Teaching and Learning at a Distance

Foundations of Distance Education 7th Edition

IAP Teaching and Learning at a Distance is written for introductory distance education courses for preservice or in-service teachers, and for training programs that discuss teaching distant learners or managing distance education systems. This text provides readers with the basic information needed to be knowledgeable distance educators and leaders of distance education programs. The teacher or trainer who uses this book will be able to distinguish between appropriate uses of distance education. In this text we take the following themes: The first theme is the definition of distance education. Before we started writing the first edition of Teaching and Learning at a Distance we carefully reviewed the literature to determine the definition that would be at the foundation of our writing. This definition is based on the work of Desmond Keegan, but is unique to this book. This definition of distance education has been adopted by the Association for Educational Communications and Technology and by the Encyclopedia Britannica. The second theme of the book was the importance of research to the development of the contents of the book. The best practices presented in Teaching and Learning at a Distance are validated by scientific evidence. Certainly there are "rules of thumb", but we have always attempted to only include recommendations that can be supported by research. The third theme of Teaching and Learning at a Distance is derived from Richard Clark's famous quote published in the Review of Educational Research that states that media are mere vehicles that do not directly influence achievement. Clark's controversial work is discussed in the book, but is also fundamental to the book's advocacy for distance education - in other words, we authors did not make the claim that education delivered at a distance was inherently better than other ways people learn. Distance delivered instruction is not a "magical" approach that makes learners achieve more. The fourth theme of the book is equivalency theory. Here we presented the concept that instruction should be provided to learners that is equivalent rather than identical to what might be delivered in a traditional environment. Equivalency theory helps the instructional designer approach the development of instruction for each learner without attempting to duplicate what happens in a face to face classroom. The final theme for Teaching and Learning at a Distance is the idea that the book should be comprehensive - that it should cover as much of the various ways instruction is made available to distant learners as is possible. It should be a single source of information about the field.

Wind Power in View

Energy Landscapes in a Crowded World

Academic Press More than ever, travelers are encountering a different sort of landscape, one not only of nature but of technology. Wind Power in View is the first authoritative discourse on the aesthetic impact of wind turbines on the landscape and what can be done about it. It is a detailed and thoroughly illustrated discussion of the issue from several different perspectives. The book also provides an overview of the status of wind energy at the dawn of the new millennium, examines some of the ongoing battles, and offers guidelines on minimizing its visual impact. Taking examples from the United States, Germany, Denmark, Great Britain, and Sweden, Wind Power in View is the first book to tackle the thorny land use questions raised by wind energy's hard won respectability. What will be the future of wind energy? Will it be welcomed as savior, or will it be opposed as a new-age intrusion on open space and landscape preservation? These 11 essays, international in nature and written by objective experts, address landscape issues in creative, original ways. International focus, with examples from Germany, Denmark, Great Britain, Sweden and the United States The first book to tackle land use questions raised by wind energy's hard won respectability Addresses landscape issues in creative, original ways

Wind Power

Renewable Energy for Home, Farm, and Business

Chelsea Green Publishing Wind energy today is a booming worldwide industry. The technology has truly come of age, with better, more reliable machinery and a greater understanding of how and where wind power makes sense -- from the independent homestead to a grid-connected utility-wide perspective. Heightened concerns about our environment mean that this resurgence of interest in wind -- a natural and widespread power source -- is here to stay. Wind Power is the completely revised and expanded edition of Paul Gipes definitive 1993 book, Wind Power for Home and Business. In addition to expanded sections on gauging wind resources and siting wind turbines, this edition includes new examples and case studies of successful wind systems, international sources for new and used equipment, and hundreds of color photographs and illustrations.

