Aptis Speaking: Questions and Answers

Learn Strategies to Answer the Most Typical Questions in
the Oral Section of Aptis Exam

El objetivo que persigue este libro es ayudar al candidato a preparar la sección "Speaking" del Aptis. En este libro encontrarás cinco modelos de exámenes de la sección "Speaking" del Aptis. Cada modelo consta de sus cuatro secciones y cuenta con fotografías y el número de preguntas habituales para cada sección. Estas preguntas han sido escogidas entre las más frecuentes en el "Speaking" del Aptis. A dichas preguntas se les ha añadido sus correspondientes respuestas tipo para que el candidato pueda practicar y preparar su sección oral del Aptis lo mejor posible. En las respuestas el candidato puede hallar estructuras y vocabulario para elaborar por su cuenta otras posibles respuestas y desarrollar la creatividad e improvisación manteniendo el buen uso de la gramática y vocabulario. Tras la sección de exámenes se incluye una breve tabla con conectores para dar una estructura consistente al discurso

del candidato. Siempre es recomendable evitar los conectores elementales y emplear en su lugar otros con los que demostrar un mayor nivel del Inglés. A veces prestamos atención a los conectores en la sección de "Writing" pero no recurrimos a ellos en las pruebas orales sin tener en cuenta que en ambas estamos tratando de articular un discurso y los conectores son bienvenidos y necesarios. La última sección es el Workbook y se compone de varias respuestas tomadas de algunos de los exámenes. En estas respuestas se han omitido varias partes con la intención de que el candidato ensaye otras posibles respuestas y las compare luego con la respuesta modelo.

1,000 English Grammar Questions

1,000 English grammar questions is ideal for students who want to practice English grammar exercises in the style of the British Council Aptis exam. It is written for self-study or to use in a group with a teacher as additional practice material. It is useful as a tool for revision for practicing new structures. There are 30 tests including answers: 10 tests at Lower Intermediate / Intermediate B1 with 25 questions. 10 Tests at Intermediate / Upper intermediate B2 with 25 questions. 10 Tests from Lower Intermediate to Upper Intermediate B1-B2 with 50 questions. The book is aimed at intermediate level students who are preparing English exams or who want to practice those structures which often cause problems. Advanced students will also find the book useful.

Global Perspectives on Language Assessment Research, Theory, and Practice

Routledge *The sixth volume in the Global Research on Teaching and Learning English series offers up-to-date research on the rapidly changing field of language assessment. The book features original research with chapters reporting on a variety of international education settings from a range of diverse perspectives. Covering a broad range of key topics—including scoring processes, test development, and student and teacher perspectives—contributors offer a comprehensive overview of the landscape of language assessment and discuss the consequences and impact for learners, teachers, learning programs, and society. Focusing on the assessment of language proficiency, this volume provides an original compendium of cutting-edge research that will benefit TESOL and TEFL students, language assessment scholars, and language teachers.*

Assessing the English Language Writing of Chinese Learners of English

Springer Nature *This book focuses on the assessment of English language writing in China mainland, the territories of Hong Kong and Macau, and Taiwan. The first part of the book describes how writing in English has been assessed in Chinese contexts in the past 25 years, and how it continues to be assessed at present. The second part of the book presents reports of work such as formative classroom-based assessment, feedback-based or feedback-led approaches, learning-oriented assessment, portfolios, as well as the*

