A million pounds, perhaps five million, even ten million. How wonderful! Emma Carter buys a ticket for the lottery every week, and puts the ticket carefully in her bag. She is seventy-three years old and does not have much money. She would like to visit her son in Australia, but aeroplane tickets are very expensive. Jason Williams buys lottery tickets every week too. But he is not a very nice young man. He steals things. He hits old ladies in the street, snatches their bags and runs away . . . Few researchers have uncovered the obscure role lotteries play in the changing composition of American taxation. Even less is known about what role race plays in this process. More than simply taxing those on the social margins, the emergence of state lotteries in contemporary American history represents something much more fundamental about state fiscal policy. This book not only uncovers the underlying racial factors that contextualize lottery proliferation in the U.S., but also reveals the racial consequences that lotteries have in terms of redistributing tax liability. Medical Benefit and the Human Lottery An Egalitarian Approach to Patient Selection Springer Science & Business Media Bioethicists, moral philosophers and social policy analysts have long debated about how we should decide who shall be saved with scarce, lifesaving resources when not all can be saved. It is often claimed that it is fairer to save younger persons and that age is an ethically relevant consideration in such tragic decisions. Medical benefit should be maximized and final selection should aim to minimize the contaminating influence of chance. These claims are challenged by Duff R. Waring in Medical Benefit and the Human Lottery, one of the few books that attempts a sustained defence of random patient selection. This book combines ethics and political philosophy in its novel and strict egalitarian approach to patient selection for transplantable organs. Waring addresses the question of whether we should choose between lives on the basis of fair chances or best outcomes. He argues that final selection criteria should be based on fair chances that equalize opportunity as opposed to best outcomes. His defence of "hardy" egalitarianism aims to show that random selection by lottery can affirm both a common humanity and the equal value of lives. The notion of patient selection by lottery has not fared well in bioethics and has been regarded by some as a moral affront. Waring argues that a human selection lottery may be neither as crude nor as ethically anomalous as some have supposed. Indeed, it can reflect a familiar conception of equality as a political and moral ideal. This conception abstracts from many undeniable differences between patients and claims that scarce resources should be allocated on the principled assumption that each of their lives is equally worth saving. The book is also notable for its critiques of some recent utilitarian notions of medical benefit which can have an age-biased impact on elderly patients. Waring then argues against the leading, contemporary age-based approaches to patient selection. He explores the way random selection by lottery can affirm his egalitarian ethos in cases where eligible transplant candidates have each passed a threshold level of prospective medical benefit that has been set by democratic deliberation. Taming chance with a human lottery is defended as the most lucid means of ensuring equal opportunity. In so doing, Waring argues that we give the principle of equal concern and respect a radical expression: above a noncomparative threshold of medical benefit, each candidate can have an equal claim to life. Parliamentary Debates The Diamond Project: Rediscover the Gems Within Christian Faith Publishing, Inc. You can develop diamonds. If you've ever wondered if there is more to work than just going through the motions, you'll relate to Mason. You see, Mason has struggled for a long time to find satisfaction in his work. Day after day, he goes through the motions, following the "another day, another dollar" mentality. Until one day. The day, he attends Sophie's new project proposal. She nicknames it "The Diamond Project." Mason notices something different in the way Sophie presents the project. He can't put his finger on it. He asks if she'll explain it over lunch. One lunch turns into a series of lunches as Sophie shares how she became a "diamond miner." Join Mason as he follows Sophie's lead. Her simple yet often overlooked suggestions take Mason on a journey of discovery that allow him to develop his own diamonds, as well as the diamonds of those around him. He discovers the same principles are effective at home, in his community, and at work. He begins to realize that there's more to work, and life, than just punching a clock. Mason's journey in The Diamond Project will help you understand the following: • how to develop your diamonds and help other people develop theirs, • how to give yourself permission to be truly successful, • how to ask the right success questions of the right people, • the importance of environment, and • the diamond equation. Join Mason on his journey to becoming a diamond miner because if he can do it, you can too! April 