ETHICAL HUMAN RIGHTS

American Academic Press This book provides a new plan for the world - an ethical approach to human rights, development and globalization which is firmly based on the Universal Declaration of Human Rights and unlike the prevailing ideologies has no human rights omissions. In author's view, so the considerable majority of State leaderships can avoid accountability many human rights are omitted from international law. But the author considers the UN and States cannot claim the Universal Declaration as its authority when it leaves out so many human rights which he describes as a UN 'hidden' collectivist agenda. On 10 December 2008 at the UN, and hidden behind a global iron curtain, neoliberal absolutism, was created to replace neoliberalism. Both ideologies are found to stem from the UN 'hidden' collectivist agenda and result in the gross neglect of many. In the author's view, neoliberal absolutism resulted in a major rebalance of ideological and economic power from the West to the Rest. In addition, exploitation was permitted by omission under international law resulting in the global financial crisis in 2008. In the author's view, the UN's 'hidden' collectivist agenda constitutes a global crime against humanity and the West should and would be justified in boycotting the UN until it is removed.

SOCIAL JUSTICE AND LEGAL EDUCATION

Cambridge Scholars Publishing Recent years have seen social justice emerge as a powerful driver for work, both in law schools and the legal services sector. However, questions remain about how that term is understood and given meaning within the legal academy and beyond. This edited collection explores the meanings that have emerged and might subsequently be developed, together with a practical exploration of projects that have sought to bring the social justice agenda to life in law schools and in communities around the world. Over the course of eighteen chapters, this volume engages with a range of social justice and legal education themes, including clinical legal education, innocence projects, access to justice, cause lawyering, LGBTQ identities, and sustainability in law schools. In addition, it also explores themes of ethics and values in contemporary legal education in Africa, Australia, North America, and the UK.

STRENGTHENING FORENSIC SCIENCE IN THE UNITED STATES

A PATH FORWARD

National Academies Press Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law

enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

ADOLESCENT NUTRITION

ASSURING THE NEEDS OF EMERGING ADULTS

Springer Nature Adolescents have unique nutritional needs when compared to young children and adults. As youth go through physical, cognitive, and behavioral development, nutrition needs are dynamic and changing. If these needs go undetected and remain unaddressed, the results can derail physical and social maturation and include life-long effects on health. This comprehensive text offers a multidisciplinary perspective on aspects of adolescent nutrition. Using clinical cases, it covers relevant topics related to adolescent health including normal development, chronic health conditions, and complex biopsychosocial dynamics, among others. The first section of the text contains an overview of adolescent nutrition that is further broken down into more specific topics such as developmental nutrition needs, needs of active youth and athletes and media influences on body image. The next section focuses on health disparities such as culturally appropriate care, health equity, international considerations and food insecurity. The following section specifically addresses eating disorders ranging from anorexia and bulimia to binge eating. Finally, the last section covers additional health considerations such as polycystic ovarian syndrome, teen pregnancy, substance use and gender non-conforming youth. Written by experts in the field, this book is a helpful resource for primary care medical providers, registered dietitians/nutritionists (RDN), adolescent medicine specialists, as well as advanced practice nurses, physician assistants, psychologists, licensed social workers, and certified athletic trainers. /div

"PRISONS MAKE US SAFER"

AND 20 OTHER MYTHS ABOUT MASS INCARCERATION

Beacon Press An accessible guide for activists, educators, and all who are interested in understanding how the prison system oppresses communities and harms individuals. The United States incarcerates more of its residents than any other nation. Though home to 5% of the global population, the United States has nearly 25% of the world's prisoners—a total of over 2 million people. This number continues to steadily rise. Over the past 40 years, the number of people behind bars in the United States has increased by 500%. Journalist Victoria Law explains how racism and social control were the catalysts for mass incarceration and have continued to be its driving force: from the post-Civil War laws that states passed to imprison former slaves, to the laws passed under the "War Against Drugs" campaign that disproportionately imprison Black people. She breaks down these complicated issues into four main parts: 1. The rise and cause of mass incarceration 2. Myths about prison 3. Misconceptions about incarcerated people 4. How to end mass incarceration Through carefully conducted research and interviews with incarcerated people, Law identifies the 21 key myths that propel and maintain mass incarceration, including: • The system is broken and we simply need some reforms to fix it • Incarceration is necessary to keep our society safe • Prison is an effective way to get people into drug treatment • Private prison corporations drive mass incarceration "Prisons Make Us Safer" is a necessary guide for all who are interested in learning about the cause and rise of mass incarceration and how we can dismantle it.

