TWO KINDS OF DERIVED CATEGORIES, KOSZUL DUALITY, AND COMODULE-CONTRAMODULE CORRESPONDENCE

American Mathematical Soc. The aim of this paper is to construct the derived nonhomogeneous Koszul duality. The author considers the derived categories of DG-modules, DG-comodules, and DG-contramodules, the coderived and contraderived categories of CDG-modules, the coderived category of CDG-comodules, and the contraderived category of CDG-contramodules. The equivalence between the latter

two categories (the comodule-contramodule correspondence) is established. Nonhomogeneous Koszul duality or "triviality" (an equivalence between exotic derived categories corresponding to Koszul dual (C)DG-algebra and CDG-coalgebra) is obtained in the conilpotent and nonconilpotent versions. Various A-infinity structures are considered, and a number of model category structures are described. Homogeneous Koszul duality and D - Ω duality are discussed in the appendices.

TYPE II USES OF TECHNOLOGY IN EDUCATION

PROJECTS, CASE STUDIES, AND SOFTWARE APPLICATIONS

Routledge Spark your students to actually want to learn through the creative application of technology! Type II applications in education make it possible to teach in new and more effective ways. Type II Uses of Technology in Education: Projects, Case Studies, and Software Applications clearly explains methods and strategies presently used by teachers to offer students a creative learning experience through the application of technology. Each chapter presents individual examples of how teachers have applied technology in schools and classrooms, illustrating through case studies, projects, and software applications how to effectively spark students' interest and learning. Type II Uses of Technology in Education is the third in a series (Internet Applications of Type II Uses of Technology in Education and Classroom Integration of Type II Uses of Technology in Education, both from Haworth) that

provides a clear view of the advantages—and challenges—involved in the use of technology to enhance and actively involve students in the learning process. The applications described and discussed at length here go beyond the mundane educational functions like grading or presenting drill and practice exercises to explore fresh ways of teaching and learning. Students can become involved and actually want to learn, all through the use of creative technology application. The book also includes tables and figures to enhance understanding of the material. Type II Uses of Technology in Education discusses: data collection, analysis, and communication in student research using pocket PCs and laptops the educational effect of using a learning object as a pedagogical model rather than simply being technological in nature examples of integrated Type II activities e-learning courses using interactive video, WebCT, and on-site discussion groups electronic discussion applications in a laptop university teacher education program challenges facing students using computers to enhance and express the extent of their learning information and communication technology (ICT) integration into schools—using three illustrative case studies forward planning needed to make the difficult change to technological application for learning a case study that used problem-based learning software with at-risk students using technology to reinforce visual learning strategies digital portfolio development as a Type II application interactive computer technology in art instruction on-demand help features for effective interactive learning experience Personal Educational Tools (PETs) Type II Uses of Technology in Education: Projects, Case Studies, and Software Applications provides numerous illustrations of technology learning in action and is perfect for educators and students in programs dealing with information technology in education, and for public school personnel with interests and responsibilities in using information technology in the classroom.

PRODUCT-FOCUSED SOFTWARE PROCESS IMPROVEMENT

18TH INTERNATIONAL CONFERENCE, PROFES 2017, INNSBRUCK, AUSTRIA, NOVEMBER 29-DECEMBER 1, 2017, PROCEEDINGS

Springer This book constitutes the refereed proceedings of the 18th International Conference on Product-Focused Software Process Improvement, PROFES 2017, held in Innsbruck, Austria, in November/December 2017. The 17 revised full papers presented together with 10 short papers, 21 workshop papers, 3 posters and tool demonstrations papers, and 4 tutorials were carefully reviewed and selected from 72 submissions. The papers are organized in topical sections on : Agile software Development; Data science and analytics; Software engineering processes and frameworks; Industry relevant qualitative research; User and value centric approaches; Software startups; Serum; Software testing.

ENCYCLOPEDIA OF INFORMATION SCIENCE AND TECHNOLOGY, THIRD EDITION

IGI Global "This 10-volume compilation of authoritative, research-based articles contributed by thousands of researchers and experts from all over the world

emphasized modern issues and the presentation of potential opportunities, prospective solutions, and future directions in the field of information science and technology"--Provided by publisher.

