Congress and of All Departments of the Government of the United States Being the "Comprehensive Index" Provided for by the Act Approved January 12, 1895 Statutes of the State of Ohio, of a General Nature, in Force, December 7, 1840 Also, the Statutes of a General Nature, Passed by the General Assembly at Their Thirty-ninth Session, Commencing December 7, 1840 Properties of Violence University of Georgia Press Through the compelling story of the Tierra Amarilla conflict, David Correia examines how law and property, in general, and a Mexican-period land grant in northern New Mexico, in particular, have been constituted through violence and social struggle. Spain and Mexico populated what is today New Mexico through large common property land grants to shepherders and agriculturalists. After the U.S.-Mexican War the area saw rampant land speculation and dubious property adjudication with nearly all the grants being rejected by U.S. courts or acquired by land speculators. Of all the land grant conflicts in New Mexico's history, Tierra Amarilla is one of the most sensational, with numerous nineteenth-century speculators ranking among the state's political and economic elite and a remarkable pattern of resistance to land loss by heirs in the twentieth century. Correia narrates a long and largely unknown history of property conflict in Tierra Amarilla characterized by nearly constant violence-night riding and fence cutting, pitched gun battles, and tanks rumbling along the rutted dirt roads of northern New Mexico. The legal geography he constructs is one that includes a remarkable cast of characters: millionaire sheep barons, Spanish anarchists, hooded Klansmen, Puerto Rican freedom fighters-or as J. Edgar Hoover, another of the characters in Correia's story would have called them, "terrorists." By placing property and law at the center of his study, "Properties of Violence" first reveals and then examines a central irony: violence is not the opposite of law but rather is essential to its operation. **The Pacific Reporter** "Comprising all the decisions of the Supreme Courts of California, Kansas, Oregon, Washington, Colorado, Montana, Arizona, Nevada, Idaho, Wyoming, Utah, New Mexico, Oklahoma, District Courts of Appeal and Appellate Department of the Superior Court of California and Criminal Court of Appeals of Oklahoma." During the confused events of that night, a local businessman was shot by an unknown assailant, and the six men were shortly thereafter captured and charged with murder, largely on the basis of circumstantial evidence. They were found guilty. When this verdict was appealed and the state supreme court reversed it on a technicality, a second trial in May, 1922, ended with an identical decision and sentence. A series of fruitless appeals followed, and on May 9, 1924, the prisoners were hanged in Amite City—the nation's only execution of six men for the murder of one. Using court transcripts, newspaper accounts, and interviews, John Baiamonte recounts the dramatic and often moving story of these six men and their trial, which in its day was to become a national and international cause célèbre. He explores the social prejudices of the day, particularly the popular assumption that any criminal activity involving Italians was part of a plot by the Mafia. Fear of Italian gangsters, especially from a tightly organized Mafia, had been rampant in southern Louisiana since the 1890s, as was prejudice against the hardworking law-abiding Sicilian immigrants who had settled in large numbers in Tangipahoa Parish, where these events took place. "Bloody Tangipahoa" had long been notorious for violence, particularly against minorities. Moreover, the parish judicial system at that time, the trial judge, and the state Board of Pardons, which reviewed the Italians' appeal, were thought to be involved with the Ku Klux Klan. Even the governor, John M. Parker, was one of the leaders of a mob that murdered eleven Italians suspected of Mafia affiliation in New Orleans in 1891. Baiamonte also examines the mood of the courtroom, the pressures put upon the lawyers, the jury, and the witnesses to convict the six—despite the fact that the prosecution's only witness to the shooting failed to identify any of the defendants and no witness could place the defendants closer than three miles from Independence on the night of the murder. Everyone became a participant in the courtroom, even the spectators. They applauded when new evidence against the defendants was introduced. In cameos of each of the convicted men, Baiamonte describes moods and actions. Joseph Bocchio, one of the condemned, read Shakespeare and wrote poems, which were published in the local paper. Spirit of Vengeance affords an intriguing view of a tumultuous period in Louisiana history, and the six men whose vain struggle to survive brought them international attention. **The Daily Washington Law Reporter** Vols. for 1902- include decisions of the District of Columbia Court of Appeals and various other courts of the District of Columbia. **The Code of Civil Procedure of the State of New York With All Amendments Thereto, Down to and Including Those Enacted in 1894, Fully and Exhaustively Annotated The Code of Civil Procedure of the State of New York, with All Amendments Thereto, Down to and Including Those Enacted in 1894, Fully and Exhaustively Annotated The Statutes at Large of the United States from ...
