Tulsa, 1921

Reporting a Massacre

[University of Oklahoma Press](#) In 1921 Tulsa's Greenwood District, known then as the nation's "Black Wall Street," was one of the most prosperous African American communities in the United States. But on May 31 of that year, a white mob, inflamed by rumors that a young black man had attempted to rape a white teenage girl, invaded Greenwood. By the end of the following day, thousands of homes and businesses lay in ashes, and perhaps as many as three hundred people were dead. Tulsa, 1921 shines new light into the shadows that have long been cast over this extraordinary instance of racial violence. With the clarity and descriptive power of a veteran journalist, author Randy Krehbiel digs deep into the events and their aftermath and investigates decades-old questions about the local culture at the root of what one writer has called a white-led pogrom. Krehbiel analyzes local newspaper accounts in an unprecedented effort to gain insight into the minds of contemporary Tulsans. In the process he considers how the Tulsa World, the Tulsa Tribune, and

other publications contributed to the circumstances that led to the disaster and helped solidify enduring white justifications for it. Some historians have dismissed local newspapers as too biased to be of value for an honest account, but by contextualizing their reports, Krehbiel renders Tulsa's papers an invaluable resource, highlighting the influence of news media on our actions in the present and our memories of the past. The Tulsa Massacre was a result of racial animosity and mistrust within a culture of political and economic corruption. In its wake, black Tulsans were denied redress and even the right to rebuild on their own property, yet they ultimately prevailed and even prospered despite systemic racism and the rise during the 1920s of the second Ku Klux Klan. As Krehbiel considers the context and consequences of the violence and devastation, he asks, Has the city—indeed, the nation—exorcised the prejudices that led to this tragedy?

Gender, Rhetoric, and Print Culture in French Renaissance Writing

[Cambridge University Press](#) In this book Floyd Gray explores how the treatment of controversial subjects in French Renaissance writing was affected both by rhetorical conventions and by the commercial requirements of an expanding publishing industry. Focusing on a wide range of discourses on gender issues - misogynist, feminist, autobiographical, homosexual and medical - Gray reveals the extent to which these marginalized texts reflect literary concerns rather than social reality. He then moves from a close analysis of the rhetorical factor in the *Querelle des femmes* to consider ways in which writing, as a textual phenomenon, inscribes its own, sometimes ambiguous, meaning. Gray offers richly detailed readings of writing by Rabelais, Jean Flore, Montaigne, Louise Labé, Pernette du Guillet and Marie de Gournay among others, challenging the inherent anachronism of those forms of criticism that fail to take account of the rhetorical and cultural conditions of the period.

Personality: Classic Theories And Modern Research, 3/E

[Pearson Education India](#)

The Book of L

[Springer Science & Business Media](#) This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Slave Stealers

True Accounts of Slave Rescues: Then and Now

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, Incidents in the Life of a Slave Girl, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.