2, 1987 Probability Tales American Mathematical Soc. This book explores four real-world topics through the lens of probability theory. It can be used to supplement a standard text in probability or statistics. Most elementary textbooks present the basic theory and then illustrate the ideas with some neatly packaged examples. Here the authors assume that the reader has seen, or is learning, the basic theory from another book and concentrate in some depth on the following topics: streaks, the stock market, lotteries, and fingerprints. This extended format allows the authors to present multiple approaches to problems and to pursue promising side discussions in ways that would not be possible in a book constrained to cover a fixed set of topics. To keep the main narrative accessible, the authors have placed the more technical mathematical details in appendices. The appendices can be understood by someone who has taken one or two semesters of calculus. Equity Home Bias diplom.de Inhaltsangabe: Introduction: Every investor faces the challenge of making the right investment decisions. Upon analysing the allocation of wealth among countries, it becomes evident that investors do not invest their financial wealth internationally, but tend to invest the majority of their wealth in domestic equity. Financial theory deems this behaviour irrational, since holding a domestic portfolio is considered to be suboptimal due to the foregone benefits of international diversification. Assuming that the financial theory is right in this prediction, the question as to what are the causes for this irrational behaviour comes to mind and forms the focal

point of this work. On the one hand, investors may be well aware of the costs connected with holding a domestic portfolio. Market restrictions, however, do not allow investors to attain the optimal international portfolio. On the other hand, investors may be unaware of the benefits of international diversification, and instead have a preference for domestic equity and fail to perceive the domestic portfolio as suboptimal. The traditional financial theory for this behaviour provides the institutional explanations with the focus on market imperfections and the behavioural financial theory provides explanations with the focus on investor irrationality. Following this classification of both theories, this work briefly reviews institutional explanations, as many of them lack empirical evidence and concentrates mainly on the behavioural explanations, as they are the focal point of current research and find wide empirical support. After defining equity home bias and related concepts in Chapter 2, the costs of equity home bias are discussed in Chapter 3. In Chapter 4, institutional explanations are considered. Section 4.1 reviews briefly a number of older institutional explanations, such as direct investment barriers, transactions costs and taxes, as they do not find much empirical support. Section 4.2 explores in more detail an explanation based on information asymmetry, as it may at least partially contribute to the solution of the home bias problem. With the emergence and acceptance of behavioural finance new explanations based on irrationality of investors were advanced and are presented in Chapter 5. Section 5.1 explores optimistic expectations about domestic markets as one of the early behavioural explanations. Section 5.2 deals with the competence hypothesis and creates a foundation for the [...] Lottery Marketing Representative Passbooks The Lottery Marketing Representative Passbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study. How to Win the Lottery with the Law of Attraction Four Lottery Winners Share Their Manifestation Techniques Createspace Independent Publishing Platform HOW TO WIN THE LOTTERY WITH THE LAW OF ATTRACTION was written by Law of Attraction lottery winner, teacher and author Eddie Coronado. Based on interviews with actual winners who have used the Law of Attraction to win lottery prizes, this book provides the metaphysical tools and insights that are necessary to win lottery and contest prizes through the creative power of thoughts and feelings. Although this book contains the manifestation techniques of people who have won money, these metaphysical exercises can be used to attract the perfect mate, a new career, financial success, or anything that you can make a part of your beliefs and feelings. There is no limit to how much money and success you can manifest through the Law of Attraction because this immense spiritual power does not have an opinion about what you should or should not have. You can use the Law of Attraction to manifest ten cents or ten million dollars. The determining factor is belief and expectancy, which can be harnessed by using the spiritual tools discussed in this book. THIS BOOK CONTAINS FOUR PARTS: PART 1: This section explores the tools that are used for the manifestation techniques in this book. The tools covered are as follows: Affirmations, Creative Visualization, Expectation, Gratitude, and the Practice of Receiving. You should take the time to carefully read this section even if you are familiar with the Law of Attraction and the power of intention. This section contains a