CRIMINAL PROCEDURE FOR THE CRIMINAL JUSTICE PROFESSIONAL

MULTI-TIERED SYSTEMS OF SUPPORT

IMPLEMENTATION TOOLS FOR SPEECH-LANGUAGE PATHOLOGISTS IN EDUCATION

Plural Publishing Many school-based speech-language pathologists (SLPs) deal with large caseloads and limited resources. Taking on additional workload by implementing multi-tiered systems of support (MTSS) can seem overwhelming. Multi-Tiered Systems of Support: Implementation Tools for Speech-Language Pathologists in Education offers practical research-based tools that school-based SLPs can use to balance the high demands of their job with supporting general education students. This professional resource provides answers to a range of questions about policy implications, applicability of the framework to a speech-language pathologist's role in schools, and how an SLP can implement MTSS in their practice. Part I breaks down the important concepts of MTSS, while Part II is designed as an SLP MTSS Toolkit, featuring the collective wisdom of practitioners and researchers in the field. Throughout the text, readers will also find real-world snapshots of MTSS in action based on the experiences of actual SLPs in the field. ON TRANSITS AND TRANSITIONS

TRANS MIGRANTS AND U.S. IMMIGRATION LAW

Rutgers University Press Focusing on the intersection of immigration and trans rights, *On Transits and Transitions* examines the processes through which the category of transgender is incorporated into U.S. immigration law and policy. Using mobility as a critical lens, Josephson captures the insecurity and precarity created by U.S. immigration control and related processes of racialization to show how im/mobility conditions citizenship and national belonging for trans migrants in the United States.

MODEL RULES OF PROFESSIONAL CONDUCT

American Bar Association The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

UNDERSTANDING APOCALYPTIC TERRORISM

COUNTERING THE RADICAL MINDSET

Routledge This book explores a cross-cultural worldview called 'radical apocalypticism' that underlies the majority of terrorist movements in the twenty-first century. Although not all apocalypticism is violent, in its extreme forms radical apocalypticism gives rise to terrorists as varied as members of Al Qaeda, Anders Behring Breivik, or Timothy McVeigh. In its secular variations, it also motivates ideological terrorists, such as the eco-terrorists Earth Liberation Front or The Unabomber, Ted Kaczynski. This book provides an original paradigm for distinguishing between peaceful and violent or radical forms of apocalypticism and analyses the history, major transformations, and characteristics of the apocalyptic thought system. Using an inter-disciplinary and cross-cultural approach, this book discusses the mechanisms of radicalization and dynamics of perceived oppression and violence to clarify anew the self-identities, motivations, and goals of a broad swath of terrorists. As conventional counter-terrorism approaches have so far failed to stem the cycle of terrorism, this approach suggests a comprehensive "cultural" method to combating terrorism that addresses the appeal of radical apocalyptic terrorist ideology itself. This book will be of much interest to students of apocalypticism, political violence, terrorism and counter-terrorism, intelligence studies, religious studies, and security studies.

RESEARCH HANDBOOK ON CONTRACT DESIGN

THE POST-ELECTION VIOLENCE IN KENYA

DOMESTIC AND INTERNATIONAL LEGAL RESPONSES

Springer Since the historic Nuremberg Trial of 1945 an international customary law principle has developed that commission of a core crime under international law – war crimes, genocide, crimes against humanity and aggression – should not go unpunished. History shows, that when in Africa such violations occurred, especially as a result of election disputes, national and regional actors, including the African Union, resorted to political rather than legal responses. However, when crimes against humanity were alleged to have been committed in Kenya during the 2007-2008 post-election violence, a promising road map for criminal accountability was agreed upon alongside a political solution. In the spirit of this road map, the author analyzes the post-election violence in Kenya from a legal point of view. He extensively examines legal options for domestic criminal accountability and discusses both retributive (prosecutions) and restorative justice (mainly truth commission) mechanisms, being the main legal responses to the gross violations of human rights. Furthermore, he thoroughly investigates the Kenya situation before the ICC and the legal-cum-political responses to the ICC intervention in Kenya. Practitioners and academics in the field of international criminal law and related disciplines, as well as political sciences and (legal) history will find in this book highly relevant information about alternative legal approaches of the fight against and punishment of crimes against humanity, as defined under the ICC Statute.

