Justice Not Silence

Churches facing sexual and gender-based violence

AFRICAN SUN MeDIA The editors of this volume highlight the fact that although the Church often stands up for other public issues such as human rights, democratic political rights, economic justice, etc., sexual and gender-based violence do not receive the attention they deserve. There are no theological or cultural arguments that can justify such a position. Sexual and gender-based violence are a scourge that defies our Christian understanding of human dignity ? and challenges the Church in all its formations to respond. ÿAlthough most of the case studies are from Zimbabwe, they challenge us regardless of which country we are living in ? or the tradition of our specific denomination.ÿ In the context of Southern Africa, where the HIV and AIDS burden is among the highest in the world, sexual and gender-based violence are a major contributor to the spread of the disease. This will only change if the Church challenges this practice as part of its educational and public work ? in theological institutions, in congregations, but also in its pastoral work within families.ÿ

Silent Scourge : Children, Pollution, and Why Scientists Disagree

Children, Pollution, and Why Scientists Disagree

Oxford University Press, USA How does pollution impact our daily quality of life? What are the effects of pollution on children's development? Why do industry and environmental experts disagree about what levels of pollutants are safe? In this clearly written book, Moore traces the debates around five key pollutants--lead, mercury, noise, pesticides, and dioxins and PCBs--and provides an overview of the history of each pollutant, basic research findings, and the scientific and regulatory controversies surrounding it. Moore focuses, in particular, on the impact of these pollutants on children's psychological development--- their intellectual functioning, behavior, and emotional states. Only by understanding the impact of pollution can we prevent future negative effects on quality of life and even pollution disasters from occurring.

Code of Silence

Sexual Misconduct by Federal Judges, the Secret System That Protects Them, and the Women Who Blew the Whistle

Beacon Press Winner of the 2022 Texas Institute of Letters Carr P. Collins Award for Best Book of Nonfiction In the age of #MeToo, learn how brave whistleblowers have dared to lift the federal court's veil of secrecy to expose powerful judges who appear to defy laws they have sworn to uphold. Code of Silence tells the story of federal court employee Cathy McBroom, who had to flee her job as a case manager in Galveston, Texas, after enduring years of sexual harassment and assault by her boss—US District Judge Samuel Kent. Following a decade of firsthand reporting at the Houston Chronicle, investigative reporter Lise Olsen charts McBroom's assault and the aftermath, when McBroom was thrust into the role of whistleblower to denounce a federal judge. What Olsen discovered by investigating McBroom's story and other federal judicial misconduct matters nationwide was shocking. With the help of other federal judges, Kent was being protected by a secretive court system that has long tolerated or ignored complaints about corruption, sexism, and sexual misconduct—enabling him to remain in office for years. Other powerful judges accused of judicial misconduct were never investigated and remain in power or retired with full pay, such as US Circuit Judge Alex Kozinski and Kozinski's mentee, Brett Kavanaugh. McBroom's ultimate triumph is a rare story of redemption and victory as Judge Kent became the first and only federal judge to be impeached for sexual misconduct. Olsen also weaves in narratives of other brave women across the country who, at great personal risk, have reported federal judges to reveal how sexual harassment and assault occur elsewhere inside the federal court system. The accounts of the women and their allies who are still fighting for reforms are moving, intimate, and inspiring—including whistleblowers and law professors like Leah Litman, Emily Murphy, and novelist Heidi Bond, who emerged to denounce Kozinski in 2017. A larger group of women—and men—banded together to form a group called Law Clerks for Accountability, which is continuing to push for more reforms to the courts' secretive complaint review system. Code of Silence also reveals the role the press plays in holding systems of power in check. Kent would not have been charged had it not been for Olsen's reporting and the Houston Chronicle's commitment to the story.

