GROUNDWATER ECONOMICS, TWO-VOLUME SET

CRC Press Groundwater is a vitally important resource and as its use increases, the available supply is depleted, creating a ripple effect of impacts on both the environment and the economy that need to be disseminated to a larger audience of students and practitioners. This second edition of Groundwater Economics accomplishes just that. This two-volume set is a comprehensive work focused on the economic values of groundwater resources and use, and it reinforces the need for a strong economic rationale in decision-making relating to that use. This new edition includes a new chapter on sustainability as well as updating all chapters with a focus on sustainability. It thoroughly explains the economic value of groundwater for sustainable use and needs, with practical examples, and includes thirteen new and updated case studies on the economics of groundwater data for decision-making. It also addresses both local and regional groundwater economic choices through a series of applications at an international level. This set, written by a sustainability professional with decades of experience in managing groundwater use and protection, is written for other professionals as well as students, who need to understand and evaluate water resources and manage their use from a variety of sustainable approaches.

BIOPOLITICS OF SWIMMING AND THE RE-ARTICULATION OF ABLE-BODIEDNESS

BODIES OF LATENT POTENTIAL

Springer Nature In this book, Touko Vaahtera explores how “bodies of latent potential,” a cultural attachment to the idea of body as potentiality, carries with it hierarchizing hopes about better bodies. Vaahtera combines disability studies, cultural studies, feminist science studies, transgender studies, post-colonial studies, and Foucauldian genealogy to offer a provocative approach that interrogates capacities and capabilities as obvious frameworks for thinking about the body. Vaahtera explores how swimming skills emerged as a specific biopolitical question in Finland, a country that has been described as the “Land of a Thousand Lakes.” Through a profound cultural analysis focusing both on Finnish cultural texts on swimming as well as manifold more globalized texts, Vaahtera

considers how the legacy of eugenics and colonialism, the hopes of civilization, and homogenizing assumptions about bodies frame how we think about human capacity.

DEVELOPING SWIMMERS

Human Kinetics Talent, skill, and a passion to compete: These are the characteristics that define elite-level swimmers. But as the sport's best coaches know, even the most gifted of athletes won't develop these traits without a plan—one that recognizes talent, develops skills, and nurtures success. *Developing Swimmers* is the only book to offer a comprehensive, long-term plan beginning at an age-group level. Renowned coach Michael Brooks shares the insights, secrets, and strategies that have transformed his athletes and swim teams from novice competitors to distinguished champions. *Developing Swimmers* will show you how to -evaluate and identify talent in even the youngest swimmers; -establish realistic yet challenging short- and long-term goals for your athletes; -assess and refine strokes for greater power and efficiency; -improve starts, turns, and finishes for faster times; -structure positive and productive practices for swimmers and swim teams; and -foster your swimmers' passion, bolster commitment, and instill winning attitudes. From motivation to meet management to race-day tactics, *Developing Swimmers* covers it all. It is the guide every coach should have on the shelf. With *Developing Swimmers*, you will improve the performance of your swimmers—and your entire team.

LORD OF THE FLIES

NEW EDUCATIONAL EDITION

Faber & Faber A plane crashes on a desert island and the only survivors, a group of schoolboys, assemble on the beach and wait to be rescued. By day they inhabit a land of bright fantastic birds and dark blue seas, but at night their dreams are haunted by the image of a terrifying beast. As the boys' delicate sense of order fades, so their childish dreams are transformed into something more primitive, and their behaviour starts to take on a murderous, savage significance. First published in 1954, Lord of the Flies is one of the most celebrated and widely read of modern classics. Now fully revised and updated, this educational edition includes chapter summaries, comprehension questions, discussion points, classroom activities, a biographical profile of Golding, historical context relevant to the novel and an essay on Lord of the Flies by William Golding entitled 'Fable'. Aimed at Key Stage 3 and 4 students, it also includes a section on literary theory for advanced or A-level students. The educational edition encourages original and independent thinking while guiding the student through the text - ideal for use in the classroom and at home.

