1992 Post Report

Caribbean Region

Access, Quality, and Efficiency in Education

Washington, DC : International Bank for Reconstruction and Development *This study explores education and training systems of the Caribbean nations that are members both of The World Bank and the Caribbean Group for Cooperation in Economic Development (CGCED). The study does not attempt to provide a detailed blueprint for each country or set of institutions or present new research findings. Overall, the emphasis is to highlight the commonality of education sector issues across the region and to discuss successful ongoing initiatives, as well as outline promising new policy and investment options meriting further exploration to enhance access to and the quality and efficiency of education. The "Caribbean Education Action Plan" summarizes the options. It is hoped that the report will catalyze further debate among governments and within the international development community on an appropriate human resources development strategy for the Caribbean for the 1990s and beyond. Three principal areas for further work include: (1) educational measurement and research to guide policy development; (2) the supply and distribution of educational materials; and (3) expansion of continuing education opportunities for all age groups. The report includes a foreword, an executive summary and recommendations, the proposed Caribbean education action plan, three annexes, a statistical appendix, a listing of 135 references and 47 other works consulted, and a map of the Caribbean region. (SG).*

Monitoring Educational Performance in the Caribbean

World Bank Publications *This study represents a first attempt of providing a comprehensive quantification of educational outcomes in the Caribbean region. Its main objectives are: (a) to define a set of operationally relevant education indicators (b) to provide a database of comparable education indicators in Caribbean countries where data is available, namely Belize, Dominica, Dominican Republic, Grenada, Guyana, Jamaica, St Kitts and Nevis, St Lucia, St Vincent and the Grenadines and Trinidad and Tobago and (c) to propose methods on how the common set of indicators can be used for analyses of the education sectors. This exercise is all the more important within the framework of the current Education For All (EFA) and Millenium Development Goals (MDGs) initiatives which require the identification and monitoring of relevant indicators to establish where the countries stand in relation to the target of universal primary education. After a systematic review of educational indicators in coverage, efficiency and quality which leads to specific recommendations on the type of indicator relevant to operational diagnostics of the education sectors, the study provides a detailed review of the Caribbean status in producing education indicators and demonstrates how a new database can be used to depict where the education sectors stand. Building on these methods and findings, its final section presents a set of specific recommendations to the Caribbean countries on how to improve the diagnostics of their education sectors.*

Greenwood Publishing Group *This book provides thorough coverage of cross-national crime data, theories, research, methods, and explanatory data across space and time.*

Dictionary of the English/Creole of Trinidad & Tobago

On Historical Principles

McGill-Queen's Press - MQUP *Using the historical principles of the Oxford English Dictionary, Lise Winer presents the first scholarly dictionary of this unique language. The dictionary comprises over 12,200 entries, including over 4500 for flora and fauna alone, with numerous cross-references. Entries include definitions, alternative spellings, pronunciations, etymologies, grammatical information, and illustrative citations of usage. Winer draws from a wide range of sources - newspapers, literature, scientific reports, sound recordings of songs and interviews, spoken language - to provide a wealth and depth of language, clearly situated within a historical, cultural, and social context.*

Fostering Effective Student Communication in Online Graduate Courses

IGI Global Keeping students engaged and receptive to learning can, at times, be a challenge. However, by implementing new pedagogical methods and tools, instructors can strengthen the drive to learn among their students. *Fostering Effective Student Communication in Online Graduate Courses* is a pivotal reference source for the latest research findings on the novel techniques and strategies for nurturing communication between students and faculty in virtual learning environments. Featuring extensive coverage on relevant areas such as collaborative work, academic advising, and student retention, this publication is an ideal resource for educators across all disciplines and levels, as well as educational administrators.

America, History and Life

Article abstracts and citations. Part A

Provides historical coverage of the United States and Canada from prehistory to the present. Includes information abstracted from over 2,000 journals published worldwide.

Nuclear Science Abstracts

NSA is a comprehensive collection of international nuclear science and technology literature for the period 1948 through 1976, pre-dating the prestigious INIS database, which began in 1970. NSA existed as a printed product (Volumes 1-33) initially, created by DOE's predecessor, the U.S. Atomic Energy Commission (AEC). NSA includes citations to scientific and technical reports from the AEC, the U.S. Energy Research and Development Administration and its contractors, plus other agencies and international organizations, universities, and industrial and research organizations. References to books, conference proceedings, papers, patents, dissertations, engineering drawings, and journal articles from worldwide sources are also included. Abstracts and full text are provided if available.

Global Trends 2040

A More Contested World

Cosimo Reports "The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.