One-hundred Days of Silence

America and the Rwanda Genocide

Rowman & Littlefield One Hundred Days of Silence is an important investigation into the 1994 Rwandan genocide and American foreign policy. During one hundred days of spring, eight-hundred thousand Rwandan Tutsis and sympathetic Hutus were slaughtered in one of the most atrocious events of the twentieth century. Drawing on declassified documents and testimony of policy makers, Jared Cohen critically reconstructs the historical account of tacit policy that led to nonintervention. His analysis examines the questions of what the United States knew about the genocide and how the world's most powerful nation turned a blind eye. The study reveals the ease at which an administration can not only fail to intervene but also silence discussion of the crisis. The book argues that despite the extent of the genocide the American government was not motivated to act due to a lack of economic interest. With precision and passion, One Hundred Days of Silence frames the debate surrounding this controversial history.

Worldwide Perspectives on Lesbians, Gays, and Bisexuals [3 volumes]

ABC-CLIO This three-volume set is a rich resource for readers in any discipline interested in understanding the global, regional, and domestic experiences of LGB people. This interdisciplinary set makes a vital contribution to understanding how LGB rights are progressing—and in some cases, regressing—around the globe. The three volumes look at the lived experiences of LGB people from varied perspectives and provide comprehensive coverage on a wide variety of topics ranging from LGB youth and LGB aging to the approaches to LGB people of different religions, including Islam, Judaism, and Christianity. Chapters focus on topics including the ongoing criminalization of same-sex sexual conduct and how international human rights law can be used to improve the lives of LGB people. Particular attention is paid to the rights of bisexuals, a group often ignored in works focusing on sexual orientation. Volume 1 focuses on history, politics, and culture relating to LGB people; Volume 2 focuses on the laws—domestic and international—governing LGB people; and Volume 3 provides snapshots of the current state of LGB experience in countries worldwide, presented by geographical region: Europe, the Americas, Africa, the Middle East and the Asia Pacific region. Includes contributions on the experience of LGB people in countries and regions that are extremely hostile to sexual minorities, including Russia, Iran, the Caribbean, Zimbabwe, and Uganda. Considers a multitude of factors that influence LGB people's quality of life, including, health, education, the economy, technology, religion, and the law. Offers comprehensive domestic, regional, and international accounts, serving as a one-stop source for in-depth, quality global research on LGB people. Addresses the intersectionality of discrimination based on sexuality and race, religion, and age.

Political Silence of Youth in Togo

Mobile Phones, Information and Civic (dis)Engagement

Walter de Gruyter GmbH & Co KG This book paints an image of sociality in duress, describing how new Information and Communication Technologies (ICT) bring possible changes in political engagement and civic-ness. The political branch of the field of ICT-for-Development (ICT4D) is firmly convinced that this translates in civic engagement and democratisation. This book questions this conception, by showing that mistrust greatly increases through new ICT in a society where mistrust has been internalised. These processes are examined in the society encountered in Sokodé, the capital of the Central Region of Togo, in the period between 2015 and 2020, when the mobile phone became widespread among young people. This ethnographic research provides a snapshot of the changes brought about by new ICT in the social fabrics and the lives of these young people. The place and period are highly relevant for getting a better understanding of the forms that civic engagement can take, and the roles that new ICT can play in settings of political repression. Togo has been ruled by the same family for over half a century, and Sokodé is one of the rare places of fierce political opposition. However, young people do not persevere in massive street protests like in other countries, even though they appear to have every reason to do so. How can the circumstances and social processes be understood that are leading to this 'political silence', and how do frustration and anger find their way? The link between new ICT and civic engagement has more often been made, but mostly quantitative and volatile, lacking empirical grounding. This book demonstrates that there is indeed a connection between new ICT and social change. Through their phones, young people inform themselves in different ways, and they react differently to social and political changes. Their reflection on politics has also altered, minimal as it may seem. By closely regarding the context and mechanisms by which the trustworthiness of information is valued, this book contributes to the nascent research field of communication and political anthropology.

