### **A RESOURCE BOOK FOR PRACTITIONERS AND LOCAL DECISION-MAKERS BASED ON THE FINDINGS AND RECOMMENDATIONS OF AN FAO REVIEW**

---

*Food & Agriculture Org. On the occasion of the International Year of Mountains-2002, FAO and its partners undertook a large-scale assessment and global review of the current status and future trends of integrated and participatory watershed management. The overall objectives were to promote the exchange and dissemination of experiences in implementing watershed management projects in the decade from 1990 to 2000 and to identify the vision for a new generation of watershed management programmes and projects. This resource book represents a summary and critical analysis of the rich discussions and vast materials that emerged during the review, as well as the review's findings and recommendations. It presents the state of the art in watershed management, promotes further reflection and creative thinking and proposes new ideas and approaches for future watershed management programmes and projects. This publication has been written primarily for field-level watershed management practitioners and local decision-makers involved in watershed management at the district or municipality level. It will also be a useful source of information for other readers such as senior officers and consultants specialized in other areas, evaluators, policy-makers and students of watershed management*

## **ANALYTICAL MODELS FOR DECISION-MAKING**

---

*McGraw-Hill Education (UK) Health care systems are complex and, as a result, it is often unclear what the effects of changes in policy or service provision might be. At the same time, resources for health care tend to be in short supply, which means that public health practitioners have to make difficult decisions. This book describes the quantitative and qualitative methods that can help decision-makers to structure and clarify difficult problems and to explore the implications of pursuing different options. The accompanying CD ROM provides the opportunity to try out some of the proposed solutions. The book examines: Models and decision-making in health care Methods for clarifying complex decisions Models for service planning and resource allocation Modelling for evaluating changes in systems*

## **A GUIDE FOR NATIONAL ACTION**

---

*UNEP/Earthprint In 2002 the United Nations Environment Program (UNEP), as the Secretariat of the GPA, published a Handbook on the Development and Implementation of National Programs of Action for the Protection of the Marine Environment from Land-based Activities (the NPA Handbook). It provides guidance for environmental managers and policy makers on how to implement the GPA in their own countries. Since its release many lessons have been learned and related policy developments gained importance; reason for this updated and expanded version. In this revision it is stressed that, to be successful, institutional, financial, legislative, social, and technical barriers should be taken very serious while planning concrete action. The handbook calls for realistic, step-by-step implementation of priorities within a cross-sectoral, participatory framework, through a flexible and iterative process.--Publisher's description.*

## **COMPREHENSIVE PEDIATRIC NEPHROLOGY E-BOOK**

---

---

### **TEXT WITH CD-ROM**

---

*Elsevier Health Sciences This new clinical resource brings you a state-of-the-art comprehensive review on every clinical condition encountered in pediatric nephrology in one concise, clinically focused text. International experts provide you with the latest on epidemiology, diagnosis, investigations, management, and prognosis for a full range of pediatric kidney disorders. A full-color, highly visual, meticulously crafted format, makes this material remarkably easy for you to access and apply. Comprehensive Pediatric Nephrology also serves as an ideal resource for board review study for the ABP subspecialty boards in pediatric nephrology. Just the right amount of "need-to-know" basic science coupled with practical clinical guidance for every disorder helps you make efficient, informed decisions. The book provides a much needed update on the genetic origins of pediatric kidney disorders. Chapters about glomerulonephritis, nephrotic syndrome, and tubular disorders provide an orientation in the pathophysiology, differential diagnosis, and treatment of these heterogeneous disease entities. Disease specific chapters include diagnostic work-up, laboratory evaluation, and management of disorders and complications, making this necessary information readily accessible. The prevention and management of pediatric chronic renal failure and its complications are comprehensively covered in many detailed chapters. Four chapters devoted to childhood hypertension offer you insights into an increasingly prevalent condition among pediatric patients so you can treat them more effectively. A chapter on the role of the interventional radiologist in pediatric nephrology keeps you apprised of the latest advances in a key area in the field. The function of complementary and alternative medicine in patients with renal disease is reviewed for the first time in a standard pediatric nephrology textbook. A consistent organization throughout and a full-color layout lets you find diagnostic guidance quickly.*

## **ICT FOR A BETTER LIFE AND A BETTER WORLD**

---

### **THE IMPACT OF INFORMATION AND COMMUNICATION TECHNOLOGIES ON ORGANIZATIONS AND SOCIETY**

---

*Springer This book focuses on the impact of information and communication technologies (ICTs) on organizations and society as a whole. Specifically, it examines how such technologies improve our lives and facilitate our work. A main aspect explored is how actors understand the potential of ICTs to support organizational activities and hence, how they adopt and adapt these technologies to achieve their goals. The book collects papers on various areas of organizational strategy, e.g. new business models, competitive strategies, knowledge management and more. The main areas dealt with are new technologies for a better life, innovations for e-government, and technologies enhancing enterprise modeling. In addition, the book addresses how organizations impact society through sustainable development and social responsibility, and how ICTs employ social media networks in the process of value co-creation.*

## **INTRODUCTION TO THE LAW OF THE UNITED STATES**

---

*Kluwer Law International B.V. Introduction to the Laws.....Series Volume 5 As issues in American law turn up with ever-greater frequency in dozens of countries worldwide, some familiarity with the legal system of the United States of America has become de rigueur for practising lawyers everywhere. This incomparable handbook, now in its Second Edition, provides an authoritative description of the major elements, including all matters likely to emerge in the course of normal legal activity. Written from a clear and cogent comparative perspective, it is of great practical value for both counselling and courtroom use. Eighteen lucid chapters by distinguished American law professors, each of whom is also knowledgeable about a legal system outside that of the United States, explain the major laws, legal standards, and legal institutions of the United States. Substantive and procedural comparisons are presented in plain English, with appropriate commentary where deemed helpful to clarify particularly complex or unsettled matters. The resulting volume is an expert historical, systematic, and critical introduction to the law of the United States.*
