Institutional Analysis and Praxis The Social Fabric Matrix Approach *Springer Science & Business Media* There has never been a better time for the social fabric matrix. As this book is being published, the idea that unregulated market capitalism leads to the best of all possible worlds has been thoroughly discredited. A series of economic and social problems have come to the forefront of national discussion and policy debates. There is now widespread acceptance that human activity, particularly the consu- tion of nonrenewable energy resources, has contributed to global warming. The lack of oversight of the financial industry encouraged reckless practices that endangered the stability of the entire financial system, prompting bailout efforts based on the fragile interdependence of the financial and economic systems. The shortcomings of our health care system are increasingly evident, including the growing number of uninsured citizens, the difficulties for businesses in offering health insurance, and the effects of health and health care on the ability of individuals and families to maintain a decent standard of living. Perhaps the best illustration of a complex system that cries out for coordinated policy-making is in the critical area of energy, where public and private decisions on energy policy not only have direct effects on consumer costs, but also have effects on global warming, local ecosystems, int- national relations, the health of our citizens, and the sustainability of companies and communities. In short, there is growing recognition of the interdependence of the economic system with the environment and the broader institutions of society. **Handbook of Research on Transmedia Storytelling and Narrative Strategies** *IGI Global* Transmedia storytelling is defined as a process where integral elements of fiction get dispersed systematically across multiple delivery channels to create a unified and coordinated entertainment experience. This process and its narrative models have had an increasing influence on the academic world in addressing both theoretical and practical dimensions of transmedia

storytelling. The Handbook of Research on Transmedia Storytelling and Narrative Strategies is a critical scholarly resource that explores the connections between consumers of media content and information parts that come from multimedia platforms, as well as the concepts of narration and narrative styles. Featuring coverage on a wide range of topics such as augmented reality, digital society, and marketing strategies, this book explores narration as a method of relating to consumers. This book is ideal for advertising professionals, creative directors, academicians, scriptwriters, researchers, and upper-level graduate students seeking current research on narrative marketing strategies. **Handbook of Research on Information Technology Management and Clinical Data Administration in Healthcare** *IGI Global* "This book presents theoretical and empirical research on the value of information technology in healthcare"--Provided by publisher. **Handbook of Research on Effective Project Management through the Integration of Knowledge and Innovation** *IGI Global* The field of project management experiences conceptual, technological, and decision issues when projects are created, implemented, and executed without the needed strategic connection. It is important to improve the connection between knowledge management and project management practices. The Handbook of Research on Effective Project Management through the Integration of Knowledge and Innovation bridges the gap between knowledge management and project management practices by providing both classical and modern views on their relationship. Discussing principles, practices, methods, and real case studies, this book describes the importance of aligning projects with a knowledge-based strategic plan to the benefit of practitioners, professionals, scholars, and researchers in the fields of management and information science. **Open Praxis, Open Access Digital Scholarship In Action** *American Library Association* This landmark collection will help readers understand the open access movement, open data, open educational resources, open knowledge, and the opportunities for an open and transformed world they promise. **Praxis II General Science: Content Knowledge (0435) Exam Secrets Praxis II Test Review for the Praxis II: Subject Assessments** *Mometrix Media LLC* ***Includes Practice Test Questions*** Praxis II General Science: Content Knowledge (0435 and 5435) Exam Secrets helps you ace the Praxis II: Subject Assessments, without weeks and months of endless studying. Culture as Praxis *SAGE Publications Limited* In this major work, Zygmunt Bauman classifies the meanings of culture. For Bauman, culture is a living, changing aspect of human interaction which must be understood and studied as a universal of human life. At the heart of his approach is the proposition that culture is inherently ambivalent.

Nudge and the Law A European Perspective Bloomsbury Publishing Behavioural sciences help refine our understanding of human decision-making. Their insights are immensely relevant for policy-making since public intervention works much better when it targets real people rather than imaginary beings assumed to be perfectly rational. Increasingly, governments around the world are keen to rely on those insights for reshaping public interventions in a wide range of policy areas such as energy, health, financial services and data protection. When policy-making meets behavioural sciences, effective and low-cost regulations can emerge in the form of default rules, smart disclosure and simplification requirements. While behaviourally-informed intervention has a huge potential for policymaking, it also attracts legitimacy and practicability concerns. Nudge and the Law takes a European perspective on those issues and explores the legal implications of the emergent phenomenon of behavioural regulation by focusing on the challenges and opportunities it may offer to EU policy-making and beyond.

Critical Pedagogies of Consumption Living and Learning in the Shadow of the "Shopocalypse" Routledge Distinguished international scholars from a wide range of disciplines explore consumption and its relation to learning, identity development, and education. This volume is unique within the literature of education in its examination of educational sites - both formal and informal - where