WHO GUIDELINES FOR INDOOR AIR QUALITY

SELECTED POLLUTANTS

World Health Organization This book presents WHO guidelines for the protection of public health from risks due to a number of chemicals commonly present in indoor air. The substances considered in this review, i.e. benzene, carbon monoxide, formaldehyde, naphthalene, nitrogen dioxide, polycyclic aromatic hydrocarbons (especially benzo[a]pyrene), radon, trichloroethylene and tetrachloroethylene, have indoor sources, are known in respect of their hazardousness to health and are often found indoors in concentrations of health concern. The guidelines are targeted at public health professionals involved in preventing health risks of environmental exposures, as well as specialists and authorities involved in the design and use of buildings, indoor materials and products. They provide a scientific basis for legally enforceable standards.

HUMAN RIGHTS AND CLIMATE CHANGE

A REVIEW OF THE INTERNATIONAL LEGAL DIMENSIONS

World Bank Publications This Study explores arguments about the impact of climate change on human rights, examining the international legal frameworks governing human rights and climate change and identifying the relevant synergies and tensions between them. It considers arguments about (i) the human rights impacts of climate change at a macro level and how these impacts are spread disparately across countries; (ii) how climate change impacts human rights enjoyment within states and the equity and discrimination dimensions of those disparate impacts; and (iii) the role of international legal frameworks and mechanisms, including human rights instruments, particularly in the context of supporting developing countries' adaptation efforts. The Study surveys the interface of human rights and climate change from the perspective of public international law. It builds upon the work that has been carried out on this interface by reviewing the legal issues it raises and complementing existing analyses by providing a comprehensive legal overview of the area and a focus on obligations upon States and other actors connected with climate change. The objective has therefore been to contribute to the global debate on climate change and human rights by offering a review of the legal dimensions of this interface as well as a survey of the sources of public international law potentially relevant to climate change and human rights in order to facilitate an understanding of what is meant, in legal terms, by "human rights impacts of climate change" and help identify ways in which international law can respond to this interaction.

THROUGH THE LOOKING-GLASS

Aegypan When you look at fine connections, it's hard to say exactly what relation "Alice in Wonderland" has to this book, "Through the Looking-Glass," Oh, it's plainly the same girl, though she seems older, here, and some characters (like Tweedledum and Tweedledee) appear in both. But she doesn't get there the same way, and doesn't refer to her adventures in Wonderland so much as once. Oh well: maybe it's all a dream and she can't remember the last one -- or maybe the magic through the Looking-Glass has hold of her, just as it has hold of Humpty Dumpty, or the Walrus and the Carpenter.

GLOBAL TRENDS 2030

ALTERNATIVE WORLDS : A PUBLICATION OF THE NATIONAL INTELLIGENCE COUNCIL

U.S. Government Printing Office This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of Global Trends 2030. NIC leadership engaged with experts in nearly 20 countries,

from think tanks, banks, government offices and business groups, to solicit reviews of the report.

THE TALE OF PETER RABBIT

GENERAL PRESS The Tale of Peter Rabbit, first published by Frederick Warne in 1902, is a classic children's story by Beatrix Potter that is a must read for new and returning readers alike. Beatrix Potter was an English author, illustrator, natural scientist, and conservationist best known for her children's books featuring animals. Potter's artistic and literary interests were deeply influenced by fairies, fairy tales and fantasy. 'The Tale of Peter Rabbit' was her first publication. It tells the story of a very mischievous rabbit and the trouble he encounters in a vegetable garden. Peter disobeys his mother by going into Mr. McGregor's garden and almost gets caught. Potter's books continue to sell throughout the world in many languages with her stories being retold in song, film, ballet, and animation. The basis for the 2018 film, Peter Rabbit has been hailed as one of the bestselling stories of all time. The warmth and charm of Beatrix Potter's animal stories have made them favorites with generations of children and adults.