Small is Profitable

The Hidden Economic Benefits of Making Electrical Resources the Right Size

Routledge Today's electricity industry - large power stations feeding a nationwide grid - will soon be a thing of the past. This book explains why and what will replace it - decentralized and distributed electrical resources which can be up to 10 times as economically valuable. The authors - all leading experts in the field - explain very clearly and thoroughly all the benefits, so the engineers will understand the economic advantages and the investors will understand the engineering efficiencies. Here's what industry experts are saying about Small is Profitable... 'A tour-de-force and a goldmine of good ideas. It is going to have a stunning impact on thinking about electricity.' Walter C. Patterson, Senior Research Fellow, Royal Institute of International Affairs, London. 'An amazing undertaking - incredibly ambitious yet magnificently researched and executed.' Dr. Shimon Awerbuch, Senior Advisor, International Energy Agency, Paris. 'Outstanding...You have thought of some [benefits] I never considered...A great resource for the innovation in energy services that will have to take place for us to have a sustainable future.' Dr. Carl Weinberg, Weinberg Associates, former Research Director, PG&E. 'This is a brilliant synthesis and overview with a lot of original analytics and insights and a very important overall theme. I think it is going to have a big impact.' Greg Kats, Principal, Capital E LLC, former Finance Director for Efficiency and Renewable Energy, U.S. Department of Energy. 'E. F. Schumacher would be proud of this rigorous extension of his thesis in Small is Beautiful. It shows how making systems the right size can make them work better and cost less. Here are critical lessons for the new century: technologies tailored to the needs of people, not the reverse, can improve the economy and the environment.' Dr. Daniel Kammen, Professor of Energy and Society and of Public Policy, University of California, Berkeley. 'Small is Profitable creates an unconventional but impeccably reasoned foundation to correctly assign the costs and true benefits of distributed energy systems. It has become an indispensable tool for modelling distributed energy systems benefits for us.' Tom Dinwoodie, CEO and Chairman, PowerLight Corporation. 'A Unique and valuable contribution to the distributed energy industry...Small Is Profitable highlights the societal benefits of distributed resources, and will be a helpful guide to policymakers who wish to properly account for these benefits in the marketplace.' Nicholas Lenssen, Senior Director, Primen. 'This book will shift the electric industry from the hazards of overcentralization toward the new era where distributed generation will rule.' Steven J. Strong, President, Solar Design Associates, Inc. 'Readers will understand why distributed resources are poised to fundamentally alter the electric power system. Its comprehensive review of the benefits of distributed resources [is] an important part of my library.' Dr. Thomas E. Hoff, President, Clean Power Research. 'The most comprehensive treatise on distributed generation.... Great job and congratulations.' Howard Wenger, Principal, Pacific Energy Group '...[D]ensely packed with information and insights...goes a long way to demonstrate that the former paradigm of electric power supply no longer makes sense.' Prof. Richard Hirsh, University of Vermont, Leading historian of the electric power sector. 'Amory Lovins was already the world's most original and influential thinker on the future of energy services in general and electricity systems in particular. This remarkable book is a very worthy addition to an extraordinary legacy.' Ralph Cavanagh, Energy Co-Director, Natural Resources Defense Council. 'This is a book every utility professional should have on the bookshelf.' Dr Peter S. Fox-Penner, Principal and Chairman of the Board, the Brattle Group, former Principal Deputy Assistant Secretary of Energy.

Keeper of the River

Roxbury Park Jack, Keiko, and Arty are back in the exciting second installment of the Rafters series. At the conclusion of the first book, the gang was unable to find Jack's older brother, Ben, who'd fallen overboard while riding the magic raft down the Dunmoore River. Book two begins with Jack and Keiko returning to the fair grounds to look for the old junk dealer who'd sold them the raft. Although the man is nowhere to be found, the kids find an old map they believe holds the secret to Ben's whereabouts. Despite their last frightening trip down river, Jack, Keiko, and Arty return for more thrills on their magical raft, only to discover that the map they've placed their faith in transports them to a place from which they may never return! Will Jack find Ben? Will the kids discover the identity of the old man who sold them the raft? These questions and others are finally revealed in this gripping new installment of Rafters!

Quarterly Review of Distance Education

Volume 15 #3

IAP The Quarterly Review of Distance Education is a rigorously refereed journal publishing articles, research briefs, reviews, and editorials dealing with the theories, research, and practices of distance education. The Quarterly Review publishes articles that utilize various methodologies that permit generalizable results which help guide the practice of the field of distance education in the public and private sectors. The Quarterly Review publishes full-length manuscripts as well as research briefs, editorials, reviews of programs and scholarly works, and columns. The Quarterly Review defines distance education as institutionally-based formal education in which the learning group is separated and interactive technologies are used to unite the learning group.