Animal Farm

Diamond Pocket Books Pvt Ltd George Orwell was a much-respected English novelist, who wrote some of the finest pieces in literary criticism, fiction. Orwell's work is known for its simplicity and wit. He wrote with smartness on subjects such as anti-fascism, democratic socialism etc. His best works include ANIMAL FARM. It's an allegorical novella. It got published in August 1945. The fiction based on Farm animals, the author has named them too. Such as Major (a majestic-looking pig), 3-dogs (Bluebell, Jessie, and Pincher), many hens, pigeons, ducklings, sheeps and cows. Two horses, Boxer and Clover. Amongst them, Major is their leader. He wanted to speak on the nature of life on this earth and How any animal is now living. The author has nicely elaborated through these Characters about the animals' misery and slavery. Animals complain that despite their hard labour, why then do they continue in the miserable condition? They also complain about human beings that they use to steal nearly the whole of their produce. Their main enemy is - Man. So, remove Man from the scene and the root cause of hunger and overwork will be abolished for ever. The book narrates about the agony of ill-treated farm animals. Then what decision they take and how this Animal Farm born, everything has become very interesting. The ultimate satire on fascism. A must-read book. A Wise, Compassionate, and Illuminating Fable for our Times THE NEW YORK TIMES Orwell's Satire is Amply Broad, Cleverly Conceived, and Delightfully Written SAN FRANCISCO CHRONICLE Absolutely First-Rate... Comparable to Voltaire and Swift THE NEW YORKER

Pass Cen!

Elsevier Health Sciences Prepare for success on the Certification for Emergency Nurses examination! Not only does Pass CEN! review all the content covered in the current exam blueprint, it includes fun yet challenging learning activities, realistic practice questions, and comprehensive practice examinations. A concise outline format and numerous illustrations make the material easy to read, understand, and remember. Written by a team of expert nursing instructors led by Robin Donohoe Dennison, this unique guide also reviews anatomy and physiology for each core body system. The accompanying online Evolve Exam Review course includes practice exams that simulate the experience of taking the actual exam. This is the all-in-one study tool you can't do without! An easy-to-follow outline format quickly and clearly delineates what you must know to pass the CEN exam. Content follows the most current CEN blueprint and eliminates extraneous information that is not likely to be tested. Learning activities provide fun and stimulating ways to learn critical concepts, such as matching questions, essays, table completion exercises, and crossword puzzles. Anatomy and physiology reviews cover each core body system Case Related Learning activities include questions on clinical reasoning and decision-making. The online Evolve Exam Review course includes: Approximately 700 practice questions with answers, rationales, test-taking strategies, and suggested references Randomized questions to let you create up to 150 different practice exams Self-assessment quizzes that allow you to select 10 to 120 questions by body system, with immediate feedback for answers

Rhetorical Listening in Action

A Concept-Tactic Approach

Parlor Press LLC RHETORICAL LISTENING IN ACTION: A CONCEPT-TACTIC APPROACH aims to cultivate writers who can listen across differences in preparation for thinking critically, communicating, and acting across those differences. Krista Ratcliffe and Kyle Jensen offer a rhetorical education centered on rhetorical listening as it inflects other rhetorical concepts, such as agency, rhetorical situation, identification, myth, and rhetorical devices. RHETORICAL LISTENING IN ACTION spans classical and contemporary rhetoric, reading key concepts through rhetorical listening and supported by scholarship in rhetoric and composition, feminist studies, critical race studies, and intersectionality theory. The book expands on how we think about and negotiate difference and the factors that mediate social relations and competing cultural logics. Along the way, Ratcliffe and Jensen associate creative and heuristic tactics with clearly defined concepts to give all writers methods for listening rhetorically to and understanding alternative viewpoints. For writers new to the concepts of rhetorical listening, four appendices show how these concepts illuminate rhetoric, language, discourse, argument, writing processes, research, and style.

God Matters

SCM Press Perhaps human beings are animals, driven by the will to survive and reproduce, perhaps responsibility is a useful fiction and religion is the opium of the masses. Perhaps death is the end, life is ultimately meaningless, brutish and short. Perhaps man is the measure of all things and beauty, truth and justice are open to interpretation. Or, perhaps not. God matters. The choice over whether and what to believe is inescapable because it determines how we live our lives. Nothing matters more. This book encourages and enables students and general readers to ask fundamental questions about the nature and meaning of human life in an open, engaging but academically rigorous way. Centuries of scholarship in the Philosophy of Religion, from Jewish and Muslim as well as Christian traditions, are put in context and critically evaluated. Examples from art, film, and literature show the contemporary relevance of debates which have raged throughout human history. www.what-matters.org provides recommendations for further reading, a rich anthology of primary texts, questions for discussion and related activities.