important issue of teacher professional development in writing assessment. This two-part division relates to and reflects what has been happening in writing assessment internationally, in the UK from the 1940s, and in the US in the past 25 years. The use of English for international business communication, for international political negotiations and its rapidly increasing use as a medium of instruction in some subject areas has led to a rapid increase in the numbers of Chinese L1 speakers who are learning and being assessed in English. This is often done with an emphasis on reading and writing. The vast majority of assessments of English language writing are done through large-scale direct testing that uses simple prompts/tasks and short writing samples. This book explores best practices in assessing the writing in English of native speakers of Chinese. Assessing the English Language Writing of Chinese Learners of English edited by long-time experts Liz Hamp-Lyons and Yan Jin clearly demonstrates the authors' collective years of writing and teaching about writing assessment. The book's 13 chapters, written by recognized experts in assessment of Chinese speakers learning English, represent a wide array of important topics written in reader friendly language and offering evidence for pedagogical practices as well as high-stakes testing of writing. Teachers, researchers, administrators of writing programs in China, and test developers who seek counsel about this population need look no further than to add Assessing the English Language Writing of Chinese Learners of English to their reading list. IELTS Collected Papers 2

Research in Reading and Listening Assessment

Cambridge University Press *This volume reports research that informs the development of reading and listening assessment in IELTS. This volume brings together a set of eight IELTS-related research studies - four on reading and four on listening - conducted between 2005 and 2010. Findings from these studies provide valuable evidence on the validity, reliability, impact and practicality of the IELTS test; they are also instrumental in highlighting aspects needing attention, and thus directly inform the continuing evolution of the IELTS reading and listening tests. The volume reviews and comments on the specific contribution of each study to the ongoing process of IELTS reading and listening test design and development.*

Issues in Language Testing

A symposium focusing on problems in the assessment of foreign or second language learning brought seven applied linguists together to discuss three areas of debate: communicative language testing, testing of English for specific purposes, and general language proficiency assessment. In each of these areas, the participants reviewed selected papers on the topic, reacted to them on paper, and discussed them as a group. The collected papers, reactions, and discussion reports on communicative language testing include the following: "Communicative Language Testing: Revolution or Evolution" (Keith Morrow) and responses by Cyril J. Weir, Alan Moller, and J. Charles Alderson. The next section, on testing of English for specific purposes, includes: "Specifications for an English Language Testing Service" (Brendan J. Carroll) and responses by Caroline M. Clapham, Clive Criper, and Ian Seaton. The final section, on general language proficiency, includes: "Basic Concerns in Test Validation" (Adrian S. Palmer and Lyle F. Bachman) and "Why Are We Interested in General Language Proficiency'?" (Helmut J. Vollmer), reactions of Arthur Hughes and Alan Davies, and the subsequent response of Helmut J. Vollmer. (MSE)

Teacher Involvement in High-Stakes Language Testing

Springer *This book advocates that teachers should play an active role in high-stakes language testing and that more weight should be given to teacher judgement. This is likely to increase the formative potential of high-stakes tests and provide teachers with a sense of ownership. The implication is that the knowledge and skills they develop by being involved in these tests will feed into their own classroom practices. The book also considers the arguments against teacher involvement, e.g. the contention that teacher involvement might entrench the practice of teaching to the test, or that teachers should not be actively involved in high-stakes language testing because their judgement is insufficiently reliable. Using contributions from a wide range of international educational contexts, the book proposes that a lack of reliability in teacher judgement is best addressed by means of training and not by barring educators from participating in high-stakes language testing. It also argues that their involvement in testing helps teachers to bolster confidence in their own judgement and develop their assessment literacy. Moreover, teacher involvement empowers them to play a role in reforming high-stakes language testing so that it is more equitable and more likely to enhance classroom practices. High-stakes language tests that adopt such an inclusive approach facilitate more effective learning on the part of teachers, which ultimately benefits all their students.*

Content and Language Integrated Learning in Monolingual Settings

New Insights from the Spanish Context

Springer Nature *This book offers new empirical insights into the current state of Content and Language Integrated Learning (CLIL) characterisation (through an innovative proposal to link CLIL to English as a Lingua Franca), implementation (via observation protocols and SWOT analyses), and research (by examining the effects of CLIL on the L1, foreign language, key competences, and content subjects taught through English). The book provides a state of the art of the CLIL arena, identifies the chief challenges that need to be addressed and signposts possible ways of overcoming these in order to continue advancing smoothly into the next decade of CLIL development. This book will be of interest to researchers, policy-makers, educational authorities, and practitioners as it will assist them in making informed decisions about how to characterise, implement, and investigate CLIL in the bi- and plurilingual programs that are more frequently introduced in monolingual contexts.*