number of insights and explanations that may have been missed by other authors and teachers. For example, the Practice of Receiving is a powerful tool that can help you attract a lot of money, yet many Law of Attraction books do not mention this important exercise. In addition, I have included some helpful information about gratitude and affirmations as it relates to manifesting money. Affirmations of words, thoughts, feelings, and actions are also covered. Finally, the most important element of any manifestation technique is creative visualization, which every Law of Attraction lottery and contest winner has used to win prizes. PART 2: This section includes the manifestation techniques used by the winners who were interviewed for this book. Each winner, including the author, is introduced and his/her manifestation exercise is documented to reflect the exact steps taken to win lottery prizes. No changes have been made in order to preserve the integrity of each winner's method. PART 3: This is a Question and Answer Section that covers the most important questions about the manifestation techniques in this book. The answers have been provided by the lottery winners who were interviewed. This Question and Answer section will provide clarity and direction for those readers who are committed to using the Law of Attraction to manifest lottery prizes. The questions included in this section cover topics such as: Should I buy lots of tickets? How will I know that my intention will work? How long will it take for me to get results? What part does luck play in manifesting lottery prizes? In addition, a host of other important questions are discussed. PART 4: This section contains helpful tips and suggestions that will explain how to implement the following manifestation techniques and how to make the most of them. It also contains information regarding the common denominators of the winners' daily action plan in order to provide a clear understanding of the mental and emotional habits that are necessary for manifesting lottery prizes with the Law of Attraction. Conduct of Harold Louderback, United States District Judge, Northern District of California Hearing Before the Special Committee of the House of Representatives, Seventy-second Congress, Pursuant to H. Res. 239 300 Winning Lottery Affirmations: Affirmations to Win the Lottery with the Law of Attraction Independently Published If you have read my other books you know that the Law of Attraction always responds to persistent, committed action. It does so because it is an eternal, spiritual law that is impartial and universal. This means that it will respond to anyone who uses it correctly. And because this power is infinite you can use it to manifest anything you desire, including millions of dollars. In fact, throughout the years many people have used the Law of Attraction to win contests, sweepstakes, and even lottery jackpots. The common denominator among every lottery winner who has manifested a winning ticket is that they were committed to using positive affirmations every day until their desire became their reality. They understood the immense power of their spoken word, and they used it to transform their lives and circumstances. This book will inspire you to do the same. WHY YOU SHOULD READ THIS BOOK This book contains 300 of the most powerful affirmations for manifesting lottery prizes. These affirmations have been used by several lottery winners to win prizes ranging from \$50,000.00 to several million dollars. The affirmations in this book are designed to give you a winning edge because they were written to inspire you, awaken your hope, and empower you to manifest the prosperity and abundance you deserve. There are no limits to the amount of money you can manifest with the Law of Attraction. The only limits you have are those within your consciousness, and those limiting beliefs can be changed through the persistent use of positive affirmations. This book provides all the tools you will need to manifest your desires with the power of your spoken word. Once you transform your beliefs and expectations, all the wonderful things you desire will become a part of your life. WHAT THIS BOOK CONTAINS This book begins with a Question and Answer Section that covers several of the most important questions about the effective use of affirmations. In addition to learning how to develop the habit of using affirmations daily, you will learn the best time to repeat affirmations, how often you should repeat them, how long it will take to change your beliefs, and a lot of other practical information. You will also learn how to harness the power of your spoken word through the use of two rarely used manifestation tools that can be used to increase your prosperity. In addition, you will learn how to double the effectiveness of your affirmations by incorporating a very important element that is often forgotten by most people who use them. After you read the Question and Answer Section, you will find 300 lottery affirmations that will provide you with a powerful, winning edge. By the time you finish reading this book you will be equipped with the tools necessary to transform your life with the dynamic power of your spoken word.