learners and teachers are resisting consumerism and enacting a critical pedagogy of consumption. **Knowledge Risk Management From Theory to Praxis** *Springer Nature* This book provides an in-depth introduction to knowledge risk management (KRM) as well as methods, tools and cases to address knowledge risk management issues in both the public and private sector. It focuses on the integration of knowledge risks into the holistic risk management of organizations. In addition, this book is accompanied by an external website that includes additional checklists, videos and company cases. The combination of a sound theoretical framework along with practical instruments, tools and ancillary materials makes this book a unique, interactive book for professionals, managers, and executives as well as students, academics and policy makers. **WHO Guidelines for Indoor Air Quality Selected Pollutants** *World Health Organization* This book presents WHO guidelines for the protection of public health from risks due to a number of chemicals commonly present in indoor air. The substances considered in this review, i.e. benzene, carbon monoxide, formaldehyde, naphthalene, nitrogen dioxide, polycyclic aromatic hydrocarbons (especially benzo[a]pyrene), radon, trichloroethylene and tetrachloroethylene, have indoor sources, are known in respect of their hazardousness to health and are often found indoors in concentrations of health concern. The guidelines are targeted at public health professionals involved in preventing health risks of environmental exposures, as well as specialists and authorities involved in the design and use of buildings, indoor materials and products. They provide a scientific basis for legally enforceable standards. **Better Doctors, Better Patients, Better Decisions Envisioning Health Care 2020** *MIT Press* How eliminating “risk illiteracy” among doctors and patients will lead to better health care decision making. Contrary to popular opinion, one of the main problems in providing uniformly excellent health care is not lack of money but lack of knowledge—on the part of both doctors and patients. The studies in this book show that many doctors and most patients do not understand the available medical evidence. Both patients and doctors are “risk illiterate”—frequently unable to tell the difference between actual risk and relative risk. Further, unwarranted disparity in treatment decisions is the rule rather than the exception in the United States and Europe. All of this contributes to much wasted spending in health care. The contributors to *Better Doctors, Better Patients, Better Decisions* investigate the roots of the problem, from the emphasis in medical research on technology and blockbuster drugs to the lack of education for both doctors and patients. They call for a new, more enlightened health care, with better medical education, journals that report study outcomes completely and transparently, and patients in control of their personal medical records, not afraid of statistics but able to use them to make informed decisions about their treatments. **Cities for Sale Municipalities as Public Relations and Marketing Firms** *SUNY Press* Examines how US cities have adopted the tactics of public relations and marketing firms to “brand” themselves. **Publicidad contagiosa Claves creativas del marketing viral** *Editorial UOC* El marketing viral se inoculó en el panorama profesional publicitario como una vacuna eficaz económica contra la supuesta inmunidad de las audiencias a los mensajes comerciales. Conseguir que fueran los consumidores quienes transmitieran los anuncios espontáneamente entre sus redes sociales se consideró la panacea en un

mercado comunicativo sobresaturado. Sin embargo, la publicidad boca a oreja, basada en recomendaciones, ya conseguía el mismo objetivo desde tiempos ancestrales. Fueron las tecnologías de la información y de la comunicación (TIC) las que posibilitaron el salto exponencial hacia la publicidad viral y, en consecuencia, un cambio de magnitudes sin precedentes: los contenidos comerciales pasaban a ser compartibles a escala planetaria, a la velocidad de un clic. Este libro se centra en detectar las claves creativas comunes que detonaron el contagio de 651 vídeos publicitarios entre los usuarios de las redes sociales digitales. A partir de un constructo analítico formado por drivers creativos, cepas virales y la variable ambigüedad, se propone la fórmula $V = cc(d+c) + a$, como base inspiradora para crear publicidad altamente contagiosa.

Handbook of Feminist Research Theory and Praxis SAGE The second edition of the Handbook of Feminist Research: Theory and Praxis, presents both a theoretical and practical approach to conducting social science research on, for, and about women. The Handbook enables readers to develop an understanding of feminist research by introducing a range of feminist epistemologies, methodologies, and methods that have had a significant impact on feminist research practice and women's studies scholarship. The Handbook continues to provide a set of clearly defined research concepts that are devoid of as much technical language as possible. It continues to engage readers with cutting edge debates in the field as well as the practical applications and issues for those whose research affects social policy and social change. It also expands on the wealth of interdisciplinary understanding of feminist research praxis that is grounded in a tight link between epistemology, methodology and method. The second edition of this Handbook will provide researchers with the tools for excavating subjugated knowledge on women's lives and the lives of other marginalized groups with the goals of empowerment and social change.

Oppressed Unitary Caring Science Philosophy and Praxis of Nursing

University Press of Colorado Unitary Caring Science: The Philosophy and Praxis of Nursing takes a profound look at conscious, intentional, reverential caring-healing as sacred practice/praxis and as a necessary turn for survival. Jean Watson posits Unitary Caring Science for the evolved Caritas-conscious practitioner and scholar. A detailed historical discussion of the evolution from Caring Science toward Unitary Caring Science reflects the maturing of the discipline, locating the nursing phenomena of wholeness within the unitary field paradigm. An exploration of praxis as informed moral practice results in an expanded development of the ten Caritas processes, resulting in a comprehensive value-guide to critical Caritas literacy and ontological Caritas praxis. Watson writes for the Caritas Conscious Nurse™ or the Caritas Conscious Scholar/Practitioner/Educator on the journey toward the deeper caring-healing dimensions of life. Unitary Caring Science offers a personal-professional path of authenticity, bringing universals of Love, Energy, Spirit, Infinity of Purpose, and Meaning back into nurses lives and their life's work. Unitary Caring Science serves as a continuing, evolving message to the next generation of nurse scholars and healing-health practitioners committed to a praxis informed by mature disciplinary consciousness. Each book comes with a set of Caritas cards, and individual customers will also receive a secure link to select copyrighted teaching videos and meditations on www.watsoncaringscience.org. **Midwifery Preparation**
