest city. These tensions were evident in the debates conducted in the press, streets, and bars of Dar es Salaam in response to state campaigns banning "decadent" forms of popular culture, including miniskirts, bell-bottoms, and soul music; student protests and activism at the University College of Dar es Salaam; and official proposals for overhauling colonial-era marriage laws. Ivaska relates these to controversies to social struggles in a rapidly changing city. Migration from the countryside was booming, and despite high unemployment in Dar es Salaam, the city offered young women migrants increased opportunities for economic and social autonomy, in relation not only to the lives they had left, but also to young men's fortunes in the city. Many young men came to resent the conspicuous wealth of the city's elite, older men, who were rumoured to be "sugar daddies" to "city girls." Claims to modernity were invoked toward different ends: by those attempting to create a national culture both modern and distinctly non-Western, and by young Tanzanians who found some of the Western, and particularly African American, styles circulating through Dar es Salaam to epitomize modern style.

IN MINIATURE

HOW SMALL THINGS ILLUMINATE THE WORLD

Atria Books Bestselling, award-winning writer Simon Garfield returns with an enthralling investigation of humans' peculiar fascination with small things—and what small things tell us about our larger world. "[Simon Garfield is] an exuberant truffle-hound of the recondite and delightful factoid." —Sunday Times (London) Simon Garfield writes books that shine a light on aspects of the everyday world in order to reveal the charms and eccentricities hiding in plain sight around us. After beguiling fans with books about everything from typography to time, from historic maps to the color mauve, he's found his most delightful topic yet: miniatures. Tiny Eiffel Towers. Platoons of brave toy soldiers. A doll's house created for a Queen. Diminutive crime scenes crafted to catch a killer. Model villages and miniscule railways. These are just a few of the objects you will discover in the pages of In Miniature. Bringing together history, psychology, art, and obsession, Garfield explores what fuels the strong appeal of miniature objects among collectors, modelers, and fans. The toys we enjoy as children invest us with a rare power at a young age, conferring on us a taste of adult-sized authority. For some, the desire to

play with small things becomes a desire to make small things. We live in a vast and uncertain world, and controlling just a tiny, scaled-down part of it restores our sense of order and worth. As it explores flea circuses, microscopic food, ancient tombs, and the Vegas Strip, *In Miniature* changes the way we perceive our surroundings, encouraging all of us to find greatness in the smallest of things.

IN IDI AMIN'S SHADOW

WOMEN, GENDER, AND MILITARISM IN UGANDA

Ohio University Press In Idi Amin's Shadow is a rich social history examining Ugandan women's complex and sometimes paradoxical relationship to Amin's military state. Based on more than one hundred interviews with women who survived the regime, as well as a wide range of primary sources, this book reveals how the violence of Amin's militarism resulted in both opportunities and challenges for women. Some assumed positions of political power or became successful entrepreneurs, while others endured sexual assault or experienced the trauma of watching their brothers, husbands, or sons "disappeared" by the state's security forces. In Idi Amin's Shadow considers the crucial ways that gender informed and was informed by the ideology and practice of militarism in this period. By exploring this relationship, Alicia C. Decker offers a nuanced interpretation of Amin's Uganda and the lives of the women who experienced and survived its violence. Each chapter begins with the story of one woman whose experience illuminates some larger theme of the book. In this way, it becomes clear that the politics of military rule were highly relevant to women and gender relations, just as the politics of gender were central to militarism. By drawing upon critical security studies, feminist studies, and violence studies, Decker demonstrates that Amin's dictatorship was far more complex and his rule much more strategic than most observers have ever imagined.

MATERIALITY AND VISUALITY IN NORTH EAST INDIA

AN INTERDISCIPLINARY PERSPECTIVE

Springer Nature This edited book set in the context of North East India explores issues concerning symbols, meanings, representations, and social implications of materiality and visuality, as well as the dynamics of power, social reproduction, ideological dominance and knowledge production, from an interdisciplinary perspective. It seeks to answer the question of why some things matter more than others or what happens when certain things are made more visible than others. The book provides valuable insights into the process of identity construction through the use of cultural sources, both material and visual. Following on the debates/discussions on material and visual culture in the 1970s and 1980s, the book argues that instead of viewing objects as mere representation(s), one should see them as active agents in creating perceptions, bodily practices, discourses and perceptions of our social world. Each chapter in the book unravels and engages with these pertinent issues in order to arrive at a more comprehensive understanding of the status quo. The book is of interest to scholars of ethnicity, identity construction, politics and state, cultural studies, media studies, visual, social and cultural anthropology and sociology, as well as lay readers who want to learn more about the region.