DEALING WITH INTERNATIONAL CRIMINALS

Lulu Press, Inc Dealing with international criminals nonviolently yet effectively requires a frame of mind that is simply blocking the criminals and when the State that one lives under is governed through criminality in being a Police State the warfare against the criminals is a continuous process that neither side wins. Or will truth prevail, as the saying goes. So the author over a 24 year period of developing technique that is a form of yoga called satya-advaita yoga or the yoga of truth-accommodation is still in the game with a chance of victory against international criminals who have terrorised him and destroyed his livelihood to a bare minimum. He has not run out of resources yet to continue the battle.

A THEORY OF JUSTICE

Harvard University Press Though the revised edition of A Theory of Justice, published in 1999, is the definitive statement of Rawls's view, so much of the extensive literature on Rawls's theory refers to the first edition. This reissue makes the first edition once again available for scholars and serious students of Rawls's work.

STRATEGIES FOR DECONSTRUCTING RACISM IN THE HEALTH AND HUMAN SERVICES

Oxford University Press Building on the successful outcomes of a five-year initiative undertaken in New York City, Alma Carten, Alan Siskind, and Mary Pender Greene bring together a national roster of leading practitioners, scholars, and advocates who draw upon extensive practice experiences and original research. Together, they offer a range of strategies with a high potential for creating the critical mass for change that is essential to transforming the nation's health and human services systems. Strategies for Deconstructing Racism in the Health and Human Services closes the gap in the literature examining the role of interpersonal bias, structural racism, and institutional racism that diminish service access and serve as the root cause for the persistence of disparate racial and ethnic outcomes observed in the nation's health and human services systems. The one-of-a-kind text is especially relevant today as population trends are dramatically changing the nation's demographic and cultural landscape, while funds for the health and human services diminish and demands for culturally relevant evidence-based interventions increase. The book is an invaluable resource for service providers and educational institutions that play a central role in the education and preparation of the health and human service workforce.

THE MUELLER REPORT

THE FINAL REPORT OF THE SPECIAL COUNSEL ON RUSSIAN INTERFERENCE IN THE 2016 PRESIDENTIAL ELECTION

Courier Dover Publications This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

SISTER WIVES, SURROGATES AND SEX WORKERS

OUTLAWS BY CHOICE?

Routledge Did she choose that? Or, more normatively, 'Why would she choose that?' This book critiques and offers an alternative to these questions, which have traditionally framed law and policy discussions circulating around controversial genderized practices. It examines the simplicity and incompleteness of choice-based rhetoric and of presumptions that women's conduct is shaped, in an absolute way, either by choice or by coercion. This book develops an analytical framework that aims to discern the meaning and value that women may ascribe to morally ambiguous practices. An analysis of law's approach to polygamy, surrogacy and sex work, particularly in Canada, the United Kingdom and Australia, provides a basis for evaluating the choice-coercion binary and for contemplating alternate modes for assessing, from a law and policy standpoint, the palatability of social practices that appear pernicious to women. Weaving together interdisciplinary research, an innovative analytical framework for assessing choices ostensibly harmful to women, and a critique of the legal rules governing such choices, this book bears relevance for students, scholars, practicing jurists and policymakers seeking a richer understanding of conduct that moves women to the margins of law and society.

MAKING GOVERNMENT WORK

Simon and Schuster Making Government Work: A Conservative Agenda for the States is an updated version of the highly acclaimed 1994 original book. It serves as a modern-day guide for how as Americans we can move the states forward with common sense, conservative public policy initiatives to benefit the Nation as a whole. Making Government Work is a reminder that conservative reforms set the stage for unprecedented prosperity. The book contains a star-studded line up of some of today's most powerful voices, including Nikki Haley, Chuck Norris, Rick Perry, Kathy Ireland, Rick Santorum, Chad Hennings, Jeb Bush, Dr. Art Laffer and Bob Woodson along with many more. "Making Government Work is for state government what the Contract with America was for the federal government. It is a sensible, fact based plan to create a better future through the application of sound principles." -Newt Gingrich, former Speaker of the House The author's proceeds from the book will be donated to organizations that serve America's veterans.