Emerging Trends in Expert Applications and Security

Proceedings of ICETEAS 2018

Springer The book covers current developments in the field of expert applications and security, which employ advances of next-generation communication and computational technology to shape real-world applications. It gathers selected research papers presented at the ICETEAS 2018 conference, which was held at Jaipur Engineering College and Research Centre, Jaipur, India, on February 17-18, 2018. Key topics covered include expert applications and artificial intelligence; information and application security; advanced computing; multimedia applications in forensics, security and intelligence; and advances in web technologies; implementation and security issues.

Disrupting Threat Finances

Utilization of Financial Information to Disrupt Terrorist Organizations in the Twenty-First Century

DIANE Publishing Focuses on the ways the U.S. gov;t. can effectively fight terrorist org. beyond simply trying to deny terrorist access to financing. The U.S. gov;t. can use financial info. as the ¿string¿ that leads to all aspects of terrorist oper. By disrupting access to financial resources and, more importantly, following its trail, the U.S. gov;t. through coordinated intelligence, investigations, prosecutions, sanctions, and diplomacy within the Interagency, private sector, allies, and partner nations, can enhance U.S. security, disrupt terrorist operations and mitigate terrorist effects on U.S. strategic interests. The disruption of terrorist financing is an effective way to enhance U.S. security, disrupt terrorist operations, and mitigate terrorist effects on U.S. strategic interests. Illustrations.

What Does Theology Do, Actually?

Vol. 1: Observing Theology and the Transcultural

Evangelische Verlagsanstalt »What Does Theology Do, Actually? Observing Theology and the Transcultural« is to be the first in a series of 5 books, each presented under the same question - »What Does Theology Do, Actually?«, with vols. 2-5 focusing on one of the theological subdisciplines. This first volume proceeds from the observation of a need for a highly inflected »trans-cultural«, and not simply »inter-cultural«, set of perspectives in theological work and training. The revolution brought about across the humanities disciplines through globalization and the recognition of »multiple modernities« has introduced a diversity of overlapping cultural content and multiple cultural and religious belongings not only into academic work in the humanities and social sciences, but into the

[Christian churches as well.](#)

Alice in wonderland

Surviving Mexico

Resistance and Resilience among Journalists in the Twenty-first Century

[University of Texas Press](#) Since 2000, more than 150 journalists have been killed in Mexico. Today the country is one of the most dangerous in the world in which to be a reporter. In *Surviving Mexico*, Celeste González de Bustamante and Jeannine E. Relly examine the networks of political power, business interests, and organized crime that threaten and attack Mexican journalists, who forge ahead despite the risks. Amid the crackdown on drug cartels, overall violence in Mexico has increased, and journalists covering the conflict have grown more vulnerable. But it is not just criminal groups that want reporters out of the way. Government forces also attack journalists in order to shield corrupt authorities and the very criminals they are supposed to be fighting. Meanwhile some news organizations, enriched by their ties to corrupt government officials and criminal groups, fail to support their employees. In some cases, journalists must wait for a “green light” to publish not from their editors but from organized crime groups. Despite seemingly insurmountable constraints, journalists have turned to one another and to their communities to resist pressures and create their own networks of resilience. Drawing on a decade of rigorous research in Mexico, González de Bustamante and Relly explain how journalists have become their own activists and how they hold those in power accountable.