The Management of Construction Safety and Health

CRC Press This volume looks at many issues involved in the management of construction safety and health. It covers many different topics, such as an overview of health hazards in construction and the use of IT to help regulate public health and safety in construction.

Construction Safety

Prentice Hall This book is a compilation of a vast number of construction safety research studies. Drawing upon his 20+ years academic and on-site experience, Hinze has designed its coverage to allow easy implementation of the principles and practices described in each study.

Media Capture

How Money, Digital Platforms, and Governments Control the News

Columbia University Press Who controls the media today? There are many media systems across the globe that claim to be free yet whose independence has been eroded. As demagogues rise, independent voices have been squeezed out. Corporate-owned media companies that act in the service of power increasingly exercise soft censorship. Tech giants such as Facebook and Google have dramatically changed how people access information, with consequences that are only beginning to be felt. This book features pathbreaking analysis from journalists and academics of the changing nature and peril of media capture—how formerly independent institutions fall under the sway of governments, plutocrats, and corporations. Contributors including Emily Bell, Felix Salmon, Joshua Marshall, Joel Simon, and Nikki Usher analyze diverse cases of media capture worldwide—from the United Kingdom to Turkey to India and beyond—many drawn from firsthand experience. They examine the role played by new media companies and funders, showing how the confluence of the growth of big tech and falling revenues for legacy media has led to new forms of control. Contributions also shed light on how the rise of right-wing populists has catalyzed the crisis of global media. They also chart a way forward, exploring the growing need for a policy response and sustainable models for public-interest investigative journalism. Providing valuable insight into today's urgent threats to media independence, Media Capture is essential reading for anyone concerned with defending press freedom in the digital age.

The ECI Guide to Managing Health in Construction

Thomas Telford - Who should read this manual? - Health hazards during construction activities or processes - Occupational health problems in construction workers - Control measures and influencing factors for effective occupational health management - EU health legislation and health agencies

Construction Site Safety

A Guide for Managing Contractors

CRC Press An important part of an organization's overall safety and health program involves safety management for contractors. A contractor with a poor safety program can adversely affect quality, productivity, schedules, and overall cost. This book explains how to manage project safety and improve the odds of an injury-free workplace. If project managers are to apply their judgment wisely, they need to know the rationale for each requirement, and how to implement it. They must know what is to be done, who is to do it, and when and how it should be done. The author considers all these factors. Construction Site Safety addresses the fundamental elements of a successful construction safety program. The author explains the industry trends and best practices that enable job site managers or field engineers to understand the necessary steps to ensure that contractors have and follow safety guidelines. Features

Handbook of Distance Education

Routledge This work provides overviews and summaries of the research and practice of distance education in the USA. It addresses such questions as how distance education is best practised at the level of the teacher, as well as the administrator.

The Perfect Online Course

Best Practices for Designing and Teaching

IAP The Perfect Online Course: Best Practices for Designing and Teaching was edited under the assumption that a perfect online course can be delivered following different instructional methods and models for design and for instruction, and by implementing different teaching or instructional strategies. Such methods, models, and strategies are framed within quality educational guidelines and must be aimed towards attaining the online course's learning goals. The book seeks to make a contribution to the existing body of literature related to best practices and guidelines for designing and teaching distance courses, specifically online education. The process of selecting works suitable for this compilation included an extensive review of the journals Quarterly Review of Distance Education and Distance Learning. The book begins by covering literature related to general approaches and guidelines, continues with proposed methods and models for designing and instruction, and ends with instructional strategies to achieve engagement through interaction. The book is divided into four independent, yet interrelated, parts and a concluding section: Part I: Introduction; Part II: Best Guidelines and Standards; Part III: Best Instructional Methods and Models; Part IV: Best Engagement Strategies; and the concluding section, And Finally..., with words from Simonson who delineates the structure of a perfect online course.

Total Project Management of Construction Safety, Health, and Environment

Thomas Telford This book provides an extensive list of factors that should be considered on all construction related projects, whilst highlighting, with the aid of worked examples, the key areas that will make the most significant contribution to success. It also provides details on the very latest UK legislation. Including the recent CDM Regulations and European Directives, it provides a framework for the development of pro-active management of Safety, Health and Environment (SHE) in the construction industry; describes a systematic approach to construction SHE management which promotes

continuing improvement in SHE performance in all construction activities; and defines the minimum She objectives to be considered during each construction activity.