Doing Research in Organizations (RLE: Organizations)

Routledge *This textbook provides first-hand, inside accounts of the process of doing research in organizations. It is intended both for students of research methods in sociology and social psychology, and for students of organization studies, organizational behaviour and management. The contributors tackle such problems as: gaining access to organizations, 'getting on' in organizations, quantitative and qualitative styles of investigation, the use of historical materials, the effects of resources on the context of research, the part played by political factors in organizational research, the relevance of grounded theory and conducting research within a cross-cultural framework.*

Vocabulary in Language Teaching

Cambridge University Press *Internationally recognised as one of the leading texts in its field, this volume offers a comprehensive introduction to vocabulary for language teachers who would like to know more about the way vocabulary works. Two leading specialists make research and theory accessible, providing the background knowledge necessary for practitioners to make informed choices about vocabulary teaching and testing. This second edition retains the popular format of the first edition, and has been rewritten to take account of the many developments in the past 20 years. There is a greater focus on the vocabulary learning process, with new chapters on incidental learning, and intentional learning, and a new wide-ranging discussion of formulaic language. The book now also includes extensive treatment of word lists and vocabulary tests, with explanations of their various strengths and limitations. Updated further reading sections, and new Exercises for Expansion make this volume more invaluable than ever.*

The Acquisition of Chinese as a Second Language Pronunciation

Segments and Prosody

Springer Nature *This book is the first edited book to cover a wide range of issues related to Chinese as a second language (CSL) speech, including tone and segment acquisition and processing, categorical perception of tones, CSL fluency, CSL intelligibility/comprehensibility and accentedness, and pronunciation pedagogy. Moreover, the book addresses both theoretical and pedagogical issues. It offers an essential go-to book for anyone who is interested in CSL speech, e.g. CSL speech researchers, Chinese instructors, CSL learners, and anyone interested in second language speech.*

Takes into account the most recent developments in research in applied linguistics, language teaching, and language assessment. Illustrative test development projects guide readers through the process. Additional website material accompanies the book.*

The Routledge Handbook of Language Testing

Routledge *This second edition of The Routledge Handbook of Language Testing provides an updated and comprehensive account of the area of language testing and assessment. The volume brings together 35 authoritative articles, divided into ten sections, written by 51 leading specialists from around the world. There are five entirely new chapters covering the four skills: reading, writing, listening, and speaking, as well as a new entry on corpus linguistics and language testing. The remaining 30 chapters have been revised, often extensively, or entirely rewritten with new authorship teams at the helm, reflecting new generations of expertise in the field. With a dedicated section on technology in language testing, reflecting current trends in the field, the Handbook also includes an extended epilogue written by Harding and Fulcher, contemplating what has changed between the first and second editions and charting a trajectory for the field of language testing and assessment. Providing a basis for discussion, project work, and the design of both language tests themselves and related validation research, this Handbook represents an invaluable resource for students, researchers, and practitioners working in language testing and assessment and the wider field of language education.*

Language Planning in Higher Education

A Case Study of Pakistan

Oxford University Press, USA *Based on an in-depth sociolinguistic case study of language planning in Pakistan, this book examines the extent of the linguistic support in Urdu, English or the mother tongue available to students to cope with their courses in higher education. Keeping in view the paucity of research in the area of sociolinguistics, bilingual education, and language planning in the Pakistani and the South Asian context, this volume will be of interest not only to language planners and curriculum developers, but also to English language teachers and students in Pakistan and abroad. This study is unique in that it illustrates the sociolinguistic profile in Pakistan and provides insights into the complex issues of multiculturalism and ethnicity, and their impact on linguistic, educational and socio-cultural outcomes. It focuses particularly on problems confronting language planning in higher education, along with guidelines for its implementation.*