From Silence to Voice

What Nurses Know and Must Communicate to the Public

[Cornell University Press](#) Praise for previous editions— “The book is written by two journalists who have taken on the nursing profession more or less the way we take on patients with a life-threatening condition that is curable but requires both intensive and long-term care. The diagnosis, according to Buresh and Gordon, is silence. By being silent, we miss the opportunity to show ourselves as consequential in the delivery of healthcare. The remedy for silence, according to the authors, is voice—our voices raised in conversation first and foremost with our families, friends, and patients, and also with the general public.”—*Nursing Spectrum* “This is an invaluable book for all nurses, especially those who are proud of being nurses and who have always wanted to make others understand our passion.”—*Nursing Standard* To get the resources and respect they need, nurses have long had to be advocates for themselves and their profession, not just for their patients. For a decade, *From Silence to Voice* has provided nurses with the tools they need to explain the breath and complexity of nursing work. Bernice Buresh and Suzanne Gordon have helped nurses around the world speak up and convey to the public that nursing is more than dedication and caring—it demands specialized knowledge, expertise across a range of medical technologies, and decision-making about life-and-death issues. “Nurses and nursing organizations,” they write, “must go out and tell the public what nurses really do so that patients can actually get the benefit of their expert care.” The comprehensively revised and updated third edition of *From Silence to Voice* will help nurses construct messages using a range of traditional and new social media that accurately describe the true nature of their work. Because nurses are busy, the communication techniques in this book are designed to integrate naturally into nurses’ everyday lives and to complement nurses’ work with patients and families.

The Price of Silence

A Mom's Perspective on Mental Illness

[Penguin](#) Liza Long, the author of “I Am Adam Lanza’s Mother”—as seen in the HBO® documentary *A Dangerous Son*—speaks out about mental illness. Like most of the nation, Liza Long spent December 14, 2012, mourning the victims of the Newtown shooting. As the mother of a child with a mental illness, however, she also wondered: “What if my son does that someday?” The emotional response she posted on her blog went viral, putting Long at the center of a passionate controversy. Now, she takes the next step. Powerful and shocking, *The Price of Silence* looks at how society stigmatizes mental illness—including in children—and the devastating societal cost. In the wake of repeated acts of mass violence, Long points the way forward.

Video Surveillance

Practices and Policies in Europe

IOS Press Video surveillance systems, often referred to as closed-circuit television (CCTV), have become a defining feature of modern life. Their widespread use by many different agencies for a range of purposes is no longer surprising, and is generally accepted in most European countries. Although broad academic interest accompanied the proliferation of CCTV in the mid to late 1990s, issues of governance and public policy are rarely explicitly addressed by social scientists and many of the concerns raised during the debate which followed the video surveillance revolution remain unanswered, and are as pertinent today as they were then. This book brings into focus the ways in which the implementation of cameras and systems, and their operation and technical features, are the product of decisions and policies made in a variety of contexts and by a variety of authorities and interested parties. It examines the cultural context in which cameras are deployed and explores how this context can shape their diffusion and use. The book places particular emphasis on studies of video surveillance in different national, institutional, cultural and linguistic settings. The book is divided into two parts. The chapters in part one are theoretically informed contributions from a variety of academic disciplines. Part two consists of five case studies, which are less theoretical and more descriptive, but which offer important insights for the governance of video surveillance cameras. Providing a fascinating study of the wider implications of video surveillance and its pervasive use, this book will be of interest to all those interested in how this phenomenon affects all of us in society today.

Silence Your Mind

Hachette UK Can't sleep because your thoughts won't switch off? Ever walked into a room to get something, only to realise you've forgotten what you were looking for? Does a constant stream of unnecessary chatter run through your head? Do you wish you could stop that mental noise whenever you wanted to? Australian bestseller SILENCE YOUR MIND offers a completely new approach to meditation - the experience of mental silence - that will help recharge your mental batteries and leave you feeling more positive, dynamic and wholly engaged with the world. It clearly explains how just 10 to 15 minutes of simple meditation practice each day can turn off that unnecessary mental chatter, thereby awakening your hidden abilities in work, sport, studies and creative pursuits. Scientifically based, this is fundamentally different from any meditation book you may have read before. Australian Dr Ramesh Manocha is leading the world in research into the positive impacts of the mental silence experience. His findings show that authentic meditation is easy, enjoyable, health-giving and life-changing. SILENCE YOUR MIND has sold over 10 000 copies in Australia. Royalties from its sale are directed to further research and educational activities in the field of meditation.