The Emerging Optical Network

Intl. Engineering Consortiu Designed to help readers understand the very latest optical developments, technologies, architectures, and market trends driving the next-generation network, this comprehensive report of all-optical networks (AON) is a critical resource for any communications company that hopes to tackle today's optical networking challenge. The future of the AON remains uncertain, but the next-generation optical network promises to provide the bandwidth flexibility, reliability, and network-management functions required to enable end-to-end wavelength services.

Star Schools Program

Doll Bones

Simon and Schuster Playing an endless make-believe game about pirates, mermaids and warriors under the rule of a formidable Great Queen china doll, best friends Zach, Poppy and Alice find their bond tested when Zach is compelled to give up their shared adventures and Poppy begins having dreams about the doll. By the co-author of the best-selling Spiderwick Chronicles.

Opportunity for All in a World of Change

This White Paper is concerned with the requirements for economic success in the next decade. It looks at the role of government when it can neither resist structural change nor try to pick winners. Instead it has to work with businesses and individuals to adapt to change and ensure investment occurs in a modern infrastructure. The key needs are to increase the educational and skill levels of the population, rationalise the system of vocational qualifications and develop information and communication skills. Investment in new technologies is required and there will be a fund to promote the commercial exploitation of research. The accelerated uptake of broadband and digital technologies will be encouraged. There is also a need for all of the regions to grow and the proposals for this include: university innovation centres, an incubator fund, new strategies from Regional Development Agencies and a more efficient planning system. Changes in the regulatory and financial climate will make it easier for people who have gone bankrupt to start again. There will also be a Small Business Service Strategy.

Learning From Failure

The Systems Approach

John Wiley & Son Limited "It's fine to celebrate success, but it is more important to heed the lessons of failure. How a company deals with mistakes suggests how well it will bring out the best ideas and talents of its people and how effectively it will respond to change." Bill Gates of Microsoft in his syndicated newspaper column, April 1995. Learning from Failure?The Systems Approach provides a way of drawing out these lessons. Joyce Fortune and Geoff Peters' research into how the failures in organizations can be best understood extends over twenty years and their observations and conclusions have been well tested. This book shows that understanding can also lead to prevention. It aims to raise the study of failure to a point where experiences and lessons learnt are openly discussed as positive achievements rather than dark secrets. The Systems Failures Method, which is at the core of this book, is designed to focus systems thinking to the specifics of understanding failure. Major disasters and smaller failures could be prevented using systems thinking because it is uniquely suited to the task of avoiding failure. The Systems Failures Method has now been applied by well over 1000 people in a wide range of situations. Cases used in this book include the gas leak at a chemical plant in Bhopal, India, and the failure of electronic medical records in the health care systems of the UK, Canada and the USA. The challenge for those in business is to start using failure as a trigger for organizational learning. This book will help them.

Construction Planning and Scheduling

Pearson Educacion Construction Planning and Scheduling, Fourth Edition offers broad coverage of all major scheduling subjects. This comprehensive resource is designed for construction management, planning and scheduling. It follows a logical progression, introducing precedence diagramming early and following with chapters on activity durations, resource allocations, network schedules, and more. It reflects current trends in scheduling (short-interval scheduling, computer scheduling, linear scheduling etc.) and includes chapters on arrow diagramming and PERT. With an eye on application, it includes a unique discussion of contract provisions related to scheduling and incorporates a sample project throughout.

The Distance Teaching Universities

Routledge Originally published in 1982 this volume provides nine case studies of particular distance teaching universities in Canada, China, Cost Rica, Germany, Israel, Pakistan, Spain, Venezuela and the UK. These universities were mainly founded in the 1970s to teach only at a distance. The book considers the provision of distance education by universities in general and the development and characteristics of the distance teaching universities in particular. Chronicling the emergence of new university structures between 1971-1981, the book also provides an appraisal of their performance in the early years.

Teaching Abby

Becca Jameson Publishing It's a summer internship. Never mind that the owners are hot. Never mind that there are three of them. Never mind that they are twice her age. Never mind that they have a secret "play" room in the basement. Never mind that she's never been more intrigued in her life. She only has three months. No matter how deeply she gets involved, she can't stay...