PRO C# 2010 AND THE .NET 4 PLATFORM

Apress The first edition of this book was released at the 2001 Tech-Ed conference in Atlanta, Georgia. At that time, the .NET platform was still a beta product, and in many ways, so was this book. This is not to say that the early editions of this text did not have merit—after all, the book was a 2002 Jolt Award finalist and it won the 2003 Referenceware Excellence Award. However, over the years that author Andrew Troelsen spent working with the common language runtime (CLR), he gained a much deeper understanding of the .NET platform and the subtleties of the C# programming language, and he feels that this fifth edition of the book is as close to a “final release” as he’s come yet. This new edition has been comprehensively revised and rewritten to make it accurately reflect the C# 4 language specification for the .NET 4 platform. You’ll find new chapters covering the important concepts of dynamic lookups, named and optional arguments, Parallel LINQ (PLINQ), improved COM interop, and variance for generics. If you’re checking out this book for the first time, do understand that it's targeted at experienced software professionals and/or graduate students of computer science (so don't expect three chapters on iteration or decision constructs!). The mission of this text is to provide you with a rock-solid foundation in the C# programming language and the core aspects of the .NET platform (assemblies, remoting, Windows Forms, Web Forms, ADO.NET, XML web services, etc.). Once you digest the information presented in these 25 chapters, you’ll be in a perfect position to apply this knowledge to your specific programming assignments, and you’ll be well equipped to explore the .NET universe on your own terms.

TOWARDS HIGHER CATEGORIES

Springer Science & Business Media *This IMA Volume in Mathematics and its Applications TOWARDS HIGHER CATEGORIES contains expository and research papers based on a highly successful IMA Summer Program on n-Categories: Foundations and Applications. We are grateful to all the participants for making this occasion a very productive and stimulating one. We would like to thank John C. Baez (Department of Mathematics, University of California Riverside) and J. Peter May (Department of Mathematics, University of Chicago) for their superb role as summer program organizers and editors of this volume. We take this opportunity to thank the National Science Foundation for its support of the IMA. Series Editors Fadil Santosa, Director of the IMA Markus Keel, Deputy Director of the IMA v PREFACE DEDICATED TO MAX KELLY, JUNE 5 1930 TO JANUARY 26 2007. This is not a proceedings of the 2004 conference "n-Categories: Foundations and Applications" that we organized and ran at the IMA during the two weeks June 7-18, 2004! We thank all the participants for helping make that a vibrant and inspiring occasion. We also thank the IMA staff for a magnificent job. There has been a great deal of work in higher category theory since then, but we still feel that it is not yet time to offer a volume devoted to the main topic of the conference.*

ORNAMENTAL GEOPHYTES

FROM BASIC SCIENCE TO SUSTAINABLE PRODUCTION

CRC Press Although a great deal of research on ornamental geophytes has been conducted since the beginning of the 1990s, current information has not been comprehensively presented to researchers and horticulturalists. Covering the latest advances in geophytes science, Ornamental Geophytes: From Basic Science to Sustainable Production provides up-to-date reviews on geophyte taxonomy, physiology, genetics, production, plant protection, and postharvest biology. Novel approaches to environmentally-friendly, sustainable production and integrated management have stimulated new research directions, and innovative biochemical and molecular methods have opened new avenues in taxonomy and breeding. In addition to the issues historically associated with traditionally growing countries, the book reviews the development of new production centers in Africa, Asia, and South America. In 20 chapters, this book reflects three main trends in plant science and horticulture: A demand for sustainable and environmentally friendly production Widespread employment of new molecular technologies The globalization of the production and marketing chains Thoroughly modern and in tune with the needs and methods of the geophytes industry, Ornamental Geophytes: From Basic Science to Sustainable Production will benefit not only researchers who have been engaged for years but also new researchers and students who must meet and challenge the existing dogmas. In addition, the information contained in this book is vital to bringing the value of flower bulbs to the worldwide consumers who are the most important and last links in the chain of utilization and profitability of all ornamental products.