African Goddess Initiation

Sacred Rituals for Self-Love, Prosperity, and Joy

Hay House, Inc A sacred feminine initiation of self-love and soul care rituals, tools, and exercises. Spiritual teacher, intuitive coach, and award-winning author, Abiola Abrams invites you to activate African goddess magic to transmute your fears and limiting beliefs, so that you can create more happiness, abundance, and self-acceptance. Africa is a continent of 54+ countries, and her children are global. There is no one African spiritual tradition. Our ancestors who were trafficked in "The New World" hid the secrets of our orishas, abosom, Iwas, álúsí, and god/desses behind saints, angels, and legendary characters. From South Africa to Egypt, Brazil to Haiti, Guyana to Louisiana, goddess wisdom still empowers us. Writes Abiola, "Spirit told me, "We choose who shows up." And if you are holding this book, then this sacred medicine is meant for you. In this book, you will meet ancient goddesses and divine feminine energy ancestors, legendary queens, and mystical spirits. As you complete their powerful rituals, and ascend through their temples, you will: . Awaken generational healing in the Temple of Ancestors; . Manifest your miracles in the Temple of Conjurers; . Release the struggle in the Temple of Warriors; . Embrace your dark goddess self in the Temple of Shadows; . Heal your primal wounds in the Temple of Lovers; . Liberate your voice in the Temple of Griots; . Open your third eye intuition in the Temple of Queens; and . Surrender, meditate, and rise in the Temple of High Priestesses. Welcome to your goddess circle!

Secrecy and Silence in the Research Process

Feminist Reflections

Routledge Feminist research is informed by a history of breaking silences, of demanding that women's voices be heard, recorded and included in wider intellectual genealogies and histories. This has led to an emphasis on voice and speaking out in the research endeavour. Moments of secrecy and silence are less often addressed. This gives rise to a number of questions. What are the silences, secrets, omissions and and political consequences of such moments? What particular dilemmas and constraints do they represent or entail? What are their implications for research praxis? Are such moments always indicative of voicelessness or powerlessness? Or may they also constitute a productive moment in the research encounter? Contributors to this volume were invited to reflect on these questions. The resulting chapters are a fascinating collection of insights into the research process, making an important contribution to theoretical and empirical debates about epistemology, subjectivity and identity in research. Researchers often face difficult dilemmas about who to represent and how, what to omit and what to include. This book explores such questions in an important and timely collection of essays from international scholars.

Free Speech and Censorship: A Documentary and Reference Guide

ABC-CLIO The United States' collective understanding of First Amendment freedoms was formed by more than 200 years of tensions between the power of word and the power of the government. During that time, major laws and legal decisions defined the circumstances and degree to which personal expression could be rightfully expressed—and rightfully limited. This struggle to define the parameters of free speech continues today. Vibrant and passionate debates about First Amendment limitations once inspired by the dissemination of birth control information now address such issues as kneeling during the national anthem, removing controversial books from public libraries, attempts by the Trump administration to discredit the press, and disseminating false or hateful information through social media platforms. By exploring diverse examples of censorship victories and triumphs of free expression, readers will better understand the enormous impact of First Amendment freedoms on American society.

Proceedings of the United States Naval Institute

Breaking the Silence Habit

A Practical Guide to Uncomfortable Conversations in the #MeToo Workplace

Berrett-Koehler Publishers Top consultant Sarah Beaulieu offers a five-part framework that enables employees to have difficult but necessary conversations about sexual harassment and violence and develop new, better ways of working together. In the wake of the #MeToo movement, employees and leaders are struggling with how to respond to the pervasiveness of sexual harassment. Most approaches simply emphasize knowing and complying with existing laws. But people need more than lists of dos and don'ts—they need to learn how to navigate this uncertain, emotionally charged terrain. Sarah Beaulieu provides a new skills-based approach to addressing sexual harassment prevention and response in the workplace, including using underdeveloped skills like empathy, situational awareness, boundary setting, and intervention. Beaulieu outlines a five-part framework for having conversations about sexual harassment: Know the Facts; Feel Uncomfortable; Get Curious, Not Furious; See the Whole Picture; and Embrace Practical Questions. By embracing these conversations, we can break the cycle of avoidance and silence that makes our lives and workplaces feel volatile and unsafe. Grounded in storytelling, humor, and dozens of real-life scenarios, this book introduces the idea of uncomfortable conversation as the core skill required to enable everyone to bring their full talent and contributions to safe and respectful workplaces.