Trends in Assessment

Ideas, Opportunities, and Issues for Higher Education

Stylus Publishing (VA) "Each of the chapters contained herein is worth reading by itself, but I hope that readers will take the time to consume all of the chapters in order to see meta-trends taking shape in various settings--and to observe as well the growing sophistication of assessment practices as they evolve to fit the ever-changing contexts of higher education."--From the foreword by Trudy W. Banta Trends in Assessment provides readers with a survey of the state-of-the-art of the enduring assessment concepts and approaches developed over the past twenty-five years, and includes chapters by acknowledged experts who describe how emerging assessment trends and ideas apply to their programs and pedagogies, covering: Community Engagement ePortfolios Faculty Development Global Learning Graduate and Professional Education High-Impact Practices Learning Improvement and Innovation Assessment Trends from NILOA STEM Student Affairs Programs and Services The concluding chapters point to a future of assessment and identify several meta-trends in assessment. The book was conceived by organizers and contributors of the Assessment Institute in Indianapolis, the nation's oldest and largest higher education assessment event, and includes contributions by the following partners of the Institute: Association for the Assessment of Learning in Higher Education (AALHE); Association for Authentic, Experiential, and Evidence-Based Learning (AAEEBL); Association for General and Liberal Studies (AGLS); Association for Institutional Research (AIR); Association of American Colleges and Universities (AAC&U); Center for Postsecondary Research (CPR)/National Survey of Student Engagement (NSSE); and Higher Education Data Sharing Consortium (HEDS). Trends in Assessment serves as a vital resource for faculty, student affairs professionals, administrators, anyone involved in accreditation, and scholars in the field.

Complexity, Management and Change

Applying a Systems Approach. Comparing systems approaches. Block V

RSMeans Cost Data, + Website

John Wiley & Sons This brand-new book provides a thorough introduction to cost estimating in a self-contained print and online package. With clear explanations and a hands-on, example-driven approach, it is the ideal reference for students and new professionals who need to learn how to perform cost estimating for building construction. With more than 930 Location Factors in the United States and Canada, the data includes up-to-date system prices for more than 100 standard assemblies and in-place costs for thousands of alternates making it easy to customize budget estimates and compare system costs. The book includes a free access code to the supplemental website with plans, specifications, problem sets, and a full sample estimate.

Death Waits in the Dark

Blackstone Publishing It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

The Aussie Next Door

Entangled: Amara "A sweet, sexy read, featuring a couple that feels both true-to-life and aspirational." Kirkus Review, Starred Review American Angie Donovan has never wanted much. When you grow up getting bounced from foster home to foster home, you learn not to become attached to anything, anyone, or any place. But it only took her two days to fall in love with Australia. With her visa clock ticking, surely she can fall in love with an Australian—and get hitched—in two months. Especially if he's as hot and funny as her next-door neighbor... Jace Walters has never wanted much—except a bathroom he didn't have to share. The last cookie all to himself. And solitude. But when you grow up in a family of seven, you can kiss those things goodbye. He's finally living alone and working on his syndicated comic strip in privacy. Sure, his American neighbor is distractingly sexy and annoyingly nosy, but she'll be gone in a few months... Except now she's determined to find her perfect match by checking out every eligible male in the town, and her choices are even more distracting. So why does it suddenly feel like he—and his obnoxious tight-knit family, and even these two wayward dogs—could be exactly what she needs? Each book in the Patterson's Bluff series is *STANDALONE*: * The Aussie Next Door * Her Aussie Holiday

Anvil Publishing, Inc.

The Bad Boy Series Collection

Books 1 - 4

Acadian Publishing Limited The Bad Boy Series Collection I've been in love with Hunter Saint my entire life. He was my first love and the one I could never forget. Then Fate intervened and we became enemies. Now, I must go to Hunter on my hands and knees to beg him to save my brother's life. I'll pay any price to save him. I'll do anything Hunter wants. Anything... The Bad Boy Series by S. E. Lund's is a sexy new novella series, featuring a bad boy with a heart of gold and a heroine who can't get him out of her life or her heart. When Fate forces them back together again, can they deny what has long simmered between them?