THE LAST FISH SWIMMING: THE GLOBAL CRIME OF ILLEGAL FISHING

ABC-CLIO This book examines the global, local, and specific environmental factors that facilitate illegal fishing and proposes effective ways to reduce the opportunities and incentives that threaten the existence of the world's fish. • Provides a criminological analysis of illegal fishing through the application of two important environmental criminology perspectives (rational choice and situational crime prevention) • Highlights the countries most at risk, i.e. hot spots of illegal fishing, and the ports most frequently used to land illegally caught fish • Discusses environmental factors that increase or reduce the risk of illegal fishing • Includes summary tables on the most vulnerable species and on global, regional, and local factors contributing to illegal fishing • Provides a toolbox of empirically founded policy recommendations on how illegal fishing can be stopped

WONDER

Random House 'Has the power to move hearts and change minds' *Guardian* 'Tremendously uplifting and a novel of all-too-rare power' *Sunday Express* 'An amazing book . . . I absolutely loved it. I cried my eyes out' *Tom Fletcher* Read the award-winning, multi-million copy bestselling phenomenon that is **WONDER**. 'My name is August. I won't describe what I look like. Whatever you're thinking, it's probably worse.' Auggie wants to be an ordinary ten-year-old. He does ordinary things - eating ice cream, playing on his Xbox. He feels ordinary - inside. But ordinary kids don't make other ordinary kids run away screaming in playgrounds. Ordinary kids aren't stared at wherever they go. Born with a terrible facial abnormality, Auggie has been home-schooled by his parents his whole life. Now, for the first time, he's being sent to a real school - and he's dreading it. All he wants is to be accepted - but can he convince his new classmates that he's just like them, underneath it all? A funny, frank, astonishingly moving debut - and a true global phenomenon - to read in one sitting, pass on to others, and remember long after the final page.

NATIONAL PLANNING POLICY FRAMEWORK 2012

The Stationery Office The National Planning Policy Framework 2012 sets out the Government's planning policies for England in achieving sustainable development and how these are expected to be applied. It sets out the requirements for the planning system only to the extent that it is relevant, proportionate and necessary to do so. It provides a framework within which local people and their accountable councils can produce their own distinctive local and neighbourhood plans, which reflect the needs and priorities of their communities. This Framework does not contain specific policies for nationally significant projects for which particular considerations apply. Divided into thirteen chapters, with three annexes, it looks at the following areas, including: building a competitive economy; ensuring town centre vitality; supporting a high quality communications

infrastructure; delivering high quality homes; protecting the Green Belt; meeting the challenges of climate change, flooding and coastal change; conserving the natural and historic environments and facilitating the sustainable use of minerals.

DEMOCRACY AND EDUCATION

Read Books Ltd This antiquarian volume contains a comprehensive treatise on democracy and education, being an introduction to the 'philosophy of education'. Written in clear, concise language and full of interesting expositions and thought-provoking assertions, this volume will appeal to those with an interest in the role of education in society, and it would make for a great addition to collections of allied literature. The chapters of this book include: 'Education as a Necessity of Life'; 'Education as a Social Function'; 'Education as Direction'; 'Education as Growth'; 'Preparation, Unfolding, and Formal Discipline'; 'Education as Conservative and Progressive'; 'The Democratic Conception in Education'; 'Aims in Education', etcetera. We are republishing this vintage book now complete with a new prefatory biography of the author.

DROWNING FOR JESUS

COMPASSION FATIGUE IN MINISTRY

Wipf and Stock Publishers While there are many books that address burnout in ministry, there are few that speak to compassion fatigue. The book is divided into three parts. Part I, "The Beckoning Sea," explains the perils of ministry, the church as a family system, the difference between burnout and compassion fatigue, and risk factors for ministry leaders. In Part II, "Finding Your Stroke," the authors offer prevention advice for burnout, compassion fatigue, and managing church systems. Part III, "The Rescue," discusses the process of recovery beginning with rest and retreat, and the minister's renewed calling. The authors explain how intentionality, building resiliency, and finding connection bring healing. A chapter is dedicated to clergy families. Using the analogy of ocean swimming and the story of Jonah, a reluctant preacher, the authors weave a common theme through the narrative offering education, understanding, and hope while sharing the stories of ministry leaders who have survived the turbulent waters of pastoral caregiving.