Disrupting the Culture of Silence

Confronting Gender Inequality and Making Change in Higher Education

Stylus Publishing, LLC  CHOICE 2015 Outstanding Academic Title What do women academics classify as challenging, inequitable, or “hostile” work environments and experiences? How do these vary by women’s race/ethnicity, rank, sexual orientation, or other social locations? How do academic cultures and organizational structures work independently and in tandem to foster or challenge such work climates? What actions can institutions and individuals—independently and collectively—take toward equity in the academy? Despite tremendous progress toward gender equality and equity in institutions of higher education, deep patterns of discrimination against women in the academy persist. From the “chilly climate” to the “old boys’ club,” women academics must navigate structures and cultures that continue to marginalize, penalize, and undermine their success. This book is a “tool kit” for advancing greater gender equality and equity in higher education. It presents the latest research on issues of concern to them, and to anyone interested in a more equitable academy. It documents the challenging, sometimes hostile experiences of women academics through feminist analysis of qualitative and quantitative data, including narratives from women of different races and ethnicities across disciplines, ranks, and university types. The contributors’ research draws upon the experiences of women academics including those with under-examined identities such as lesbian, feminist, married or unmarried, and contingent faculty. And, it offers new perspectives on persistent issues such as family policies, pay and promotion inequalities, and disproportionate service burdens. The editors provide case studies of women who have encountered

antagonistic workplaces, and offer action steps, best practices, and more than 100 online resources for individuals navigating similar situations. Beyond women in academe, this book is for their allies and for administrators interested in changing the climates, cultures, and policies that allow gender inequality to exist on their campuses, and to researchers/scholars investigating these phenomena. It aims to disrupt complacency amongst those who claim that things are “better” or “good enough” and to provide readers with strategies and resources to counter barriers created by culture, climate, or institutional structures.

Tradition and Modernity. Changing the Images of Women in Selected Fiction by Manju Kapur and Anita Nair

Anchor Academic Publishing Along with a range of socio-cultural, political and economic concerns, the focus on ‘self’ has been an inevitable assertion of writers during the last quarter of the twentieth century. Individualistic in tone, the contemporary women novelists are trying to portray realistically the predicament of modern women torn between the forces of tradition and modernity, their sense of frustration and alienation, the emotional and psychological turmoil and complexities of man-women relationships and subtleties of feminine consciousness against the persistent patriarchal social set-up. Cognizant of the evils originating from patriarchy, a positive sense of feminine identity has been recognized by them and the result is the emergence of a new woman in Indian society and its concept in the Indian English novel which has assumed a strident posture in the contemporary writings by women. The shift from submission to assertion, acquiescence to resistance and obedience to rebellion, however, has not been abrupt and effortless. Women are still in the process of negotiation with different limiting factors and thresholds of patriarchy to claim their due space and affirm their identity. The present study is an attempt to critically investigate the negotiations with cultural norms by the women characters in the selected novels by the contemporary novelists, namely Manju Kapur and Anita Nair. Almost all the women characters, major and minor, from the selected novels have been considered and positioned as per their ideological leanings and convictions under two thematic chapters namely “Women in the Clutches of Traditional Norms,” and “Tradition to Modernity.” The major issues around which the novels move - education, marriage, gendered space and mother-daughter relationships - are taken up to put them within the contemporary social conditions in which women characters live. The present book is divided into five chapters to make a critical and analytical study of the select novels of these contemporary Indian women writers in English. The present work is focused on five selected novels: Manju Kapur’s “Difficult Daughters”, “Home” and “Custody” and Anita Nair’s “Ladies Coupé” and “Mistress”.

Patent and Trade Disparities in Developing Countries

Oxford University Press Similarly, almost all of these regimes provide generalized solutions that developing countries tend to denounce as ill-fitting.

