KEY=BIRDS - JEFFERSON KAISER

New, Complete, and Universal Natural History of All the Most Remarkable Quadrupeds, Birds, Fishes, Reptiles, and Insects, in the Known World Illustrative of Their Natures, Dispositions, Manners, Habits &c Natural History of Birds, Fish, Insects, and Reptiles The Natural History of All the Most Remarkable Quadrupeds, Birds, Fishes, Reptiles, and Insects, from Buffon. ... With ... Engravings A System of Natural History Containing Scientific and Popular Descriptions of Man, Quadrupled, Birds, Fishes, Reptiles and Insects Natural History of Birds, Fish, Insects and Reptiles. [By G. L. Leclerc Count de Buffon.] Natural History of Birds, Fish, Insects and Reptiles. Embellished with Upwards of Two Hundred Engravings. in Five Volumes. ... of 5; Gale Ecco, Print Editions The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. Medical theory and practice of the 1700s developed rapidly, as is evidenced by the extensive collection, which includes descriptions of diseases, their conditions, and treatments. Books on science and technology, agriculture, military technology, natural philosophy, even cookbooks, are all contained here.

Report of the National Museum Annual Report of the Board of Regents of the Smithsonian Institution Showing the Operations, Expenditures, and Condition of the Institution ; for the Year Ended 1886. - 1889, 2 Report of the United States National Museum ... Annual Report Annual Report Nature and the Camera How to Photograph Live Birds and Their Nests; Animals, Wild and Tame; Reptiles; Insects; Fish and Other Aquatic Forms; Flowers, Trees, and Fungi (Classic Reprint) Excerpt from Nature and the Camera: How to Photograph Live Birds and Their Nests; Animals, Wild and Tame; Reptiles; Insects; Fish and Other Aquatic Forms; Flowers, Trees, and Fungi As a means of studying nature in most of its many forms, there is, perhaps, nothing better than the camera. Not only does it teach us to see much that would otherwise pass unnoticed, but it enables us to make records of what we see - records that are, as a rule, infinitely better and more useful than pencil notes; and the studying and photographing of one subject leads to another, and so we go from birds to insects, from insects to flowers, and from flowers to trees, until we have an acquaintance with things natural more intimate and far broader in its scope than would have resulted had we been content simply to try to see things and write notes on them. Nowadays, when every school has or should have its nature class, we find children scarcely out of the kindergarten who know more about our wild

birds and flowers than the great majority of the grown-up people to whom nature study was an unknown thing when they were young.