ANHYDROUS SODIUM SULFATE FOR INDUSTRIAL USE [AFTER PAYMENT, WRITE TO & GET A FREE-OF-CHARGE, UNPROTECTED TRUE-PDF FROM: SALES@CHINESESTANDARD.NET]

<https://www.chinesestandard.net> [After payment, write to & get a FREE-of-charge, unprotected true-PDF from: Sales@ChineseStandard.net] This standard specifies the classification, requirements, test methods, inspection rules, marking, labeling, packaging, transportation, storage of anhydrous sodium sulfate for industrial use. This standard applies to anhydrous sodium sulfate for industrial use. This product is mainly used as the industrial raw materials such as battery, optical glass, printing-dyeing, synthetic detergent, vinylon, dye, ordinary glass, paper industry, fiber production, inorganic salt, etc.

CHALLENGING PRECONCEPTIONS ABOUT TRADE IN SUSTAINABLE PRODUCTS

TOWARDS WIN-WIN FOR DEVELOPING COUNTRIES

IIED

ARE GENERATIONAL CATEGORIES MEANINGFUL DISTINCTIONS FOR WORKFORCE MANAGEMENT?

National Academies Press Headlines frequently appear that purport to highlight the differences among workers of different generations and explain how employers can manage the wants and needs of each generation. But is each new generation really that different from previous ones? Are there fundamental differences among generations that impact how they act and interact in the workplace? Or are the perceived differences among generations simply an indicator of age-related differences between older and younger workers or a reflection of all people adapting to a changing workplace? Are Generational Categories Meaningful Distinctions for Workforce Management? reviews the state and rigor of the empirical work related to generations and assesses whether generational categories are meaningful in tackling workforce management problems. This report makes recommendations for directions for future research and improvements to employment practices.

SEXUAL VIOLENCE AND EFFECTIVE REDRESS FOR VICTIMS IN POST-CONFLICT SITUATIONS: EMERGING RESEARCH AND OPPORTUNITIES

EMERGING RESEARCH AND OPPORTUNITIES

IGI Global All too often in situations of armed conflicts, rape and other acts of sexual violence are used as military tactics. The use of sexual violence as a strategy of war is distinctively destructive and not only leaves victims with significant psychological scars but also tears apart the fabric of families and affected communities. Sexual Violence and Effective Redress for Victims in Post-Conflict Situations: Emerging Research and Opportunities is a collection of innovative research that analyzes these crimes and their implications for the needs of victims in post-conflict justice processes and how these needs can be effectively addressed in order to support the affected community. To conduct this analysis, it explores the distinct aspects of these crimes to understand the nature and extent of the social challenges and damage facing the victim, and examines the challenges and limitations of international criminal justice in dealing with a wide range of victim needs. While highlighting topics including judicial accountability, victims' rights, and criminal justice, this book is ideally designed for psychologists, therapists, government officials, academicians, policymakers, and researchers.

BASIC CATEGORY THEORY

Cambridge University Press A short introduction ideal for students learning category theory for the first time.

EMBEDDED AND MULTIMEDIA COMPUTING TECHNOLOGY AND SERVICE

EMC 2012

Springer Science & Business Media *The 7th International Conference on Embedded and Multimedia Computing (EMC-12), will be held in Gwangju, Korea on September 6 - 8, 2012. EMC-12 will be the most comprehensive conference focused on the various aspects of advances in Embedded and Multimedia (EM) Computing. EMC-12 will provide an opportunity for academic and industry professionals to discuss the latest issues and progress in the area of EM. In addition, the conference will publish high quality papers which are closely related to the various theories and practical applications in EM. Furthermore, we expect that the conference and its publications will be a trigger for further related research and technology improvements in this important subject. The EMC-12 is the next event, in a series of highly successful International Conference on Embedded and Multimedia Computing, previously held as EMC 2011 (China, Aug. 2011), EMC 2010 (Philippines, Aug. 2010), EM-Com 2009 (Korea, Dec. 2009), UMC-08 (Australia, Oct. 2008), ESO-08(China, Dec. 2008), UMS-08 (Korea, April, 2008), UMS-07(Singapore, Jan. 2007), ESO-07(Taiwan, Dec. 2007), ESO-06(Korea, Aug. 2006).*