Technology for a Quieter America

National Academies Press Exposure to noise at home, at work, while traveling, and during leisure activities is a fact of life for all Americans. At times noise can be loud enough to damage hearing, and at lower levels it can disrupt normal living, affect sleep patterns, affect our ability to concentrate at work, interfere with outdoor recreational activities, and, in some cases, interfere with communications and even cause accidents. Clearly, exposure to excessive noise can affect our quality of life. As the population of the United States and, indeed, the world increases and developing countries become more industrialized, problems of noise are likely to become more pervasive and lower the quality of life for everyone. Efforts to manage noise exposures, to design quieter buildings, products, equipment, and transportation vehicles, and to provide a regulatory environment that facilitates adequate, cost-effective, sustainable noise controls require our immediate attention. Technology for a Quieter America looks at the most commonly identified sources of noise, how they are characterized, and efforts that have been made to reduce noise emissions and experiences. The book also reviews the standards and regulations that govern noise levels and the federal, state, and local agencies that regulate noise for the benefit, safety, and wellness of society at large. In addition, it presents the cost-benefit trade-offs between efforts to mitigate noise and the improvements they achieve, information sources available to the public on the dimensions of noise problems and their mitigation, and the need to educate professionals who can deal with these issues. Noise emissions are an issue in industry, in communities, in buildings, and during leisure activities. As such, Technology for a Quieter America will appeal to a wide range of stakeholders: the engineering community; the public; government at the federal, state, and local levels; private industry; labor unions; and nonprofit organizations. Implementation of the recommendations in Technology for a Quieter America will result in reduction of the noise levels to which Americans are exposed and will improve the ability of American industry to compete in world markets paying increasing attention to the noise emissions of products.

Principles of Evidence in Public International Law as Applied by Investor-State Tribunals

Burden and Standards of Proof

BRILL In Principles of Evidence in Public International Law as Applied by Investor-State Tribunals, Kabir Duggal and Wendy Cai examine evidentiary principles of burden of proof and standard of proof by delving into applications by the International Court of Justice and investor-state tribunals.

Kensuke's Kingdom

Scholastic Inc. When Michael is swept off his family's yacht, he washes up on a desert island, where he struggles to survive--until he finds he is not alone.

Nuclear Governance in the Asia-Pacific

Taylor & Francis The contributors to this book explore approaches to building a framework for nuclear governance in the Asia-Pacific – encompassing nuclear safety, security, and safeguards/non-proliferation. Nuclear governance collaboration offers an avenue for states in the Asia-Pacific to tackle the emerging opportunities for and challenges to the peaceful uses of nuclear energy and the civilian applications of nuclear and radioactive materials. The nature of national actions, bilateral initiatives and regional cooperation in capacity building taking place in East Asia provides a good foundation to pursue a more robust collaborative framework for nuclear governance in the wider Asia-Pacific region. The contributors to this book explore the most critical nuclear safety, security and non-proliferation issues faced by states in the Asia-Pacific and the growing cooperation spearheaded by Southeast Asian countries, China, Japan, South Korea and the United States. This book is a valuable read for academics working on security and strategic studies, international relations, non-traditional security issues as well as nuclear-related issues.

The Nowhere Emporium

Floris Books When the mysterious Nowhere Emporium arrives in Glasgow, orphan Daniel Holmes stumbles upon it quite by accident. Before long, the 'shop from nowhere' -- and its owner, Mr Silver -- draw Daniel into a breathtaking world of magic and enchantment. Recruited as Mr Silver's apprentice, Daniel learns the secrets of the Emporium's vast labyrinth of passageways and rooms -- rooms that contain wonders beyond anything Daniel has ever imagined. But when Mr Silver disappears, and a shadow from the past threatens everything, the Emporium and all its wonders begin to crumble. Can Daniel save his home, and his new friends, before the Nowhere Emporium is destroyed forever? Scottish Children's Book Award winner Ross MacKenzie unleashes a riot of imagination, colour and fantasy in this astonishing adventure, perfect for fans of Philip Pullman, Corneila Funke and Neil Gaiman.