One Hot Holiday

Hocus Pocus Publishing, Inc. She's running for her life. He's the safe haven she never expected to find. The holiday season is about to get HOT. Hiding out for the holiday season in the heart of the South? Not something that Haley Quick ever expected to have on her to-do list but then...she never expected her ex to want her dead, either. Turns out, life is full of surprises. Time to deal. Haley has ditched New York for a crazy little dot on the map known as Point Hope, Alabama. It's a town gone extra crazy for the holidays, and Haley is sticking out like a sore thumb with her very much Grinch-self. But enter sexy sheriff Spencer Lane...Tall, muscled, and made with an extra dose of sex appeal, he is exactly the kind of man that Haley should be avoiding. He's charming, he looks way too good in a Santa hat, and, oh, yes, he's her new landlord. The hits just keep coming. She can't afford to let Spencer learn all of her secrets, a tough job since she is living with the man. No sex, though. It's purely a business relationship. Except...the holidays in the South sure do get HOT. Or maybe that's just sexy Spencer. Usually, Haley falls for the bad guy. It's the whole reason she's running for her life. She can't help but wonder...What would it be like to fall for a man like Spencer? He just got his Christmas wish. Sheriff Spencer Lane can't believe his luck. The most beautiful, fascinating woman he's ever seen has just dropped into his life like a gift from, well, the big guy in red. Only the problem is that Haley seems to think Spencer is some by-the-book, nice guy. Probably because of the badge. And if she wants him to be the hero, that's a role that he's happy to play for her. But the truth is, Spencer has plenty of darkness inside, too. An ex Navy SEAL, he knows how to get sh—um, stuff done. He also knows how to be very, very naughty. When danger threatens his Haley, all bets are off. No one is going to hurt her. No one is going to threaten her. Not in his town. Not on his watch. The nice guy will show Haley just how bad he can be. Fake snow, a parade of wild elves, and a stalker ex don't make for the merriest of times, but in Point Hope, anything can happen—and it usually does. Ready for a steamy story that will get you in the ho-ho-ho spirit? Settle back, curl up with Spencer, and have yourself a jolly old time.

The Descendants Complete Series (Books 1, 1.5, 2, 3)

L.D. Hall A Discovery of Witches meets Twilight in this mesmerizing paranormal romance... Naomi Feldman has never understood the strange energy that hums beneath her senses. But when she comes across an ancient artifact that seems to beckon to her, she may finally find the answers she's been seeking. Alaric, a centuries-old vampire, lives a solitary life by choice. When he's assigned to protect Naomi, long dormant emotions stir to life. Pursued by a dangerous enemy and battling their growing attraction, Naomi and Alaric follow the mystery of the artifact from the museums of Athens, the streets of London, toward a confrontation that will decide the fate of two worlds... Fans of Charlaine Harris, Deborah Harkness, and Karen Marie Moning will love the Descendants series, where urban fantasy and paranormal romance collide. For a limited time, grab your copy of this series bundle deal at a discount compared to purchasing the individual books.

Knocked Up

What happens when you're left with more than just the memories of an incredible night together? Settle in and get your fill of sixteen NEW secret baby stories where hidden secrets are revealed and couples that were once separated are reunited. Each story guarantees cuteness, sexiness, lots of love, and of course a HEA. This collection includes stories from USA Today bestselling authors Nicole Blanchard, Kaylee Ryan, Jenika Snow, Marley Valentine, and K Webster. Nikki Ash, Lacey Black, Jacob Chance, Kelsey Clayton, J.D. Hollyfield, Rebecca Jenschak, CoraLee June, Heidi McLaughlin, Lauren Runow, Micaela Smeltzer, and Misty Walker.

To My Arrogant Boss

J.S. Cooper To Mr. Tate Howard, You are quite possibly the most infuriating, annoying and grumpy man I've ever met in my life. I know you think that you're God's gift to women, but I have a secret to let you in on: you're not. You're God's gift to yourself. Get over your wanna-be cool surfer self and grow up. I thought it was time that someone addressed your big head and told you straight to your face that you're not all that. Just because you have an Ivy league education doesn't mean you're the smartest man in the world. In fact, I'm not even sure if you would have gotten in if you didn't have rich parents. Yes, I went there. Every woman doesn't want to sleep with you and I'm sure you're not even good in bed. And I'm someone that would know. From, Your Secret Not Admirer
